

Sindhura Banda

DATA ANALYST

TX, USA | (640) 230-5906 | sindhurab01@gmail.com | [LinkedIn](#)

SUMMARY

- Data Analyst with 4 years of experience applying **Python, SQL, R, and Scala** to analyze, clean, and transform large datasets, delivering accurate insights to support business and operational decision-making.
- Strong expertise in **data cleaning, data wrangling, data transformation, and ETL processes**, leveraging tools such as **SSIS, Alteryx, Informatica MDM**, and cloud platforms to ensure high-quality, reliable data pipelines.
- Experienced in **statistical analysis and data modeling**, including **regression analysis, hypothesis testing, ANOVA**, probability distributions, confidence intervals, A/B testing, forecasting, clustering, and classification.
- Proficient in developing **interactive dashboards and data visualizations** using **Tableau, Power BI, Advanced Excel, Matplotlib, Seaborn**, and **ggplot2** to deliver clear data storytelling and actionable insights to stakeholders.

SKILLS

Methodologies:	SDLC, Agile, Waterfall
Programming Language:	Python, SQL, Scala, R
Packages:	NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, TensorFlow, Seaborn, ggplot2
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)
Cloud Technologies:	AWS (EC2, S3, Redshift, Athena, Glue, DynamoDB), Azure, Snowflake
Database:	MySQL, PostgreSQL, MongoDB, SQL Server, Oracle
Other Technical skills:	Machine Learning Algorithms, ETL Tools, Statistics, ServiceNow, SSIS, SSRS, Alteryx, Probability distributions, Confidence Intervals, ANOVA, Hypothesis Testing, Regression Analysis, Linear Algebra, Data Mining, Data Visualization, Data warehousing, Data transformation, Data Storytelling, Business Analysis, Clustering, Classification, Regression, A/B Testing, Forecasting & Modelling, Data Cleaning, Data Wrangling, Informatica MDM, Jira, UAT, JAD, Git, GitHub, Visual Studio Code, PyCharm

WORK EXPERIENCE

JPMorgan Chase & Co, TX | Data Analyst

Jan 2024 - Present

- Architected and supported **AWS-based financial data platforms** (Athena, Glue) including data lakes and warehouses. Used cloud services for scalable storage, ETL processing, secure access, and analytics performance optimization by 30%.
- Built and deployed interactive **Tableau** dashboards presenting key financial KPIs such as revenue, profitability, cost analysis, and risk exposure. Enabled data-driven decision-making for senior leadership.
- Applied **SciPy** for advanced statistical analysis, hypothesis testing, and numerical optimization in finance-focused modeling and forecasting scenarios. Leveraged scientific computing capabilities to enhance precision, and performance of analytical solutions.
- Leveraged **Pandas** extensively for financial data cleaning, transformation, aggregation, and reconciliation. Prepared high-quality datasets for reporting, forecasting, and machine learning workflows. Ensured consistency across multiple data sources by 20%.
- Managed **Jira** for end-to-end tracking of analytics project tasks, defects, and enhancements within finance-focused initiatives. Actively managed sprint backlogs, workflow statuses, and issue resolution to ensure timely delivery and adherence to Agile processes.
- Developed and optimized complex **SQL queries**, CTEs, views, and stored procedures to analyze financial transactions, balances, and revenue data. Worked across multiple relational databases to support regulatory reporting, reconciliations, and performance analytics.
- Collaborated extensively in **Agile/Scrum** environments delivering financial data solutions through sprint planning, backlog grooming, daily stand-ups, and retrospectives. Enabled rapid delivery of analytics features while maintaining data quality and business alignment.
- Designed and **executed A/B tests** on financial products and reporting workflows to evaluate the impact of process and feature changes, analyzed test results using statistical methods to drive data-backed decisions and optimize business performance.

Infosys, India | Data Analyst

July 2020 – Dec 2022

- Utilized **Python** for healthcare data processing, analytics, automation, scripting, and data manipulation, **leveraging libraries** and frameworks to support data analysis, statistical modeling, and end-to-end analytical workflows.
- Worked with Oracle databases to support enterprise-level healthcare data storage, management, and querying, worked with structured healthcare datasets to enable reliable data retrieval, integrity, and analytical processing across systems.
- Performed **regression analysis techniques** to healthcare datasets to examine relationships between dependent and independent variables. Utilized statistical modeling methods to ensure analytical accuracy through proper model selection & interpretation of results across 40%.
- Implemented **AWS DynamoDB** to design and manage NoSQL data stores for healthcare applications, supporting low-latency data access, high availability, and scalable data operations within cloud environments
- Generated reports and dashboards using **Power BI** by integrating healthcare data from multiple sources. Applied data modeling techniques, relationships, and DAX calculations to structure datasets for analytical reporting.
- Utilized **Amazon Redshift** as a cloud data warehouse to store and analyze large-scale healthcare datasets, including claims and clinical data, Optimized data models and queries to support high-performance analytics and reporting for operational and clinical stakeholders.
- Performed **comprehensive data cleaning** on healthcare datasets, including patient records and claims data, by handling missing values, outliers, duplicates, and inconsistencies, ensured high data quality and reliability to support accurate reporting and analytics.
- Maintained **GitHub repositories** to support collaborative healthcare analytics development, including code versioning and repository management, Used GitHub for managing branches, pull requests, and code reviews within healthcare data projects.

EDUCATION

Master of Science in Information Systems and Technologies - University of North Texas, Texas, USA

Jan 2023 – Dec 2024

Bachelor of Technology in Computer Science and Engineering - JNTU, Hyderabad, India

Jul 2018 – Jun 2022
