

# Varun Kumar Reddy Gujja

Data Analyst

+1 331-385-2479   [gvkrus2022@gmail.com](mailto:gvkrus2022@gmail.com)   [LinkedIn](#)   Portfolio

## Professional Summary

- Data Analyst with 3+ years of experience in transforming complex datasets into actionable business insights. Adept at leveraging SQL, Python, R, and cloud platforms (AWS, Azure, GCP) to drive data-driven decision-making and optimize business performance.
- Proven ability to design and implement scalable ETL pipelines, predictive models, and interactive dashboards to support enterprise analytics.
- Skilled in SQL, Python (Pandas, NumPy, Scikit-learn), Power BI, Tableau, and Looker to create compelling dashboards and reports, improving business intelligence and stakeholder decision-making.
- Experienced in building efficient ETL workflows with SQL, SSIS, Talend, and Apache Airflow, ensuring seamless data transformation, integration, and automation across multiple platforms.
- Proficient in AWS (S3, Redshift, Glue, Athena), Azure (Databricks, Synapse Analytics), and Snowflake, optimizing data storage, processing, and real-time analytics.
- Strong foundation in regression analysis, clustering, random forests, and time series forecasting, using Python (Scikit-learn, TensorFlow) and R (ggplot2, tidyr) to develop insights that enhance operational efficiency.
- Adept at working in Agile (Scrum & Kanban) and Waterfall environments, collaborating with stakeholders, business teams, and engineering groups to align data strategy with business objectives and ensure seamless project execution.

## Skills

**Data Analysis & Statistical Modeling:** Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis (Hypothesis Testing, A/B Testing, Regression Analysis, Cluster Analysis, Time Series Forecasting), Predictive Modeling, Machine Learning (Supervised & Unsupervised).

**Planning & Forecasting:** Skilled in historical trend analysis, workload forecasting, and shift scheduling using Alvaria WFM, Power BI, and Excel (Pivot Tables, Solver, Forecast functions).

**Programming & Scripting:** SQL (Complex Queries, Window Functions, CTEs, Stored Procedures), Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow), R (ggplot2, dplyr, tidyr), PySpark, Java.

**Data Visualization:** Tableau, Power BI, Looker, Google Data Studio, Matplotlib, Seaborn, ggplot2.

**ETL & Data Engineering:** SQL Server Integration Services (SSIS), Talend, Apache Airflow, Alteryx, DBT (Data Build Tool), Data Pipeline Automation.

**Cloud & Big Data Technologies:** AWS (S3, EC2, Redshift, Glue, Lambda, Athena), Azure (Azure Data Factory, Synapse Analytics, Databricks), Google Cloud Platform (BigQuery).

**Databases & Data Warehousing:** Snowflake, MySQL, PostgreSQL, SQL Server, Oracle, MongoDB, Firebase.

**Excel & Reporting:** Advanced Excel (HLOOKUP, VLOOKUP, Pivot Tables, Macros), MS Visio, SAP for Data Extraction.

**Business & Domain Expertise:** Healthcare Analytics, Financial Data Analysis, Risk Analytics, Market Research, Business Intelligence.

**Methodologies & Tools:** Agile (Scrum & Kanban), Waterfall, Jira, Confluence, Git/GitHub.

**Operating Systems:** Windows, Linux, macOS.

## Work Experience

### Universal Health Services

July 2024 – Present

Data Analyst

United States

- Spearheaded data modeling and database expansion by conducting Joint Application Development (JAD) sessions, collaborating with stakeholders to define data structures and optimize data flow.
- Designed and implemented ETL pipelines using SQL, Python, and Talend, improving data retrieval speed by 40% and enhancing data integrity across 3 key analytics platforms.
- Developed and enforced a data quality framework, reducing data entry errors by 35% and improving accuracy for patient records and hospital operations.

- Built interactive Power BI dashboards for executive leadership, enabling real-time monitoring of healthcare metrics, leading to a 15% reduction in operational overhead costs.
- Automated compliance tracking for Request for Proposal (RFP) submissions, increasing federal funding approval rates by 25% by integrating federal prior approval criteria into analytics workflows.
- Conducted data-driven insights on Electronic Medical Records (EMR) and hospital applications, identifying key inefficiencies and driving process improvements, resulting in a 30% boost in user satisfaction scores.

## Experion Technologies

October 2020 – February 2023

*Data Analyst*

*India*

- Collaborated with cross-functional teams to gather business requirements, translating them into actionable data models within a Waterfall framework, improving project documentation accuracy.
- Designed and deployed AWS-based data backup and disaster recovery strategies, increasing data reliability by 20% while enhancing business continuity measures.
- Engineered dynamic Tableau and Power BI dashboards, enabling C-level executives to visualize real-time business performance metrics, resulting in faster decision-making.
- Optimized data transformation processes using NumPy and Pandas, reducing data processing time by 50%, allowing faster insights and increased team responsiveness.
- Built predictive models leveraging Databricks, Random Forest, and K-Means Clustering, achieving 25% higher targeted marketing campaign effectiveness and improving customer engagement.
- Developed regression analysis models to forecast future trends, optimizing resource allocation and market strategy development.
- Integrated ETL workflows using SSIS and Talend, ensuring seamless data movement across multiple platforms, increasing data availability.
- Automated SAP-based data extraction processes, reducing manual reporting errors and increasing operational efficiency.
- Extracted, cleaned, and analyzed large datasets using SQL (MySQL, PostgreSQL, Oracle), ensuring 15% more accurate decision-making and reducing inconsistencies in business intelligence reports.

## Education

Lewis University

March 2023 – December 2024

*Master of Science in Data Science*

*Romeoville, IL*

## Certifications

SQL for Data Science

Machine Learning: Regression

Google Data Analytics Certificate

Microsoft Certified: Power BI Data Analyst Associate
