SUMMARY

Data Analyst with experience leveraging large-scale datasets to drive measurable impact across behavioral health, supply chain, and AI-driven analytics. I am skilled in predictive modeling, statistical analysis, and dashboard automation to deliver actionable insights that improve operational efficiency and decision-making. Adept at translating complex data into strategic recommendations while collaborating cross-functionally in fast-paced, results-driven environments.

EXPERIENCE

Data Analyst Intern, Resilience Inc, Tampa, FL

Jul 2025 - Present

- Analyzed large-scale behavioral health and SEL engagement datasets to identify trends in student well-being, stress indicators, and self-awareness outcomes, delivering data-driven insights that improved program effectiveness by **20%**.
- Researched and developed new SEL performance metrics and behavioral health indicators by analyzing engagement patterns, retention trends, and intervention outcomes, supporting evidence-based curriculum design and impact measurement.
- Designed and maintained interactive Power BI dashboards using advanced **DAX measures** and data modeling to monitor mental health KPIs, engagement metrics, and outcome trends, enabling leadership to make timely, data-informed decisions.
- Supported **A/B testing** and benchmarking of program performance to evaluate student engagement and retention patterns.

Supply Chain Data Analyst, Positive Controls, Andhra Pradesh, India

Jul 2023 - Jul 2024

- Designed and implemented predictive forecasting models to enhance demand planning and inventory accuracy, improving stock accuracy by **22%** while reducing overall procurement and holding costs.
- Built advanced supplier performance dashboards to track KPIs such as OTIF, lead time variability, fill rate, and cost-to-serve, enabling **17%** faster executive decision-making.
- Applied time-series forecasting and **procurement analytics** to optimize replenishment cycles and workflow efficiency, reducing procurement costs by **14%** and improving planning accuracy by **12%**.

Data Analyst Intern, EDGENeural.ai, Pune, India

Jan 2023 - Jun 2023

- Performed large-scale data cleaning, transformation, and **exploratory data analysis (EDA)** on high-volume image datasets to improve data quality, ensure statistical validity, and reduce model bias across demographic variables.
- Conducted performance benchmarking and **statistical analysis** of machine learning models using key evaluation metrics (accuracy, precision, recall, inference time), delivering data-driven insights to support deployment decisions.
- Built automated KPI dashboards and performance monitoring reports to track model efficiency, latency trends, and resource utilization, improving processing time by **75%** while maintaining **89%** accuracy.

Business Analyst, Imperial Logistics Technocratic Solutions, Andhra Pradesh, India

Jan 2022 - Dec 2022

- Conducted procurement cost analysis and spend optimization using supply chain data, performing **gap analysis** and margin impact assessments that reduced material expenses by **5–8%** while maintaining profitability targets.
- Delivered ad hoc analysis and research to support pricing strategy initiatives, translating stakeholder requirements into **BRD/FRD** documentation and collaborating cross-functionally across procurement, finance, and operations.
- Developed interactive dashboards and automated **ad hoc** reporting solutions to track margin trends, supplier performance, and cost-to-serve metrics, supporting data-driven decision-making and **UAT** validation for pricing and procurement workflows.

Project Lead, Milestone Club Association, Andhra Pradesh, India

Jul 2019 - Aug 2021

- Bridged Stakeholders and development teams, gathering requirements and translating business needs into technical solutions.
- Managed students and interns, overseeing task allocation, fund allotment, and project deployments as Project Lead.
- Led innovative project initiatives from concept to deployment, ensuring timely and high-quality delivery.

SKILLS

Business Analysis Skills: Requirements Gathering, Requirements Elicitation, BRD/FRD Documentation, Gap Analysis, Process Mapping, Business Process Model & Notation, Data Requirements Documentation.

Tools: SQL, Python, Tableau, Power BI, Google Data Studio, Visio, R, Excel, ETL Data Pipelines, JIRA.

Business Strategy & Communication: KPI Tracking, Predictive Modeling, Analytical Analysis, Supply Chain Analytics, Financial Analysis, Cross-functional team environment, Stakeholder Communication, Agile/Scrum, Data Visualization, Trend Analysis.

EDUCATION

University of Massachusetts, Amherst

Amherst, MA

Master of Science, Business Analytics

Dec 2025

Vellore Institute of Technology

Andhra Pradesh, IN

Bachelor of Engineering, Computer Science

May 2024
