

Mitang Patel

Supply Chain Operations Professional

+1 (832) 646-3405 | mitangp94@gmail.com | Houston, Texas | LinkedIn

PROFESSIONAL SUMMARY

- High-caliber Management Information Systems graduate with 3+ years of supply chain, operations, and asset management experience in inventory control, process optimization, and data-driven solutions.
- Proven track record of reducing shipping errors by 15% and improving fulfillment accuracy through strategic tracking system implementation and cross-functional coordination.
- Combines strong analytical skills with hands-on logistics expertise to drive operational efficiency, audit readiness, and support business growth.

CORE COMPETENCIES

Supply Chain Management, Asset Lifecycle Management, Inventory Control Systems, Process Improvement, Data Analysis, Quality Assurance, Cross-Functional Collaboration, Risk Management, Operations Optimization, Microsoft Office Suite, Warehouse Management, Logistics Coordination, System Implementation, Performance Metrics, Cost Reduction

WORK EXPERIENCE

Lead Asset Management Analyst

Dec 2025 – Present

Foxconn Technology Group

Houston, TX

- Managed tracking and lifecycle control of manufacturing and IT assets across operations, ensuring accurate asset records and compliance with internal controls.
- Maintained asset inventory databases, monitored asset movement, and resolved discrepancies to improve data accuracy and audit readiness.
- Coordinated with operations, maintenance, and IT teams to support asset deployment, transfers, redeployment, and disposals.
- Supported preventive maintenance scheduling and utilization tracking to reduce equipment downtime and improve operational efficiency.
- Assisted with asset audits, depreciation tracking, and reporting to support finance and management decision-making.
- Improved asset visibility through standardized documentation, process alignment, and consistent tracking procedures.
- Served as primary point of contact for asset management workflows, ensuring consistent tracking processes across operations, maintenance, and IT teams.

Supply Chain Analyst

Sep 2024 – Dec 2025

HacknoTech

Houston, TX

- Analyzed supply chain data across 200+ SKUs to identify optimization opportunities and support strategic decision making across operations.
- Collaborated with cross-functional teams including procurement, logistics, and operations to streamline processes and improve supply chain efficiency by 12%.
- Developed and tracked KPIs and performance metrics to evaluate supplier performance, inventory accuracy, and order fulfillment effectiveness.
- Utilized analytical tools and data visualization methodologies to evaluate performance indicators and recommend process improvements for cost reduction.
- Supported inventory management initiatives for warehouse operations contributing to operational excellence and enhanced customer satisfaction.

Shipping and Receiving Specialist

Titan BOP Rubber Product Inc

Jul 2022 – Jan 2024

Houston, TX

- Designed and implemented a comprehensive inventory tracking system, reducing shipping errors by 15% and improving order fulfillment efficiency by 10%.
- Managed multi-product inventory operations by coordinating daily inbound and outbound shipments while maintaining high accuracy in material handling.
- Led cross-functional collaboration with engineering and operations teams to verify incoming and outgoing shipments, reducing operational delays by 25%.
- Implemented quality control and inspection protocols to identify discrepancies and establish corrective actions supporting continuous process improvement.

Package Delivery Driver

United Parcel Service Inc

Oct 2020 – Mar 2021

Houston, TX

- Consistently exceeded daily delivery targets by 15% across diverse Houston metropolitan routes demonstrating exceptional time management and organizational capabilities.
- Delivered superior customer service by resolving delivery inquiries and building positive customer relationships through effective communication and problem-solving skills.
- Maintained a 100% safety record, navigating challenging delivery environments and consistently delivering packages reliably and securely to customers nationwide.
- Leveraged handheld scanners and tracking tools to support precise package tracking and enable real-time delivery confirmations for improved operational flow.

Machine Operator

A9 Manufacturing Inc

Sep 2018 – Feb 2020

Houston, TX

- Executed precision manufacturing operations with meticulous attention to detail maintaining high-quality standards and zero-defect rates for optimal production.
- Collaborated with engineering teams to provide process improvement feedback enhancing product quality by 12% and operational efficiency through continuous improvement.
- Optimized production workflows to maximize productivity and minimize downtime demonstrating strong analytical and organizational abilities for enhanced manufacturing performance.
- Interpreted technical specifications and blueprints to execute complex manufacturing tasks showcasing ability to process and apply technical information effectively.

EDUCATION

Bachelor of Business Administration (BBA) in Management Information Systems

C. T. Bauer College of Business, University of Houston

Jul 2024

Houston, TX

Associate of Business Administration in Management Specialization

Lone Star College System

May 2021

Houston, TX
