Summary

Supply Chain Analyst with 7 years of global experience optimizing end-to-end supply chain operations across the healthcare, technology, and enterprise services sectors. Experience with demand planning, material management, inventory optimization, procurement analytics, and S&OP processes. Skilled in building automated dashboards, forecasting models, and analytics workflows using SQL, Python, Snowflake, Power BI, Tableau, and Excel. Strong understanding of ERP/SAP systems, MRP planning, supplier performance analytics, and logistics optimization. Adept at reducing costs, mitigating supply risks, and enhancing operational efficiency through data-driven decision-making. Experienced collaborating with cross-functional teams in an Agile environments to deliver scalable supply chain solutions.

Skills

Supply Chain & Operations: Demand Planning, Material Requirements Planning (MRP), Inventory Optimization, Procurement Analytics, Logistics Coordination, S&OP, Master Data Management, Order Fulfillment, Vendor Performance Analysis, Contract Compliance

Tools & Technologies: SAP (MM, PP, IM), Oracle ERP, JDE, Salesforce, Power BI, Tableau, Advanced Excel (Power Query, Power Pivot, VBA), SQL, Python

Data & Analytics: Forecasting Models, Safety Stock Calculations, EOQ, Reorder Point Analysis, Root-Cause Analysis, KPI Dashboards, Data Cleaning & Validation, ETL Pipelines

Logistics & Fulfillment Analytics: Order Tracking, OTIF, Lead-Time Analysis, Carrier Performance, Freight Cost Analysis, 3PL Coordination, Distribution Center Analytics

Inventory & Procurement Management: Inventory Optimization, ABC/XYZ Analysis, Reorder Policy Design, Procurement Analytics, Vendor Performance Evaluation, Transportation Management System, Inventory Reconciliation

Methodologies & Documentation: Continuous Process Improvement, Lean Six Sigma, Business Requirements Documentation (BRD), SOP Development, Agile/Scrum

Experience

Supply Chain Analyst

Jul 2024 – Present

CitiusTech, USA

- Managed **demand forecasting**, **inventory planning**, and **SKU replenishment** for high-volume e-commerce categories for improving forecast accuracy by 18% using **SQL-driven** predictive models.
- Built automated **Power BI dashboards** to track **fulfillment rates**, **DC performance**, and **supplier KPIs**, reducing manual reporting time by 40% and improving real-time operational visibility.
- Optimized **inventory placement** across Wayfair's multi-node warehouse network, reducing excess stock while sustaining 98% in-stock and service-level performance.
- Analyzed **supplier lead times**, **fill rates**, and **cost variances**; recommended vendor adjustments that lowered procurement spend by 8% and improved availability for top-selling SKUs.
- Executed **MRP planning workflows in SAP** for resolving stockouts, demand shifts, and planning exceptions, to ensure an uninterrupted order fulfillment and on-time delivery metrics.
- Partnered with **logistics**, **carrier partners**, and **3PL teams** to streamline outbound shipments, optimize transportation plans, and enhance tracking accuracy, reducing delivery delays by 12%.

Supply Chain Analyst

Nov 2018 – Nov 2022

Mphasis Australia Pty. Limited, Australia

- Led **material management**, **vendor reconciliation**, and **procurement analytics**, improving supplier compliance and reducing backorder occurrences by 22%.
- Built **SQL-based inventory reports** covering **ABC classifications**, **safety stock**, **reorder points**, and **lead-time variability**, enabling data-driven stocking policies.
- Automated **demand planning** processes using **Python** and **Excel (Power Query, Pivot Tables)**, decreasing forecasting cycle time by 35%.
- Managed **ERP/SAP** purchase requisitions, PO creation, **GR/IR exceptions**, and invoice mismatch resolution, to improve the financial accuracy across procurement workflows.
- Conducted **root-cause analysis** on supply disruptions, coordinating with sourcing, finance, and warehouse stakeholders to implement preventative actions.

- Supported **S&OP cycles** by preparing monthly supply-demand alignment reports and scenario-based planning dashboards for leadership teams.
- Integrated data from **SAP ERP (MM/SD)** and **SCM Cloud** to create a consolidated **supply-chain data lake** via **SQL-based ETL scripts**, ensuring end-to-end visibility from procurement to retail.

Supply Chain Analyst

Jul 2017 – Oct 2018

CGI Inc., Australia

- Coordinated in **inventory planning, procurement tracking, and logistics coordination** for enterprise clients, ensuring an on-time material availability.
- Performed **SKU-level demand analysis** using **Excel, SQL**, and forecasting techniques to support production and replenishment planning.
- Collaborated with the **procurement team** for monitoring **supplier performance**, negotiate lead times, and track contract compliance.
- Developed automated **inventory accuracy** and **cycle count** reports, reducing discrepancies by 25%.
- Supported logistics teams in **shipment scheduling, 3PL coordination, and freight exception management**, ensuring efficient distribution workflows.
- Created visual dashboards in **Tableau** to monitor **fulfillment rates, transportation costs, and operational KPIs**.

Education

Master's in Business Analytics	Jan 2023 – May 2024
Lewis University	Illinois, USA
Master of Business Administration	Jul 2015 – Jun 2017
Holmes Institute	Australia
