

SUBBA RAO NATTALA

MN | (763) 318-1720 | nattalasubbarao.01@gmail.com

SUMMARY

Business Analyst with around 5 years of experience delivering data-driven solutions across banking, financial services, and technology domains. Strong expertise in translating complex business requirements into scalable technical solutions using Agile Scrum and Kanban frameworks. Proven hands-on experience with SQL, Python, Tableau, and Power BI for analytics, reporting, and decision support. Adept at stakeholder management, regulatory compliance, and driving measurable business impact through process optimization, risk analysis, and cloud-based data solutions.

SKILLS

- Methodologies:** Agile Scrum, Kanban, SDLC, Risk Management, Stakeholder Management
- Languages:** Python, R, SQL, SAS
- Documentation Tools:** BRD, FRD, SRS, PRD, User Stories, Use Cases, Process Flow Diagrams
- Data & Analytics Libraries:** Pandas, NumPy, Matplotlib, SciPy, Seaborn, Ggplot2
- Visualization Tools:** Tableau, Power BI, Microsoft Excel, QlikView
- Cloud Platforms:** AWS, Google Cloud Platform, Azure
- Big Data & Analytics:** Hadoop, Hive, Apache Spark, Databricks
- ETL & Data Integration:** Informatica, Talend, Alteryx
- Databases:** SQL Server, MySQL, MongoDB, Snowflake
- Analysis Skills:** GAP Analysis, Impact Analysis, Risk Analysis, Cost-Benefit Analysis, Market Analysis, SWOT Analysis
- Project & Collaboration Tools:** JIRA, Trello, MS Project, Confluence
- Additional Skills:** Data Modeling, Data Cleaning, Data Wrangling, Business Process Optimization, Executive Reporting

EDUCATION

- Master's in Information Systems and Business Analytics** Dec 2024
Park University, Parkville, Missouri, USA
- Bachelor of Engineering in Computer Science and Engineering** May 2022
CMR Institute of Technology

EXPERIENCE

JPMorgan Chase & Co., MN | June 2024 - Current | Business Analyst

- Led end-to-end requirements gathering for enterprise credit and risk analytics platforms supporting regulatory and internal reporting.
- Analyzed large-scale banking datasets using SQL and Python, improving data accuracy and portfolio insights by 18%.
- Designed interactive dashboards in Tableau and Power BI for senior stakeholders, enabling faster risk and performance decision-making.
- Partnered with data engineering teams to migrate analytics workloads from on-premise SQL Server to AWS and Databricks, reducing ETL execution time by 40%.
- Authored and maintained BRDs and FRDs aligned with Basel III and CCAR regulatory requirements.
- Performed GAP and impact analyses on data pipelines integrating Hadoop data lakes with BI reporting layers.
- Drove Agile delivery using JIRA and Kanban, ensuring on-time delivery of high-priority initiatives within SLA and compliance constraints.

Orion Technolab, India | Jan 2020 – Nov 2022 | Business Analyst

- Elicited and documented business and functional requirements for enterprise web and mobile applications across e-commerce and logistics domains.
- Conducted market, competitor, and SWOT analyses that contributed to a 22% increase in client acquisition.
- Translated business needs into detailed BRDs, SRS, and user stories, enabling efficient development and QA cycles.
- Leveraged Python and Tableau to analyze customer behavior, improving engagement and conversion metrics.
- Coordinated ETL development using Talend and Informatica to integrate multi-source data into MySQL and MongoDB databases.
- Created process flow diagrams and executive dashboards to simplify complex workflows and enhance stakeholder communication.
- Supported Agile ceremonies, including sprint planning, backlog grooming, and UAT, consistently meeting project timelines and quality benchmarks.
