SUMMARY

Results-driven **Business Analyst / Product Owner** with **4+ years of experience** bridging business needs with technology solutions across **financial services and enterprise technology domains**. Proven track record of **requirements gathering, stakeholder management, product roadmap delivery, and Agile leadership**. Skilled at **data-driven decision-making, process optimization, and digital transformation initiatives** that drive measurable business value. Adept at **writing user stories, acceptance criteria, managing product backlogs, facilitating Agile ceremonies, and delivering MVPs** aligned to business priorities. Experienced in **cloud migration, data analytics, compliance, and customer-centric product development**.

PROFESSIONAL EXPERIENCE

Business Analyst / Product Owner | Capital One | USA

March 2025 – Present

- Led **end-to-end requirement elicitation workshops** with business users, product managers, and compliance teams, capturing functional and non-functional requirements, documenting them in **BRDs/FRDs**, and aligning them with strategic initiatives.
- Translated business requirements into **detailed user stories, epics, and acceptance criteria** in JIRA and Confluence, ensuring clarity for developers and testers and reducing sprint rework by 22%.
- Facilitated **Agile ceremonies** (stand-ups, sprint planning, backlog grooming, retrospectives) with cross-functional teams of 20+, ensuring blockers were resolved quickly and improving sprint velocity by 18%.
- Designed **wireframes, mockups, and process flows** using Figma, Lucid chart, and MS Visio, enabling stakeholders to visualize features early and reducing change requests during UAT cycles.
- Conducted **GAP analysis, SWOT assessments, and process modeling (BPMN)** to identify inefficiencies in credit card onboarding workflows, proposing automation that cut onboarding time by 30%.
- Partnered with **engineering and API teams** to define integration requirements, review Swagger/Postman API specs, and validate REST/JSON payloads, ensuring seamless communication between applications.
- Built **interactive dashboards in Power BI and Tableau** to track KPIs (customer churn, approval rates, fraud detection metrics), helping executives make real-time decisions and reducing manual reporting by 40%.
- Collaborated with **compliance and risk teams** to design automated SOX/KYC/AML reporting workflows, which reduced non-compliance risks and audit preparation time by 45%.
- Owned **product backlog prioritization and roadmap planning**, balancing business value, technical dependencies, and regulatory needs, resulting in a **15% faster time-to-market** for high-priority features.
- Partnered with customer experience teams to gather feedback, analyze trends, and propose **product enhancements** that improved customer satisfaction scores (CSAT) by 12% within six months.

Business Analyst | IBM | India

Oct 2019 – July 2023

- Conducted **requirement gathering workshops and interviews** with SMEs across finance, HR, and operations, producing detailed **BRDs, FRDs, and traceability matrices** that ensured complete coverage of business needs.
- Developed and documented **process flows, UML diagrams, and BPMN models**, mapping current vs. future state processes for ERP modernization projects, enabling stakeholders to visualize transformation paths.
- Facilitated **Joint Application Design (JAD) sessions** to align IT and business, capturing critical use cases and reducing late-stage requirement conflicts by 20%.
- Partnered with ERP consultants to redesign **SAP and Oracle process modules** (Order-to-Cash, Procure-to-Pay), achieving a 28% efficiency improvement in transaction workflows.
- Wrote **user stories, acceptance criteria, and backlog items** in JIRA and managed them through Agile sprints, ensuring timely delivery of prioritized features.
- Supported **UAT and QA teams** by preparing test cases, acceptance scripts, and RTMs, actively engaging in defect triage calls, which reduced production defect leakage by 35%.
- Conducted **data validation and API testing** using SQL, Postman, and Excel macros, ensuring accuracy of migrated data during ERP upgrades and reducing reconciliation errors by 25%.
- Automated recurring **reporting templates in Excel (Pivot Tables, Macros, VBA)** to improve operational reporting efficiency, cutting manual report preparation time by 40%.
- Coordinated with **compliance and security teams** to ensure GDPR and HIPAA adherence in projects involving sensitive customer data, avoiding potential regulatory penalties.
- Delivered **post-go-live support and root cause analysis** for production issues, collaborating with developers to implement fixes and enhancements that reduced recurring incidents by 18%.

SKILLS

- Business Analysis & Product Ownership:** Requirements Elicitation, BRD/FRD, GAP Analysis, SWOT Analysis, Process Modeling (BPMN, UML), User Stories, Acceptance Criteria, Wireframes, Mockups
- Agile & Project Management:** Scrum, Kanban, SAgile, Sprint Planning, Grooming, JIRA, Confluence, Rally, MS Project, Trello
- Data & Analytics:** SQL, Python (basic analytics), Power BI, Tableau, Excel (VLOOKUP, Pivot Tables, Macros), Google Analytics
- Tools & Platforms:** MS Visio, Figma, Lucid chart, ServiceNow, Salesforce, SAP, Oracle ERP, SharePoint
- Cloud & Integration:** AWS, Azure, APIs (REST/SOAP), Postman, Swagger, JSON, XML
- ERP, CRM & Enterprise Systems:** SAP (MM, SD, EWM), Oracle ERP (Finance & HCM modules), Microsoft Dynamics 365
- Compliance & Domain Expertise:** SOX, HIPAA, GDPR, PCI DSS, KYC/AML (Financial Domain), Risk & Compliance Reporting
- Soft Skills:** Stakeholder Communication, Cross-functional Collaboration, Leadership, Problem Solving, Conflict Resolution
- Other Tools:** SAP Solution Manager, ServiceNow, Excel (VBA, Power Query), Confluence

EDUCATION

Master's In Business Analytics

Aug 2023 - May 2025

The University of Texas at Arlington, Arlington, USA

Bachelors In Computer Science

Aug 2017 - May 2021

Savitribai Phule Pune University, India
