

Merlyn D'Souza

Woburn, MA - 01801 • dmerlyn15@yahoo.com • (617)-708-2400 • [linkedin](#) • [tableau](#) • [github](#)

Senior Data Analyst with 7+ years of experience in delivering BI strategies, data analytics, and advanced visualization solutions. Proficient in Tableau, Power BI, SQL, Python, Snowflake, and Salesforce, with expertise in aligning BI and forecasting tools with business goals. Skilled in ETL, data modeling, predictive analytics, designing metrics, requirements gathering and project management for operational success across customer experience, product management, sales, finance, and HR.

Education

Master of Professional Studies, Analytics, Northeastern University, Boston, MA **May 2023**

Coursework: Data Processing and Modeling, Master Data Management, Data Visualization, Commercial Analytics

Post Graduate Diploma, Management, Welingkar Institute, Mumbai, India **Oct 2018**

Coursework: Project Management, Product Distribution, Strategic Innovation, Managerial Economics, Auditing

Bachelor of Science (Honors), Life Sciences, St. Xavier's College (Autonomous), Mumbai, India **Jun 2013**

Coursework: Probability Theory, Biostatistics, Epidemiology, Database Management Systems, Clinical Research

Skills

Tools: Tableau, Power BI (DAX, M Code), Alteryx | Database: SQL, SAP HANA, Snowflake | Forecasting: Python (Pandas, NumPy, Sci-kit, Matplotlib), R (ggplot, dplyr), Predictive Analytics, Time-series Analysis | Cloud Platforms: Azure DevOps, AWS | BI Tools: Spotfire, Sigma Computing, Google Data Studio | CRM: Salesforce, SAP, QlikView, Veeva

Professional Experience

Senior Data Analyst – Rapid Micro Biosystems **Jun 2023–Jun 2025**

- Automated reporting workflows from Excel to Power BI, eliminating manual efforts, resulting in a 76% reduction in data errors and a 90% increase in report generation speed, optimizing data solutions and enabling real-time insights.
- Designed and built Tableau dashboards to provide insights that supported key operational and strategic decision-making.
- Led end-to-end SAP and Salesforce integrations into Power BI, including requirement gathering, SQL query optimization, data modeling, ETL, revenue forecasting, and visualization improving analytics efficiency by 30%.
- Designed forecasting models to predict sales trends, and optimize resource allocation, leveraging advanced BI and modeling techniques, communicating forecasting outcomes and explaining model assumptions and limitations.
- Partnered with Product Management, Finance Quality, and Supply Chain teams to define metrics and KPIs while leveraging historical data and advanced analytics to predict future trends, enabling data-driven decision-making.

Data Analyst, Point Focal, Boston (Co-op) **Jul 2022-Jan 2023**

- Transformed raw data and developed database models using Spotfire to support financial analysis and decision-making.
- Integrated natural language narratives, dynamic filters and calculations to enhance reporting efficiency
- Conducted A/B testing to evaluate portfolio management strategies and optimize market structure analysis
- Wrote and refined SQL queries to streamline financial dashboard reporting and ensure data integrity for stakeholders.

Data Analyst, Amane Advisors-Roland Berger, Boston (Co-op/XN Project) **Jan 2022- Mar 2022**

- Analysed water violation datasets through exploration, cleaning, and scraping to identify top offenders in US cities and states
- Managed over a million unstructured data records with Python and visualized top violator states and cities in Tableau
- Processed large datasets by independently cleaning, normalizing, transforming data, and generating analysis for clients.

Business Analyst, KOLs and Peers Analytics, Mumbai **Nov 2018 – Mar 2021**

- Defined and Standardized profiling data, improving segmentation, and resulting in a 17% increase in a meeting-to-order rate
- Created a database of 2000 vetted prospective customers, leading to a 20% rise in contact-to-meeting conversion rate
- Hit a 25% target with CRM data, conducting need gap analysis and reporting bugs in the model of the cloud-based tool.

Medical Sales Analyst, GlaxoSmithKline Pharmaceuticals, Mumbai **Jul 2013 – Oct 2018**

- Spearheaded strategic sales initiatives and collaborated on KPI metrics development across teams, leveraging Veeva CRM and QlikView to track sales performance and customer engagement, resulting in a 10% increase in sales
- Validated antibiotic and vaccine data, ensuring data credibility, and addressed inconsistencies to maintain stakeholder trust.

Academic Projects

Correlations in Stroke Management (R) **Apr 2021–Dec 2021**

- Analysed stroke data in R, revealing age as the key morbidity factor with a 12.4% increase in individuals over 70
- Investigated stroke's variables with Classification, Clustering and Correlation plots, visualized using ggplot2 and Plotly
- Developed a predictive model employing Decision Tree, LASSO and Random Forest Regression to forecast stroke outcomes.
