

SUREKHA MURALIDHAR

Business Analyst | Data-Driven Decision Intelligence

surekhapm924@gmail.com | +1 (669)-444-0019 | [Linkedin](#)

PROFILE

Analytical and results-driven Business Analyst with 2+ years of experience delivering data-driven business transformation and analytics initiatives. Skilled in requirements gathering, process re-engineering, and KPI-based reporting across financial, trading, and telecom domains. Proficient in SQL, Python, R, Power BI and Tableau with a strong foundation in data science and predictive analytics. Passionate about enabling data-informed decisions through process automation, storytelling dashboards, and advanced analytics. Skilled in requirements elicitation, as-is/to-be process mapping, gap analysis, and business process re-engineering, driving measurable improvements in efficiency and compliance.

SKILLS

Business Analysis: Requirement Elicitation, Gap Analysis, Process Optimization, Stakeholder Management , MS Office , Google Suite

Data Analytics: SQL, Looker, Python, R , Advanced Excel, Statistical Modeling , Hypothesis Testing , Predictive Analytics, NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch

Visualization & BI Tools: Power BI, Tableau , ggplot2, Plotly, KPI Dashboards, Data Storytelling

Frameworks & Tools: Jira, Confluence , Lucidchart

ACADEMIC PROJECTS

Graduate Projects – M.S. in Statistics (Data Science Concentration)
California State University, East Bay | Aug 2023 – Apr 2025

- Applied data cleaning, preprocessing, and feature engineering in R (tidyverse, dplyr, tidyr, lubridate, NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch) to ensure dataset consistency and quality.
- Conducted hypothesis testing (t-tests, ANOVA) to validate data differences and improve model accuracy.
- Built predictive models using Multiple Linear Regression, Random Forest, and Logistic Regression with cross-validation and hyperparameter tuning.
- Developed deep learning models in TensorFlow and Keras for classification and regression tasks.
- Designed SQL pipelines to extract and transform multi-source data, reducing data processing time by 30%.
- Created Tableau and Power BI dashboards for KPI tracking, customer segmentation, and executive insights.
- Built R dashboards using ggplot2 and plotly for data visualization and pattern recognition.

PROFESSIONAL EXPERIENCE

Business Analyst - Farm Credit, Texas

Aug 2025 - Jan 2026

- Led requirements elicitation sessions with stakeholders to translate business needs into functional and data requirements.
- Analyzed operational and reporting datasets using SQL and Excel to identify trends, gaps, and process improvement opportunities.
- Developed Business Requirement Documents (BRDs), Functional Requirement Documents (FRDs), and data mapping specifications.
- Partnered with data engineering and QA teams to validate ETL pipelines and ensure reporting accuracy.
- Created KPI dashboards in Power BI/Tableau to support leadership decision-making.
- Conducted gap analysis and proposed workflow enhancements that improved reporting efficiency.
- Acted as the primary liaison between business users and technical teams, accelerating project delivery timelines.

Environment: SQL, Advanced Excel, Power BI, Tableau, Python, Jira, Confluence, Lucidchart, MS Office, Agile/Scrum, Stakeholder Management

Business Analyst Intern - Fortis, India

Jan 2022 – May 2023

- Conducted stakeholder workshops to collect requirements for telecom billing, CRM, and customer care systems, improving process transparency.
- Created Tableau dashboards to monitor churn, ARPU, and SLA compliance, improving leadership visibility into service performance.
- Developed data dictionaries and traceability matrices, ensuring alignment across development, QA, and delivery teams.
- Implemented process workflows in BPMN, optimizing service request turnaround times by 15%.
- Validated ETL processes using SQL and Excel to ensure data integrity across reporting layers.
- Collaborated with cross-functional teams to ensure proper alignment of business objectives with technical delivery.

Environment: SQL, Excel, Tableau, Jira, Confluence,R,MS Office, Google Suite.

EDUCATION

Master of Science in Statistics (Data Science Concentration)
California State University, East Bay | Aug 2023 – Apr 2025 | GPA: 3.87

Bachelor of Engineering
Saveetha Engineering College | Jul 2019 – May 2023 | GPA: 3.75

ACHIEVEMENTS

- Increased reporting efficiency by 25% through workflow automation and data pipeline improvements.
- Recognized with the Data-Driven Excellence Award for contributions to analytics and reporting improvements.

- Achieved 3.87 GPA in M.S. Statistics (Data Science) with distinction in Machine Learning and Business Analytics.
