PROFESSIONAL SUMMARY

Quality Assurance/ Regulatory Affairs Specialist with over 4 years of experience supporting global regulatory submissions, CMC documentation, product lifecycle management, and change control activities. Skilled in CTD Module 2 and 3 authoring, global registration management, and regulatory impact assessment of quality-related changes. Strong knowledge of ICH, FDA, EU, and Health Canada regulatory requirements with proven success in preparing and responding to agency queries.

EDUCATION

- Master of Science in Regulatory Affairs** | Northeastern University | Boston, MA **9/2022 - 3/2025**
- Bachelor of Pharmacy** | Prin. K.M. Kundnani | Mumbai, India **9/2014 - 5/2018**

KEY SKILLS

- Regulatory Submissions: 510(k), ANDA, NDA, CE Mark, eCTD
- Regulatory Labeling Review & Approval
- QMS Compliance (21 CFR, ISO 13485, Part 11)
- Technical file and design dossier support
- Device Classification & Regulatory Strategy (US/EU/Middle East)
- CE / UKCA regulatory readiness (support level)
- NCR Investigation & Root Cause Analysis (OOS/OOT)
- Document Control, SOP Review, & Regulatory Status Logging

PROFESSIONAL EXPERIENCE

- UPS Healthcare | Louisville, KY** **Quality Assurance Specialist** **7/2025 – 12/2025**
- Reviewed and approved GMP records, cleaning logs, and environmental monitoring data, ensured alignment with internal SOPs and regulatory standards (21 CFR Part 210/211)
 - Led documentation review and closure of 5+ deviations and 10+ change controls in the eQMS system, maintained compliance with client protocols and QA timelines.
 - Conducted internal QA audits of manufacturing, warehousing, and environmental monitoring processes, supported audit readiness and improved compliance scores.
 - Collaborated cross-functionally with operations, engineering, and supply chain teams to resolve quality-related issues, investigate complaints, and implement CAPAs.
 - Managed revision of SOPs to reflect evolving customer expectations and regulatory trends.
- The FDA Group | Boston, MA** **Quality Assurance/ Regulatory Compliance Consultant** **1/2025 - Present**
- Performed gap assessments using BSI-style audit checklists, mapping ISO 13485 clauses and EU MDR GSPR requirements to technical files, risk management documentation, and PMS/PMCF artifacts to identify compliance gaps.
 - Reviewed medical device technical documentation using EU MDR Annex I–III–based checklists, focusing on GSPR alignment, risk management linkage, and labeling consistency.
 - Evaluated device modifications and prepared change control assessments for global registration impact analysis.
 - Continuously monitored global regulatory updates ensured internal SOPs and submission strategies were aligned with current guidance.
 - Conducted regulatory gap assessments and identified appropriate approval pathways based on device class and risk.
 - Curated 40+ FDA and ICH guidance documents for integration into an AI-based QMS audit platform.
 - Reviewed AI outputs and identified regulatory logic gaps to enhance algorithmic accuracy.
- Mass General Brigham Hospital | Boston, MA** **Medical Record Reviewer** **1/2024 - 6/2024**
- Conducted reviews of 2000+ electronic medical records (EMR) and achieved a 98% compliance rate on audit completion.
 - Managed 2000+ HEDIS medical record review requests by coordinating with MD offices, clinics, and hospitals.
 - Identified documentation gaps and communicated with relevant stakeholders to facilitate timely corrections and clarifications.
- FRONCORT.AI | Denver, CO** **Clinical & Regulatory Affairs Consultant** **8/2023 - 12/2023**
- Conducted deep regulatory research on drug classification and approval pathways (e.g., 505(b)(2)) to support submission strategy decisions.
 - Developed structured prompts for an AI-based regulatory tool to replicate regulatory logic and accurately predict submission pathways based on product characteristics and supporting data.
- BDR Pharmaceuticals | Gujarat, India** **Quality Assurance/Regulatory Affairs Specialist** **1/2020 - 7/2022**
- Prepared and submitted CTD Modules 1–3 for ANDA submissions and international market registrations (LATAM, Middle East).
 - Tracked submission status, escalated time-sensitive regulatory items, and maintained clear communication with internal stakeholders.
 - Monitored regulatory landscapes (FDA, EMA, CDSCO) to ensure current product documentation and labeling reflected the latest requirements.
 - Supported global product registration activities by preparing country-specific submissions and coordinating with in-country regulatory representatives to ensure timely approvals.
 - Participated in regulatory submission planning meetings, tracked key action items, and managed internal tracking systems for submission and labeling documentation.
 - Collaborated with QA/RA teams to support internal and external audits, with a focus on Technical Documentation readiness, labeling compliance, and documentation traceability.

MEDICAL DEVICE PROJECTS

- Mock 510(k) Submission for Class II device** **9/2023 - 12/2023**
- Researched FDA 510(k) requirements and prepared a simulated submission including predicate comparison, labeling, and device description.
 - Utilized the FDA's eSTAR template to compile a structured and interactive 510(k) submission package as per current FDA guidance.
- EU MDR Technical File Assembly for class IIa device** **1/2023 - 4/2023**
- Simulated a full technical documentation file per EU MDR Annex II, including GSPR checklist, device description, and risk management summary.
 - Mapped document requirements against MDR Article 10.
