

ADITHYA PRAHASITH MALLADI

Boston, MA ◇ 5085095455 ◇ adithyaprahasith@gmail.com ◇ [LinkedIn](#) ◇ [Portfolio](#) ◇ [GitHub](#)

SUMMARY

Data science professional with over **4 years** of demonstrated experience in analyzing **complex** sales, marketing and product data, skilled in **SQL, Python, Tableau**, and **ML** etc. with a solid focus on **driving growth** through executive **Reporting & AI driven solutions**.

EXPERIENCE

SFA - NGO | Business Analyst

Sep 2025 - Present

- Designed an **end-to-end** donor analytics **tableau** dashboard to track donor engagement, contribution trends, and geographic distribution across multiple time periods.
- Supported the identification of **process improvement** opportunities by analyzing workflows and documenting gaps, contributing to increased **operational efficiency**.

Mercor | Annotation Expert Contract

Dec 2025 - Jan 2026

- Analyzed and compared AI-generated audio, image, and video outputs, identifying the most accurate and high-quality results based on predefined **evaluation** criteria.
- Annotated** and **labeled multimodal** datasets to improve training performance of AI systems across vision, audio, and video tasks.

UMass Dartmouth | Graduate Assistant

Oct 2024 - May 2025

- Maintained high-quality global admissions data across **50+** countries by performing weekly **excel**-based cleaning, validation, and structured filtering.
- Streamlined university-college mapping and standardized datasets using excel lookups & filters reducing weekly data errors by **90%**, ensuring consistent accuracy across campus systems.

Airmeet Inc. | Data Analyst

Aug 2022 - Sep 2023

- Improved **customer retention rate** by **17%** by deploying a decision-tree based **churn prediction model** using **python** to identify churn drivers and design retention strategies targeting at-risk users.
- Identified key patterns driving closed-lost deals from historical **Snowflake** sales data using **SQL** and collaborated with the stakeholders to refine acquisition strategies, leading to a **23% increase** in deals **win-rate**.
- Analyzed demand-generation performance across **10k+** monthly leads, evaluating lead-to-opportunity **MQLs** conversion, campaign traffic trends etc. to optimize marketing spend efficiency and improve sales follow-ups.
- Generated actionable insights for 4 leadership teams by delivering **25+ sales and marketing analytics reports** in **HubSpot CRM**, supporting ad-hoc requests and data-driven decision-making.
- Leadership: Led three interns in our team, mentored and shared knowledge about the business structure, key roles of different teams, guided them in various projects & tasks.

PharmEasy | Data Analyst

Dec 2021 - July 2022

- Boosted **monthly sales** by **10%** by analyzing over 1M+ transactions across 6 GMV ranges to identify targeted **pricing** and promotional **strategies**.
- Reduced manual processing time by **40%** by **automating ETL workflows** with **Apache Airflow** to integrate private label product data between **Redshift** and **Hive**.
- Optimized private label product pricing by **15%** by revamping **5+ MicroStrategy dashboards** with embedded competitor pricing feeds for **real-time monitoring** and decision-making.

- Built **product assortment** analytics using **SQL** to combine sales, inventory, and brand-level GMV, identifying demand gaps and guiding private label product **expansion** decisions.

TECHNICAL SKILLS

Programming Languages	Python (Pandas, Numpy, Scikit-Learn, PyTorch), SQL, R, Java, HTML/CSS, JS.
BI Tools	MS Excel, Tableau, Power BI, Looker Studio, MicroStrategy, HubSpot CRM.
ML, DBs, ETL	Statistical Analysis, MLOps, Postgres, Snowflake, Databricks, Apache Airflow.
Gen AI	LLM-APIs, Prompt Engineering, RAG, Finetuning, Evals, Google AI Studio.
Certifications	Google Analytics, Kaggle Advanced SQL.

EDUCATION

University of Massachusetts Dartmouth Sep 2023 - May 2025
Master's Degree | Data Science | GPA: **3.97**

VIT University Aug 2018 - Aug 2022
Bachelor's Degree | Computer Science | GPA: **3.45**

RECENT PROJECTS

RAG Chatbot to Analyze FDA Tobacco Reports ([Link](#))

- Built a Retrieval Augmented Generation (RAG) chatbot using **LlamaIndex** and GPT-4 to enable natural language access to **1.2k** unstructured **JSON** FDA tobacco reports to identify complaints trends & risks.

LLM Fine-Tuning & Evaluation ([Link](#))

- Fine-tuned **Llama-3.2-3B-Instruct** with **LoRA** adapters (PEFT) and 4-bit quantization using **Unsloth** on the FineTome-100k **synthetic** data, Led **evals** on model's responses using **Evidently AI** to evaluate correctness, toxicity, refuses etc, that improved factual accuracy while preserving safe, aligned outputs.
