

Charan Kumar Reddy Bukkana

Data Analyst

+1 (860) 506-7767 | Charan.kumar.reddy@outlook.com | [LinkedIn](#)

SUMMARY

Data Analyst with 2+ years of comprehensive experience in interpreting and analyzing complex datasets to drive strategic business decisions. Proficient in employing advanced analytical techniques and tools such as SQL, Python, and data visualization platforms like Tableau and Power BI to extract actionable insights. Experience in translating business requirements into data-driven solutions, collaborating cross-functionally to optimize processes, and enhancing operational efficiency.

SKILLS

Methodology: SDLC, Agile, Waterfall

Language: SQL, Python, Spark, Java, R

IDEs: PyCharm, Google Colab, Visual Studio Code, Jupyter Notebook

Packages: NumPy, Matplotlib, Scikit-learn, Pandas, ggplot2

Visualization Tools: Tableau, Power BI

Statistical Analysis: Cluster, Regression Analysis, Random Forest

ETL Tools: SSIS, Talend

Cloud Technology: Azure, Databricks, AWS (S3, EC2, and Redshift), Snowflake

Tools: MS Excel (HLOOKUPS, VLOOKUPS, Pivot Tables), MS Visio

Databases: MongoDB, Oracle, SQL Server, MySQL

EXPERIENCE

Data Analyst, CVS Health, USA

Jun 2025 – Present

- Led a comprehensive data analysis initiative utilizing SQL, Python, and Excel, resulting in a 30% improvement in data-driven decision-making and operational efficiency.
- Pioneered the development and execution of data quality assurance protocols to ensure the precision and reliability of healthcare data, ultimately slashing errors by a notable.
- Built data pipelines and orchestrated data flows using SAS Visual Analytics, reducing data processing time by 40% and improving data accessibility.
- Wrote complex SQL queries to generate data-driven recommendations for healthcare management in Power BI, leading to a 15% reduction in overhead costs.
- Analyzed and documented key data-centric business requirements in EMR and custom applications; identified critical issues across hospital systems, leading to the implementation of solutions that enhanced user satisfaction scores.

Data Analyst, Citus Infotech, USA

Apr 2021 – Jul 2023

- Accomplished Exploratory Data Analysis to analyze the datasets to reveal trends and patterns, and outliers in the sales data.
- Incorporated machine learning algorithms for predictive modeling, used data analysis to identify process enhancements, and skilled in database management to maintain data accuracy and efficiency for analysis.
- Developed and implemented ETL processes using Apache and Talend to check the data flow and transformation efficiency, and achieved a 30% improvement in the data processing time.
- Streamlined data analysis, data modeling, data ingestion, and integration by building an automated data capture and visualization platform using Python, Streamlit, and Power BI, reducing analysis time.
- Applied NLP techniques to derive information from text data, using Hadoop for big data processing, and using Apache Airflow for effective scheduling and data orchestration.
- Defined a plan for the customer segmentation model by using K-means clustering on EMR data with SAS based on the overall understanding of sales data characteristics.
- Experience with Cloud Services like AWS EC2 and S3 to help with big data tools, address the finance data storage problem, and participate in the end-to-end deployment solutions.
- Created basic data exploration using NumPy and Pandas in Python and created Tableau dashboards with a linked MySQL database to gain an understanding of the datasets.
- Conceptualized more sophisticated Excel tools, including pivot tables, v-lookups, charts, and graphs to analyze trends in product-based data and hence improve data-driven decision-making by 25%.

EDUCATION

Master's in Computer Information Systems, Rivier University, NH, USA

May 2025

Bachelor's in Electronics and Communication, Vasireddy Venkatadri Institute of Technology, India

April 2023

CERTIFICATIONS

Python

Data Analysis with R Programming

AWS Academy Cloud Foundations

IBM Data Analyst Professional Certificate

Google Data Analytics Professional Certificate
