Education

Southern Methodist University

Master of Science, Computer Science (Award: Lyle Deans Graduate Scholarship)

May 2026
GPA: 3.74/4.00

Gujarat Technological University

Bachelor of Engineering, Computer Science and Engineering (AI/ML)

May 2024
GPA: 3.78/4.00

Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Data Structures and Algorithms, Data Mining, Statistics and probability, Big Data, Database Management Systems, Natural Language Processing, Cloud Computing

Certifications: Oracle Cloud Infrastructure 2025 Certified Data Science Professional, Oracle Cloud Infrastructure 2025 Certified Generative AI Professional, Data Science Masters (Jain University—1-year certification course)

Work Experience

Research Assistant - GenAI (Southern Methodist University)

August 2025 - Present

- Maintained and enhanced ChatSSRN, a GenAI-powered research assistant leveraging HPC and NLP to efficiently index and retrieve research abstracts.
- Integrated 2024-2025 datasets, improving model accuracy, freshness, and relevance of academic literature recommendations.

Teaching assistant - Algorithm Engineering, Artificial Intelligence (Southern Methodist University)

August 2025 - Present

- Assisted in teaching advanced concepts in algorithms, artificial intelligence (agentic AI), and data-driven problem solving.
- Guided students on assignments and projects involving Python, R, and SQL for AI applications and algo implementation.

Data Science Intern (Maxgen Technologies Pvt. Ltd.)

October 2023 - April 2024

- Developed Python scripts for data analysis, ensuring timely and accurate project deliverables.
- Applied NLP techniques and data science methods to support advanced analytics projects.

Projects

Phishing Website Detection using Machine Learning (End-to-End Pipeline),

August 2025

- Developed an end-to-end ML pipeline for phishing website detection with automated preprocessing, drift monitoring, and optimized classification models.
- Deployed as a FastAPI microservice on AWS with Docker & CI/CD, enabling scalable, real-time protection against malicious websites.

Movie Recommendation System

May 2024

- Developed a movie recommender system, improving model accuracy by 20% through API Integration.
- Collaborated on algorithm refinement, achieving higher prediction precision.

Research and Publications

- **AI assistant for people with low SES (socioeconomic status) using Federated Learning.** Developing an AI assistant to profile SES while ensuring privacy.
- **Technical Articles related to Data science and AI (Medium)** - <https://medium.com/@jainultrivedi55555>
- [A comprehensive Study on Machine Learning and Deep Learning Models in web traffic forecasting](#)—Archives of Computational Methods in Engineering, Springer
- [Well Temperature and Pressure Profiling using Machine Learning](#)—Stanford University

Skills

Programming & Engineering: Python, Java, C, REST APIs, FastAPI, Flask, Microservices, OOP, Git, System Design, R programming
Machine learning and Deep learning: ML, DL, CNN, RNN, LSTM, Transformers, Optimization, Model Tuning, Evaluation
Generative AI & LLMs: GPT, LLaMA, Claude, Qwen, Prompt Engineering, RAG, Vector Search, LLM Fine-Tuning
NLP & Speech AI: Text Classification, NER, HuggingFace, spaCy, NLTK, ASR, TTS, Sequence Modeling
MLOps & Deployment: Docker, Kubernetes, CI/CD, MLflow, Airflow, AWS SageMaker, Model Serving, Monitoring & Observability
Data Engineering & Cloud: ETL Pipelines, Spark, SQL/NoSQL, Kafka, Redis, AWS, Azure, GCP
Professional Skills: Technical Leadership, Cross-Functional Collaboration, Communication, Requirement Analysis, Mentoring

Extracurricular Activities

Volunteer: Youth United Council of India (2023-2024), Tare Zameen Foundation (2023), Hamari Pehchan NGO (2023)

University Involvement: Artificial Intelligence club at SMU, Statistics and Data science club, Badminton Not Bad

Hobbies: Coding, Badminton, Cricket, Fitness, Reading books
