

GEETHESWAR REDDY BADDELA

✉ Tempe, AZ 📞 623-293-7157 ✉ gbaddela@asu.edu [in geetheswar](#) [📱 Geethesh18](#)

SUMMARY

Data Science and Analytics graduate student with strong experience in data analysis, statistical modeling, SQL querying, and dashboarding. Proven ability to clean, analyze, and visualize large real-world datasets to uncover actionable insights. Hands-on experience with EDA, hypothesis testing, predictive analytics, and reporting using Python, SQL, Tableau, and Power BI. Adept at translating complex data findings into business and policy-relevant insights.

EDUCATION

Arizona State University

Expected Graduation – May 2026

Master of Science in Data Science and Analytics, GPA: 4.0/4.0

Tempe, AZ

Coursework: Data Processing at Scale, Data Mining, Statistical Machine Learning, Data Visualization, Information Assurance and Security, Analyzing Big Data, Data Driven Optimization

SRM University

Graduated – June 2024

Bachelor of Engineering in Computer Science and Engineering, GPA: 8.63/10.0

Amaravati, India

Coursework: Machine Learning, Deep Learning, Artificial Intelligence, Digital Image Processing, Software Engineering, Computer Networks, Linear Algebra, Cognitive Psychology, Environmental Science

SKILLS

Programming Languages: Python, SQL, R, HTML, CSS, JavaScript

AI & Machine Learning: NLP, OCR, RAG, LangChain, TensorFlow, PyTorch, Scikit-learn, OpenCV

Data Engineering & Storage Systems: MySQL, PostgreSQL, NoSQL, FAISS, ChromaDB, Kafka, Docker

Data Analysis & Visualization: PowerBI, Tableau, Excel, Pandas, NumPy, Matplotlib, Seaborn, Plotly

EXPERIENCE

Software Engineer Intern - Automation

Jan 2024 – July 2024

Cyient Ltd

Hyderabad, India

- Performed data preprocessing and validation on **50,000+** records, achieving **99.8%** accuracy through systematic cleaning and reducing data inconsistencies by **85%**.
- Applied **Pandas** and **NumPy** to clean, transform, and aggregate data across **15+** datasets, enabling reliable analysis and insight generation.
- Used **PyPDF** to extract and structure data from **100+** documents, improving data accessibility for reporting and downstream analysis.
- Evaluated **OCR** pipelines with **92%** accuracy and utilized **OpenCV** for image preprocessing to support automated data extraction workflows.
- Supported development of a **GenAI**-based solution by validating outputs and optimizing response time by **30%** through data-driven improvements.

Research Assistant - Computer Science

Dec 2023 – May 2024

SRM University AP

Amaravati, India

- Conducted analytical research on a **4-class** classification problem, supporting data preparation, experimentation, and result interpretation.
- Preprocessed and analyzed **1,300+** MRI images using normalization and noise reduction techniques to improve data consistency and model performance.
- Evaluated multiple models using **accuracy, precision, recall, and F1-score**, and applied **XAI** techniques (e.g., LIME) to interpret model outputs and feature importance.
- Documented experimental results and analytical findings for academic reports and technical presentations.

PROJECTS

College Scorecard Data Analysis

- Analyzed data from **6,000+ U.S. colleges** to evaluate tuition trends, graduation rates, and loan default risk using **Python** and **SQL**. Performed **EDA**, hypothesis testing, and built interactive **Tableau dashboards** to visualize affordability metrics and communicate data-driven insights.

Crime Data Clustering & Pattern Analysis

- Analyzed **850,000+** public crime records using **Python** and **SQL** to identify spatial and categorical crime patterns. Performed data cleaning, **EDA**, clustering, and built geographic visualizations to highlight crime hotspots and support data-driven insights.

ACHIEVEMENTS & CERTIFICATIONS

- IBM AI Developer Professional Certificate
- Azure AI Fundamentals Certification by Microsoft
- Azure Fundamentals Certification by Microsoft
