Professional Summary

Supply Chain Analyst with 3.5 years of experience specializing in logistics optimization, warehouse operations, and transportation management. Expertise in leveraging SAP S/4HANA, Oracle ERP, and data analytics tools to streamline operations, reduce costs, and enhance supply chain visibility. Proven ability to design automated reporting, improve carrier performance, and lead process improvements that increase efficiency and resilience. Combines technical proficiency with operational insight to drive tangible results in fast-paced, global environments.

Technical Skills

ERP & Supply Chain Systems:	SAP S/4HANA (MM, SD, LE), Oracle ERP Cloud, SAP Ariba, Kinaxis RapidResponse, EDI & API Integration
Logistics & Operations Tools:	Transportation Management Systems (TMS), Warehouse Management Systems (WMS), Freight Audit & Payment, Carrier Performance Analytics
Data Analysis & Visualization:	Power BI, Tableau, SQL, Python (Pandas, NumPy), Advanced Excel, Data Modeling, KPI
Operations & Process Excellence:	Logistics Network Optimization, Carrier Rate Negotiation, Warehouse Throughput Analysis, SOP Development, Lean Principles, Root Cause Analysis
Core Logistics Domains:	Transportation Planning, Freight Cost Analysis, Last-Mile Delivery, Inventory Deployment, 3PL Management, Customs & Compliance

Experience

McKinsey & Co., USA Jun 2025 – Present
Supply Chain Analyst

- Optimize logistics operations by analyzing carrier performance and freight spend data, identifying cost-saving opportunities across domestic and international lanes.
- Support warehouse efficiency projects by analyzing throughput data and layout proposals, aiming to improve dock-to-stock cycle time by 20%.
- Develop automated Power BI dashboards to track on-time delivery, freight costs, and carrier compliance, replacing manual reports and reducing weekly analysis time by 30%.
- Collaborate with 3PL partners to streamline fulfillment workflows and improve real-time shipment visibility for key customer accounts.

Lumen Technologies, USA Feb 2025 – Apr 2025
Supply Chain Intern

- Conducted logistics network analysis using Tableau and SQL, leading to a carrier consolidation strategy that reduced annual freight costs by 15%.
- Built and maintained Python-based scripts to track and report on logistics disruptions, improving response time to potential delays by 50%.
- Managed relationships with key transportation and logistics vendors, developing performance scorecards that improved on-time delivery metrics.

Coforge, India Jan 2021 – Jun 2023
Supply Chain Analyst

- Supported demand planning with SAP APO forecasting models, improving accuracy by 8% across key products.
- Automated weekly inventory health reports in SQL/Excel, cutting excess stock by 20% and improving working capital by \$1.5M.
- Developed supplier scorecards from SAP data, raising on-time delivery to 95% and improving vendor selection.
- Consolidated data from legacy systems into a centralized SQL repository, improving reporting consistency and accuracy.
- Cleansed and validated 10,000+ material and vendor master records during SAP MM implementation, ensuring 99.8% migration accuracy.
- Supported warehouse operations by analyzing inventory placement and pick-path data, contributing to a 10% improvement in order fulfillment speed.
- Audited freight invoices with Excel, identifying errors that led to \$250K in recoveries from carriers.
- Documented and standardized procurement processes, reducing operational errors by 15%.

Education

Master of Science Computer Science | May 2025
Rivier University, Nashua, NH

Bachelor of Technology in Mechanical Engineering | May 2022
Vignan Lara Institute of Technology, Hyderabad, India
