

Rakesh Reddy Duvvuru

Supply Chain Analyst

rakesh.r@newjobrequire.com | 801-215-9764 | TX

SUMMARY

Supply Chain Analyst with 4+ years of experience optimizing supply chain operations at Bristol-Myers Squibb and Orion Technolab. Proficient in leveraging Lean Six Sigma, JIT, Kanban, and Value Stream Mapping to enhance efficiency, reduce costs, and improve delivery timelines. Skilled in utilizing SAP ECC 6.0, S4/HANA, Tableau, and Power BI for data-driven decision-making, demand forecasting, and inventory management. Adept at conducting Root Cause Analysis (RCA), PFMEA, and Fishbone to mitigate risks and ensure regulatory compliance. Demonstrated expertise in strategic sourcing, vendor management, and route optimization, achieving significant cost reductions and operational improvements. Strong project management and crisis communication skills, with a proven track record of driving process excellence and stakeholder collaboration in fast-paced environments.

SKILLS

Methodology and Supply Chain Tools: JIT Project, 5S, 5-Why, Value Stream Mapping, A3s, Six Sigma, Lean, Kanban, Lean Six Sigma, Root Cause Analysis (RCA), SAP – ECC 6.0, S4/HANA

Managerial Skills: Strategic Sourcing, Global Supply Chain Management, Conflict Resolution, Market Analysis, Regulatory Compliance, Customer Relationship Management (CRM), Budgeting and Financial Analysis, Strategic Vendor Selection

Program/ Software: SAP, Tableau, Power BI, MS Word, Microsoft Project, Microsoft Excel, PowerPoint, MS Office, MS Teams, ERP

Analysis: DFMEA, PFMEA, Fishbone, FTA, Why-Why

Logistics: Route Optimization, Career negotiation, Transportation management

Core Competencies: Supply Chain Management, Inventory Management, Demand Planning, Production Planning, Forecasting

Managerial Skills: Project Management, Financial Management, Quality, Risk Control Management, Safety Management

EDUCATION

Master of Science in Information Technology and Management

May 2024

The University of Texas at Dallas (UTD)

EXPERIENCE

Bristol-Myers Squibb, TX | Jan 2024 – Current | Supply Chain Analyst

- Implemented Just-In-Time (JIT) inventory strategies to optimize stock levels, reducing excess inventory by 15% while ensuring seamless production schedules in a high-demand pharmaceutical environment.
- Conducted Value Stream Mapping (VSM) to identify bottlenecks in the supply chain process, streamlining operations and cutting lead times by 10% across key product lines.
- Utilized SAP ECC 6.0 to manage procurement and inventory data, improving order accuracy by 12% through enhanced system reporting and data integration.
- Applied Root Cause Analysis (RCA) to resolve recurring supply chain disruptions, identifying critical issues in vendor delivery schedules and reducing delays by 20%.
- Led Strategic Sourcing initiatives, negotiating contracts with global suppliers to achieve cost savings of \$500,000 annually while maintaining compliance with regulatory standards.
- Developed Tableau dashboards to visualize demand planning metrics, enabling data-driven forecasting that improved inventory turnover by 18%.
- Managed Project Management activities for cross-functional teams, coordinating logistics and production planning to ensure on-time delivery of critical pharmaceutical products.

Infinite Infolab, India | June 2019 - April 2022 | Supply Chain Analyst

- Applied Lean Six Sigma principles to optimize warehouse operations, reducing material handling time by 25% through process redesign and employee training.
- Designed and implemented Kanban systems to improve workflow efficiency, decreasing stockouts by 30% in high-volume product categories.
- Leveraged S4/HANA for real-time supply chain analytics, enhancing visibility into inventory levels and reducing overstock by 22%.
- Conducted 5-Why analysis to address transportation delays, implementing route optimization strategies that cut logistics costs by 15%.
- Performed PFMEA (Process Failure Mode and Effects Analysis) to identify risks in production planning, mitigating potential disruptions and improving process reliability by 10%.
- Utilized Power BI to create interactive reports for stakeholder presentations, improving decision-making accuracy in global supply chain management.
- Led Crisis Communication efforts during supply chain disruptions, coordinating with vendors and internal teams to maintain customer satisfaction and minimize downtime.
- Drove Demand Planning and Forecasting using MS Excel and ERP tools, achieving a 95% forecast accuracy rate and optimizing inventory allocation across multiple regions.
