

Bala Divya Patibandla
Cypress, TX | +1 (631)-923-5017 | adpatibandla@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with **3+ years** of experience delivering actionable insights through **SQL, Power BI, Excel, and Python** across healthcare, operations, and enterprise environments. Strong expertise in dashboard development, **KPI reporting, ETL automation, and data validation** for high-volume datasets. Proven ability to translate business requirements into **scalable BI solutions and executive-ready visualizations**. Experienced in data modeling, performance optimization, and cross-functional collaboration with business, engineering, and leadership teams. Adept at supporting data migrations, governance initiatives, and automated reporting workflows. Detail-oriented analyst with a consistent track record of improving data quality, reporting efficiency, and decision-making.

SKILLS

Data Visualization & BI: Power BI, Tableau, DAX, KPI Design, Dashboard Development, Data Storytelling
Databases & SQL: MySQL, PostgreSQL, Oracle, Advanced Joins, CTEs, Window Functions, Query Optimization
Data Analysis: Excel (Pivot Tables, VLOOKUP/XLOOKUP, Power Query, Advanced Formulas, Data Cleaning)
ETL & Automation: Airflow, DBT, Alteryx, Data Pipelines, Scheduling, Data Migrations
Programming: Python (Pandas, NumPy, Matplotlib)
Analytics Concepts: Data Modeling (Star/Snowflake Schema), Trend Analysis, Root Cause Analysis, Data Validation
Tools & Methodologies: Jira (Agile/Scrum), GitHub, SDLC, Stakeholder Management

EXPERIENCE

CareHealth – Data Analyst

Springfield, IL | Apr 2025 – Present

- Analyze large-scale healthcare datasets using advanced SQL and Excel to support regulatory compliance, operational, and financial reporting.
- Design and maintain interactive **Power BI dashboards** for cost, utilization, and patient outcome metrics, enabling leadership-level insights.
- Develop automated reporting solutions using **Power BI datasets and Excel Pivot Tables**, reducing manual reporting effort and turnaround time.
- Perform comprehensive **data validation, reconciliation, and accuracy checks** across claims, billing, and patient systems.
- Optimize SQL queries and reporting logic to improve performance and reliability of recurring reports.
- Collaborate with business, compliance, and operations stakeholders to gather requirements, define KPIs, and enhance reporting workflows.

TechBridge Partners LLC – Data Analyst

Houston, TX | Dec 2024 – Apr 2025

- Extract, transform, and analyze large operational datasets using **SQL and advanced Excel** to support KPI and performance reporting.
- Build and enhance **Power BI dashboards** tracking safety operations, trends, and business metrics for leadership review.
- Conduct SQL-based **data validation and reconciliation** during data migrations to ensure reporting accuracy across systems.
- Perform ad-hoc analysis and root-cause investigations to identify data discrepancies and operational inefficiencies.
- Partner with cross-functional teams to define reporting requirements and deliver data-driven insights.
- Support Agile delivery as **Scrum Master**, facilitating sprint planning, stand-ups, retrospectives, and backlog grooming.

Advithri Technologies LLC – Data Analyst

Dallas, TX | Jan 2024 – Nov 2024

- Analyze high-volume operational and transactional datasets using **SQL and Excel** to support enterprise BI initiatives.
- Automate ETL workflows using **Airflow, Alteryx, and DBT**, improving data reliability and reducing manual intervention.
- Design, develop, and optimize **Power BI and Tableau dashboards**, reducing reporting turnaround time by approximately **60%**.
- Implement data quality checks, validations, and performance tuning to ensure accuracy of analytics outputs.
- Collaborate with engineering and operations teams to define **data models, KPIs, and reporting standards**.

- Document BI workflows, ETL logic, and dashboard usage to support scalability and knowledge transfer.

Information Technology Student Assistant

Houston, TX | Oct 2022 - Dec 2023

University of Houston - Downtown

- Designed and maintained structured datasets using **Excel (Pivot Tables, Power Query, advanced formulas)** for academic and staff performance reporting.
- Extracted and analyzed institutional data using **SQL (joins, aggregations, filters)** from ERP and student information systems.
- Built standardized reports and dashboards using **Excel and Power BI** to track operational and performance metrics.
- Performed data cleaning, validation, and reconciliation to ensure accuracy and consistency across reporting systems.
- Supported ERP and academic systems by assisting with audits, reporting workflows, and data governance initiatives.
- Trained faculty and staff on Excel-based reporting tools and dashboards, improving adoption and reporting efficiency.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- SQL for Data Analysis – LinkedIn Learning
- PwC – Power BI Job Simulation
- Accenture – Data Analytics & Visualization Virtual Internship

EDUCATION

University of Houston-Downtown, Houston, TX

Master of Science (M.S.) - Data Analytics

Bachelor of Science (B.S.) - Computer Science
