

Sai Praveen Budireddi | Business Data Analyst

NY, USA | +1 (518) 445 5988 | saipraveenbudireddin@gmail.com | [LinkedIn](#)

SUMMARY

Business Data Analyst with **5+ years of experience** delivering data-driven insights across **financial, healthcare, and consulting domains**. Skilled in **SQL, Python, Power BI, Tableau, and Snowflake**, with proven success optimizing data pipelines, automating workflows, and improving KPI visibility by **30–45%**. Adept at gathering requirements, building scalable dashboards, and driving process improvements that cut reporting time and operational costs. Experienced in leveraging **Azure Synapse, Alteryx, and ETL automation** to streamline analytics delivery for enterprise clients. Committed to translating complex data into actionable strategies that enhance decision-making, compliance, and business growth.

SKILLS

Business & Data Analysis: Requirements Gathering, BRD/FRD Documentation, KPI & Metric Definition, Process Mapping (BPMN), Root-Cause & Gap Analysis, Data Validation, Stakeholder Communication, Business Process Optimization

Data Visualization & Reporting: Power BI, Tableau, Looker, Excel (Pivot Tables, Power Query, Macros), DAX, Data Storytelling, Dashboard Design, Trend & Variance Analysis, Performance Metrics Tracking

Database Management & Querying: SQL (Joins, CTEs, Window Functions), Snowflake, MySQL, PostgreSQL, MS SQL Server, Data Modeling, Stored Procedures, Query Optimization, Data Cleaning & Normalization

Data Integration & Automation: Python (Pandas, NumPy, Matplotlib), Alteryx, KNIME, Excel VBA, ETL Development, API Data Extraction, Automation Scripts, Workflow Scheduling (Airflow, Cron)

Business Intelligence & Cloud Tools: Azure Synapse, AWS Redshift, Google BigQuery, SAP Analytics Cloud, Oracle BI, SharePoint, ServiceNow, Salesforce Analytics, Power Automate

Project Management & Collaboration: Agile (Scrum/Kanban), Jira, Confluence, MS Project, Visio, SDLC Documentation, Sprint Reviews, UAT Coordination, Requirements Traceability Matrix

Domain Expertise: Financial Services, Healthcare Analytics, Retail & E-commerce, Insurance Operations, Claims & Payment Data, Customer Insights

WORK EXPERIENCE

Business Data Analyst | Bank of America | New York, USA May 2025 – Present

- Consolidated financial performance data across 6 business units using **SQL, Power BI, and Snowflake**, improving executive reporting accuracy by **38%** and reducing manual data validation by **12 hours weekly**.
- Automated KPI tracking through **Python (Pandas, NumPy)** and **Alteryx workflows**, cutting monthly data preparation time by **45%** and enabling faster decision cycles for corporate finance dashboards.
- Designed **Tableau dashboards** to visualize portfolio risk metrics and credit trends, boosting data transparency and improving forecast precision by **27%** for executive risk committees.
- Performed variance and root-cause analysis using **Excel Power Query** and **SQL Window Functions**, identifying cost inefficiencies that saved the bank an estimated **\$420K annually**.
- Partnered with risk and compliance teams to integrate **ETL pipelines on Azure Synapse**, achieving **99.6% data load reliability** and meeting all internal audit control requirements.

Business Data Analyst | Accenture | India Apr 2022 – Jun 2023

- Analyzed client sales and supply data with **Power BI and Tableau**, improving visibility into performance KPIs and increasing actionable insights by **32%** across retail and insurance accounts.
- Developed and optimized SQL queries in **Snowflake** to process **20M+ transactional records**, reducing data extraction latency by **41%** and enhancing overall analytics delivery efficiency.
- Created Python-based automation scripts for data quality validation, which decreased reporting errors by **23%** and saved analysts **10+ hours per week** on manual reconciliations.
- Collaborated with product owners to document requirements in **Jira and Confluence**, ensuring 100% alignment between BRD/FRD deliverables and client-approved business workflows.
- Supported data migration and transformation from on-prem SQL Server to **AWS Redshift**, achieving a **99.8% successful transfer rate** with no post-deployment data mismatch incidents.

Business Analyst | Cognizant | India Jan 2019 – Mar 2022

- Gathered business requirements and mapped **as-is vs. to-be processes (BPMN)** for healthcare clients, streamlining claims workflows and reducing processing time by **18%**.
- Designed interactive dashboards using **Tableau and Excel Pivot Tables** for insurance analytics, improving SLA tracking and operational compliance reporting by **25%**.
- Validated multi-source datasets through **SQL joins and data normalization scripts**, ensuring **99% accuracy** in claims reconciliation across multiple healthcare systems.
- Coordinated UAT planning with cross-functional teams using **Agile/Scrum**, achieving **97% test-case pass rates** and lowering post-release defect leakage below **2%**.
- Conducted root-cause and gap analyses using **Visio process models**, recommending corrective actions that improved workflow efficiency and customer satisfaction scores by **21%**.

EDUCATION

Master of Science in Data Science May 2025

University at Albany, State University of New York, Albany, NY, USA
