SUMMARY

Business Data Analyst with 5+ years of experience in analytics, KPI development, and process optimization. Skilled in SQL, Python, and Power BI/Tableau with expertise in statistical analysis, automation, and ETL workflows. Proven ability to translate complex data into actionable insights and drive strategic decisions. Passionate about leveraging AI/ML and cloud technologies to enhance decision-making and deliver measurable business impact.

SKILLS

- **Tools:** Power BI, Tableau, Looker, Quicksight, Google Analytics, Excel (VBA, Pivot tables, Vlookups)
- **Languages:** SQL, Python, Machine Learning
- **Cloud & DBs:** AWS (S3, Redshift), Sugar CRM, Azure Databricks, GCP, Bigquery
- **Techniques:** ETL, Predictive Modeling, A/B Testing, Time Series, Statistical Analysis, Power Automate
- **Other Skills:** Agile (Scrum, Kanban), JIRA, Smartsheet, Power Point

EXPERIENCE

Astound Business Solutions, Data Analyst

WA | Dec 2025 - Present

- Analyzed billing and tax data for 5K+ customers all over USA using SQL, resolving inaccuracies and preventing \$3M+ in revenue leakage while improving data accuracy by 70%.
- Designed Tableau reports for the Head of Sales Engineering, tracking paid vs. unpaid bills, tax-exempt status, and regional revenue trends, improving visibility into \$5M of unpaid customer balances.

University of Washington (US Air force), Data Analyst

WA | Sep 2025 - Jan 2026

- Implemented an AWS data warehouse solution (S3, Glue, Redshift SQL, Quicksight) after conducting 10+ stakeholder interviews to define KPIs, increasing visibility into unemployment trends by 80% and enabling data-driven workforce planning across military communities.

Green Trike, Children's Museum of Tacoma, Data Analyst

WA | June 2024 - June 2025

- Defined KPIs and designed DAX-powered Power BI dashboards by gathering requirements from executives and operations teams, boosting community revenue and donations by 60% (\$1.8M).
- Engineered Azure SQL and Databricks data models and automated ETL pipelines with Power Automate, improving reporting efficiency and reducing manual effort by 80%.
- Conducted trend and gap analysis on attendance and donations to uncover seasonal patterns, boosting summer attendance by 70%.
- Developed ML-based revenue forecasting models (97% accuracy) using Random Forest Regression, accelerating budget planning by 4 weeks.

Seamless Distribution Systems, Data Analyst

India | July 2022 - June 2023

- Owned telecom data migration SQL Server to Salesforce using SQL and SSIS Data Flow Tasks, ensuring 99.8% accuracy across 10M+ subscriber records.
- Implemented customer segmentation using Power BI and Google Analytics, boosting retention and revenue by 70% (\$4M) with targeted email marketing in the Dubai region.

TCS (Pfizer), System Engineer

India | July 2019 - July 2022

- Gathered requirements through 40+ stakeholder interviews, defining critical healthcare KPIs and building Power BI dashboards tracking 200+ drugs and clinical assets, improving clinical and supply chain visibility by 70%.
- Optimized 500+ SQL queries and ETL workflows across 5 integrated Pfizer systems, enhancing data accuracy and reporting efficiency by 60% organization-wide.

EDUCATION

- **MS in Business Analytics**, University of Washington **GPA 3.9 | June 2024 - June 2025**
- **BE in Computer Science**, Shri Vaishnav Institute of Technology & Science, India **Aug 2015 - May 2019**
