PROFILE

Supply Chain Analyst with 3+ years leading end-to-end supply chain operations including inventory planning, logistics coordination, procurement and vendor management. Skilled at identifying operational inefficiencies and implementing data-driven solutions that reduce costs and improve performance. Experienced in leading cross-functional initiatives and influence stakeholder decisions through clear communication and strategic insights.

PROFESSIONAL EXPERIENCE

Annoviant, Inc., USA

08/2025-12/2025

Market Research Intern

- Led cost and go-to-market analysis for TxGuard by benchmarking 35+ competitor pipelines and related funding activity, shaping market positioning and commercialization planning
- Built Power BI dashboards integrating competitors, clinical, and funding data, standardizing insights and enhancing leadership visibility into device trends, risks and strategic trade-offs

Y P Reddy & Associates, India

11/2021-04/2024

Supply Chain Analyst

- Spearheaded supply chain and operational audits for 30+ clients, resolving \$3M in discrepancies by uncovering phantom inventory and ERP errors via inventory reconciliation and root cause analysis
- Managed a team of 5 associates to assess manufacturing, procurement and financial operations, and evaluate adherence to inter & intra-state logistics regulations, minimizing risks by \$1.5M
- Analyzed supplier performance, warehousing efficiency, and transportation costs, improving reporting accuracy by 60% and presenting critical findings to 3 Senior Partners to influence strategic decisions
- Evaluated vendor KPI's, inventory controls, and logistics spend to identify risks and inefficiencies, reducing excess inventory by 25% and improving supply chain efficiency

Sai Manasa Homes, India

10/2022-04/2024

Supply Chain Analyst – Construction Operations

- Collaborated with project managers to coordinate project budgets, material flow, and labor utilization across 5+ construction projects (\$2M+), achieving a 90% alignment with financial goals
- Drove material management and inventory planning across 4 projects, cutting operation delays by 20% through improved procurement and site-level coordination
- Executed PO processing and vendor payments for 30+ suppliers using ERP systems, improving on-time payment accuracy by 10% and maintaining strong supplier relationships
- Forecasted material demand across project timelines using Excel models and Power BI dashboards based on historical usage, preventing overstock and reducing excess inventory by 25%

K V Associates, India

08/2021-10/2021

Accounting Intern

- Managed financial reporting for 50+ clients in manufacturing and logistics sectors, reducing invoice discrepancies by 18% and improving cash flow through better data management and reconciliation
- Implemented process automation using accounting software such as Tally ERP & Prime, CompuTax, and MS Office to streamline financial data processing and analysis, improving reporting efficiency by 30%
