

Atharva Kale

Supply Chain Analyst

+1 (205) 223 1378 | atharva.k@themailpad.com | [LinkedIn](#) | Birmingham, AL

SUMMARY

Supply Chain Analyst with around 5 years of experience streamlining global and multi-regional operations through logistics planning, cost modeling, network optimization, and demand forecasting to ensure >97% on-time delivery. Proficient in ERP/SCM platforms like SAP MM, Oracle SCM Cloud, NetSuite, Fishbowl, and Blue Yonder to enhance procurement, inventory, warehouse, and distribution processes. Skilled in Tableau, Power BI, SQL, and advanced Excel (PivotTables, Power Query, VBA) for supplier reporting, inventory tracking, and transportation analytics. Experienced in root cause analysis, ABC/XYZ inventory classification, safety stock planning, and lead time reduction to boost efficiency and reduce costs. Also experienced in MRP, S&OP, reverse logistics, carrier performance evaluation, risk mitigation, and cross-functional collaboration to align operations with business goals.

EDUCATION

Master of Science in Data Science

University of Alabama at Birmingham, USA.

WORK EXPERIENCE

Wayfair | Supply Chain Analyst

Jan 2025 – Current

- Engineered inventory planning operations across 6 fulfillment centers using Kinaxis RapidResponse, SAP S/4HANA, and Excel simulation models, reducing excess stock by 23% and unlocking over \$300,000 in working capital reserves
- Designed, developed, and deployed end-to-end machine learning forecasting models in Python that integrated seasonal trends, promotional campaigns, and customer behavior data, boosting forecast accuracy by 21% across 12 high-volume product categories
- Automated procurement planning workflows by integrating EOQ calculations, safety stock buffers, and dynamic reorder point triggers into SAP MM modules, improving supplier fulfillment rates by 15% and reducing urgent/emergency purchase orders by 30%
- Built Power BI dashboards tracking KPIs like OTIF, forecast accuracy, turnover, reducing stockouts by 17% across categories
- Collaborated with global category sourcing teams and 3PL logistics partners to redesign vendor contract terms and adopt a multi-supplier sourcing model, reducing average lead time by 13% and generating over \$190,000 in annualized cost savings
- Launched a supply chain sustainability initiative focused on optimizing transportation modes for cost and emissions using carbon impact models and low-emission carrier networks, resulting in a 14% cut in CO₂ emissions associated with outbound deliveries
- Led S&OP meetings with variance reports, demand simulations, and actionable risk insights, ensuring strategic alignment across teams

Kroger | Supply Chain Analyst

Jan 2024 – Dec 2024

- Revamped the monthly S&OP process by deploying Anaplan-driven collaborative forecasting tools, achieving a 27% cut in planning time and a 98% SLA adherence rate across 12 regional distribution centers servicing 2000+ stores.
- Created supplier performance and cost-variance dashboards using complex SQL queries, Tableau visualizations, and Excel macros, uncovering inefficiencies that drove \$175,000 in annual savings through restructured vendor contracts and service-level improvements
- Applied Lean Six Sigma (Green Belt) methodologies to re-engineer international freight routing and customs documentation flows, cutting shipping lead times by 33% and reducing demurrage and detention penalties by over 40% on average
- Improved shelf availability of high-demand SKUs by reconfiguring allocation logic using ABC/XYZ segmentation techniques, seasonal demand curves, and variability indexes, increasing promotional product availability by 16% during peak periods
- Executed barcode and RFID tracking system rollout across 4 regional hubs with third-party logistics, reducing inventory reconciliation time by 38 hours weekly and shrinkage losses by 29%.
- Transformed cold chain logistics by aligning turnover with shelf-life, achieving 97% freshness compliance and cutting spoilage losses

Blue Dart Express, | Logistics Analyst

Aug 2019 – Jul 2022

- Implemented SAP S/4HANA integrated with Oracle SCM Cloud across 9 regional hubs, enabling better inventory visibility, centralized planning workflows, and reducing excess stock carrying costs by over \$340,000 annually through smarter demand-supply matching
- Constructed real-time shipment tracking and SLA performance dashboards by integrating WMS and TMS platforms with RFID and IoT sensors, leading to a 19% improvement in first-attempt delivery rates and a 24% increase in overall SLA compliance metrics
- Developed KPI-driven supplier and carrier scorecards capturing OTIF, average lead time, shipment return rates, and delay penalties, which improved accountability and boosted on-time delivery performance by 26% in six months
- Conducted predictive disruption modeling using GIS-based route planning, traffic congestion patterns, and weather forecasts, successfully reducing route-related delivery failures by 31% during India's monsoon season and other high-risk periods
- Managed comprehensive cross-regional training initiatives for temperature-sensitive pharmaceutical shipments, achieving 99.7% protocol adherence and minimizing spoilage-related losses by \$135,000 across all pharma hubs
- Digitized customs processes using RFID and verification systems, cutting clearance time by 41% and boosting cargo accuracy.

SKILLS

Methodologies: Lean Six Sigma, Agile, Just-in-Time (JIT), 5S, Value Stream Mapping, Root Cause Analysis (5-Why, Fishbone Diagram), Continuous Improvement (Kaizen)

Software/Tools: Advanced Excel (Pivot Tables, VLOOKUP, VBA/Macros), Power BI, Tableau, SAP S/4HANA (MM, SCM), Oracle SCM Cloud, Anaplan, Kinaxis RapidResponse, MS Office, MS Project

Analysis & Planning: Demand Forecasting, Inventory Optimization, S&OP (Sales & Operations Planning), Safety Stock Calculation, Economic Order Quantity (EOQ), KPI Tracking & Reporting (OTIF, Cycle Time, Fill Rate), ABC/XYZ Analysis, What-if Scenario Modeling

Databases: SQL (MS SQL Server, MySQL, Oracle Database)

Logistics & Operations: Warehouse Management Systems (WMS), Transportation Management Systems (TMS), Inbound/Outbound Logistics, Supplier Scorecarding, Order Management, RFID/IoT Supply Chain Integration

Cloud & Data Platforms: SAP S/4HANA Cloud, Oracle SCM Cloud, Azure Synapse, AWS S3

Collaboration & Communication: Cross-functional Team Collaboration, Supplier Relationship Management, Procurement Support, Stakeholder Engagement, Global Supply Chain Coordination
