PROFESSIONAL SUMMARY

I am a detail-focused Data Analyst with 2+ years of knowledge in data warehousing, data wrangling, process validation, and business needs analysis. Proven to understand customer requirements and translate them into actionable project plans. I am an Analyst with deep skill of flexibility, which is the ability to learn, unlearn, and relearn. Worked with many teams on various projects and contributed to bigger open-source projects. With my fast-learning ability, I can attend to any problem, learn technology (If needed), and solve the problem. Dedicated and hard-working with a passion for Big Data.

SKILLS

- Languages: Python, SQL
- Data Analysis & Analytics Libraries: Pandas, NumPy, Scikit-Learn, Matplotlib
- Data Visualization & BI Tools: Power BI, Tableau, Microsoft Excel
- Development & Analysis Environment: PyCharm, Jupyter Notebook
- Web & Data Collection: Web Scraping using Scrapy
- Soft Skills: Excellent communication, Rapport Building, People Management
- General IT & Compute Proficiency: Data validation and quality checks, Statistics, Dashboard design and reporting automation, Microsoft Office Suite, Data wrangling and data cleaning

PROFESSIONAL EXPERIENCE

Operations Intern | WhiteMark Retail (Port Harcourt, Nigeria) | (July 2024 – Aug 2025)

- Supported inventory management by tracking shipments and processing over 300 product orders.
- Produced weekly operational reports using Google Sheets, highlighting restocking trends and sales gaps.
- Performed data audits with 98% accuracy to ensure compliance with internal procedures.
- Coordinated with the procurement team to streamline supplier communications, reducing order delays by 15%.
- Assisted in implementing a new stock categorization system, improving inventory retrieval efficiency.
- Monitored daily sales transactions and generated insights that informed promotional strategies.
- Contributed to process improvement initiatives, identifying bottlenecks in order fulfillment.
- Provided training and guidance to new interns on inventory tracking and reporting tools.

- Maintained and updated a centralized database of product SKUs, ensuring real-time accuracy.

Operations Assistant/Analyst | Ashbard Energy Limited | (Nov 2022- May 2024)

- Created monthly cost reports, tracked budgets Vs. actuals at the department level.
- Conducted analysis to identify underperforming channels and recommend budget allocation.
- Assisted operations manager with planning routine operations and special projects.
- Built real-time dashboard visualizations to track loading operations and incoming schedules all year round.
- Identified vendor negotiation opportunities through spend analysis.
- Promptly addressed client's inquiries and complaints to foster swift resolution.
- Analyzed and reported on operational data to identify trends and issues.

Data Analyst Tutor | FutureSphere Business & Innovative Hub | (June 2021 – Sep. 2022)

- Provided one-on-one and group tutoring sessions in data analysis topics, including SQL, visualizations and statistical modeling.
- Supported learners in interpreting datasets, formulating hypotheses, and drawing actionable conclusions.
- Guided students through hands-on projects using tools such as PostgreSQL, Excel, Python and Power BI.
- Explained complex data concepts in a simplified and structured manner to match diverse learning styles and skill levels
- Reviewed students' code and project work, offering constructive feedback and best practice suggestions.
- Kept up to date with the latest industry trends and tools to provide current, relevant guidance.
