

Shubham Pandey

Procurement Analyst | Strategic Sourcing | Manufacturing & Industrial Equipment Supply Chain

NY, USA [OPEN TO RELOCATION] | +1 (680) 356-8173 | shubham.procurement@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Highly analytical Procurement Analyst (4+ years) specializing in industrial machinery and semiconductor manufacturing. Expertise in strategic sourcing, spend analysis, and supplier relationship management using SAP Ariba, SQL, and Power BI. Proven ability to bridge engineering requirements with commercial strategy, managing CAPEX acquisitions and mitigating supply risk through TCO modeling and supplier dual sourcing.

TECHNICAL SKILLS

Procurement & Supply Chain: Strategic Sourcing, Material Requirements Planning (MRP), Bill of Materials (BOM) Analysis, Make-vs-Buy Strategy, Spend Analysis, Category Management, Contract Negotiation, Supplier Relationship Management (SRM), P2P (Procure-to-Pay), RFx, Inventory Optimization

Technical & Data Analysis: SAP Ariba, SAP MM, Coupa, Oracle Fusion, Microsoft Dynamics 365, SQL, Power BI, Tableau, Microsoft Excel (Advanced), VBA, Python (Basic), ERP Systems (SAP/Oracle), Governance, Risk, Compliance

Manufacturing & Quality: Lean Six Sigma Green Belt, Root Cause Analysis (RCA), CAPA. Industrial Machinery, Capital Expenditure (CAPEX), MRO, Quality Assurance (QA/QC), Global Sourcing, IP Sourcing, Incoterms

Soft Skills: Analytical Thinking, Cross-Functional Collaboration, Stakeholder Management, Process Improvement (Lean/Six Sigma), Financial Modelling, Effective Communication

WORK EXPERIENCE

Procurement Analyst | ITT Goulds Pumps | New York, USA | Jun 2024 - Sep 2025

- Developed SQL and Power BI dashboards to perform spend analysis, detecting non-compliant POs across 25% of Tail Spend and preventing off-contract leakage.
- Implemented Supplier Performance Scorecards to track KPIs including On-Time Delivery (OTD) and Quality, using Pareto analysis to drive corrective actions.
- Partnered with Engineering to drive Make-vs-Buy decisions on non-conforming castings, prioritizing in-house repair based on COPQ and TCO impact.
- Forecasted revenue risk driven by lead-time variance, reallocating volume to high-performing suppliers to protect customer commitments and OTD.
- Automated approval routing in SAP, enforcing Delegation of Authority (DoA) compliance and achieving 100% audit-readiness across sourcing activities.

Sourcing Analyst | Micron Technology | New York, USA | Jan 2024 - May 2024

- Leveraged Market Research and the Kraljic Matrix to evaluate global supply risks and supplier criticality across semiconductor sourcing categories.
- Proposed a Sourcing IP framework to mitigate single-source dependency by enabling domestic manufacturing through licensed designs.
- Developed Should Cost and TCO models to assess the financial viability of Foundry and licensing-based sourcing strategies.
- Quantified logistics cost and tariff exposure scenarios to support sourcing decisions and long-term footprint planning.
- Designed a supply chain roadmap targeting significant lead-time compression (weeks to days) while improving working capital efficiency through optimized safety stock strategies.

Associate Procurement Manager | Gumpro Drilling Fluids | Mumbai, India | Jan 2021 - Jun 2023

- Managed RFQs and contract negotiations for Plant Skid EPC projects and indirect categories, achieving ~10-12% cost efficiency through competitive bidding.
- Supported and co-led negotiations with international logistics providers, optimizing freight terms (Incoterms) and delivering a ~6% reduction in shipping costs while improving supply reliability.
- Introduced a centralized inventory tracking system (leveraging advanced Excel/VBA) for consumables, cutting down instances of emergency purchasing by 30% and minimizing working capital requirement.

EDUCATION

Syracuse University – Martin J. Whitman School of Management

Master of Science – Business Analytics & Supply Chain

NY, USA

Aug 2023 - May 2025

University of Mumbai – D.J. Sanghvi College of Engineering

Bachelor of Engineering – Chemical Engineering | Minor – Supply Chain

Mumbai, India

Aug 2017 - Jul 2021

PROJECTS

- R-based Network Optimization:** Reduced delivery time by **2 days** and cut logistics costs by **12%** via DC location and routing optimization.
- Supply Chain Finance Modeling:** Lowered discount rates from 3.0% to 1.2% and shortened the cash conversion cycle by **18 days** (SQL/Excel).
- PowerApps/SQL Automation:** Reduced manual data entry by **85%** by automating billing and supply tracking processes.
- Power BI Inventory Management:** Cut Days of Supply Outstanding by **14 days** through real-time medication fill monitoring.
