Professional Summary

Senior .NET Developer with over 15 years of experience leading full-stack development and modernization efforts across industries including healthcare, energy, and financial services. Adept at building scalable enterprise applications using .NET Core, C#, Azure, SQL Stored Procedures and SSRS. Proven success in implementing CI/CD pipelines in Azure, migrating legacy systems, and mentoring junior developers. Passionate about engineering high-performance software solutions that improve business efficiency and user experience. Have utilized SOLID principles, Object Oriented programming along with the Agile process in each organization.

Technical Skills

Languages/Frameworks: C#, VB.NET, .NET Core, VB.NET, ASP.NET, MVC, JavaScript, HTML5, CSS3, JQuery, Angular, SQL, SSRS, Power BI, REST API, JSON
Cloud/DevOps: Azure, Docker, Azure Functions, CI/CD Pipelines, Git, Azure DevOps, AWS (basic exposure)
Databases: SQL Server, T-SQL, Oracle, Entity Framework, Dapper
Tools: Visual Studio, SSRS, Crystal Reports, Telerik, DevExpress, Ghost Inspector, NUnit, XUnit
Other: Microservices, nopCommerce, REST APIs, Agile Methodologies

Experience

Sr. Developer – ITAD USA

09/2025 – Current

- Build and maintain CI/CD pipelines for Azure
- Migrate Code from SVN to Git in Azure
- Developed a new application for Samsung stores to scan trade-in phones, laptops and watches to get an appraisal
- Work with Jr. Developers and run standups

Sr. Developer – Smile Doctors

06/2024 – 12/2024

- Built and maintained payment solutions for mobile apps using .NET Core and Azure.

- Introduced CI/CD pipelines improving deployment efficiency by 60%.
- Mentored junior developers, introducing modern coding standards.
- Utilized DevExpress for dynamic and responsive UI components.

Sr. Developer – Vistra Energy

07/2021 – 03/2024

- Led .NET migration from 4.5 to .NET Core 6 across major platforms.
- Modernized internal Angular/MVC applications for energy projection and batch processing.
- Created middleware in C# for nightly calculations.
- Wrote and managed complex SQL and Oracle scripts; maintained SSRS reports.
- Implemented batch automation logic for sequential nightly processing.

Developer – RainMaker Membership Services

07/2016 – 08/2020

- Refactored legacy VB.NET to C# and modularized with Docker containers.
- Implemented and introduced over 18 different payment gateways all across different countries.
- Migrated entire product suite to Azure; introduced CI/CD pipelines.
- Built and tested Angular-based mobile apps integrated with backend APIs.
- Enhanced Telerik Reporting and UI for modernized user experience.
- Used Ghost Inspector to automate regression testing for major releases.

Technical Services Manager – Higher Education Servicing Corp.

08/2004 – 10/2014

- Oversaw full-stack development of a \$1B loan management system.
- Migrated legacy COBOL system to ASP.NET/C# with SQL backend.
- Designed automation and reporting tools using SSRS and Crystal Reports.
- Administered SQL Servers and developed ADO.NET-based integrations.

System Administrator – Loanstar Systems Inc.

1998 – 08/2004

- Supported COBOL-based systems and WinForms-based internal tools.
- Built automation utilities using SQL Server and Crystal Reports.

Education

Associate of Science in Math – Blinn College, Brenham, TX

Associate of Applied Science in Computer Science – Texas State Technical College, Waco, TX
