(551) 301-4033 | Saipreethiv1609@gmail.com | [linkedin.com/in/sai-preethi-veeramalla/](https://www.linkedin.com/in/sai-preethi-veeramalla/)

SUMMARY

Supply Chain Analyst with around 4 years of experience in demand planning, inventory optimization, and supplier performance in manufacturing and consumer goods. Reduced excess stock and shortages by analyzing historical trends, monitoring KPIs, and implementing data-driven insights. Translate complex data into operational plans and coordinate with vendors and internal teams to ensure on-time deliveries and cost efficiency. Led initiatives to eliminate process inefficiencies, improving supply chain reliability and delivery rates.

SKILLS

Programming & Scripting Languages: Python, SQL, VBA

Supply Chain Tools: SAP ERP (MM, PP, IBP), SAP HANA, Ariba, Power BI, Tableau, Excel (VBA, Pivot Tables, VLOOKUP), MS Visio, Lucid chart

Inventory & Demand Planning: Forecasting, EOQ, Safety Stock, JIT, S&OP

Process Optimization & Databases: Value Stream Mapping, Root Cause Analysis (5-Why, Fishbone), SQL Server, MySQL, SSMS, Oracle

Analytics & Reporting: KPI Management, Hypothesis Testing, ABC/XYZ Analysis, Cycle Time Analysis, A/B testing

Risk & Failure Analysis: Failure Mode and Effects Analysis (DFMEA, PFMEA)

Core Competencies: Project Management, Demand Forecasting, Inventory Management, Procurement & Supplier Management, Risk Control Management, Continuous Process Improvement, Warehouse & Supply Chain Optimization

CERTIFICATIONS

Certified Lean Six Sigma Green Belt | Certified Professional Scrum Master-1 | Certified Salesforce Business Analyst

WORK EXPERIENCE

Pitney Bowes, USA

Oct 2025 – Current

Supply Chain Inventory Management Specialist

- Managed end-to-end purchase order lifecycle across 50+ presort sites, covering requisitions, supplier coordination, shipment tracking, goods receipt, invoice reconciliation, and **SAP-ready data validation**.
- Designed and implemented invoice automation and extraction pipelines (**Python, Excel, PDF to structured data**) to validate pricing, quantities, and receipts, reducing manual effort and PO-invoice discrepancies.
- Led multi-vendor parts reconciliation and **discrepancy resolution** (BlueCrest, BeltPower, Körber, Videojet, Carter Intralogistics, Capstone), resolving shortages, over-shipments, backorders, and return issues.
- Identified and corrected systemic over-ordering patterns (pack size and unit mismatches), executing site-to-site transfers, **RMAs**, and order cancellations to control excess inventory.
- Developed 30-, 60-, and 90-day demand and reorder optimization logic to balance service continuity with inventory cost control and reduce excess stock risk.
- Built and maintained **Smartsheet**-based tracking dashboards integrating email confirmations and shipment notifications, providing real-time visibility into order status, quantities, tracking, and receipts.
- Served as primary liaison between field technicians, supply chain leadership, and suppliers to align priorities, manage emergency transfers, and resolve site-specific constraints.
- Standardized **SOPs for ordering**, invoice processing, reconciliation, and **RMA/non-RMA workflows**, supporting audit readiness and long-term procurement automation initiatives.

DHL, USA

Sep 2024 – Oct 2025

Supply Chain Analyst

- Developed and deployed multi-echelon inventory optimization models using **SAP IBP** and **ABC-XYZ analysis**, enabling a **20%** reduction in excess inventory while maintaining **98%** service levels across 3 distribution centers.
- Collaborated with operations and customer planning teams to implement **JIT principles** for key SKUs within DHL-managed distribution centers, tracked via **Tableau** dashboards and **Excel**, reducing average inventory levels by **18%** and freeing up **\$1.2M** in working capital.
- Partnered with logistics and warehouse managers to streamline picking and packing processes using **Lean** and **Six Sigma methodologies**, increasing throughput and reducing order errors by **15%**.
- Orchestrated **root cause analysis** of recurring stockouts and shipment delays across regional DHL distribution centers using **5 Whys**, **Pareto analysis**, and **fishbone diagrams**, identifying process inefficiencies and implementing corrective actions that improved order fulfillment rate from **88% to 96%** within one quarter.
- Extracted and analyzed large supply chain datasets in **SQL Server** using **SQL Server Management Studio (SSMS)**, uncovering inventory imbalances that led to a targeted reallocation plan saving **\$250K** in carrying costs.

Supply Chain Analyst

- Applied **FMEA methodology** to assess risks in inbound logistics workflows, prioritizing mitigation actions that reduced critical disruptions by **15%** over two quarters.
- Designed and accomplished **A/B testing** on promotional inventory allocation strategies, identifying the optimal approach that increased sell-through rates by **11%** during peak periods.
- Conducted **hypothesis testing** on lead time variability across suppliers, validating process changes that reduced average lead time by **9%** and improved service level adherence.
- Created interactive **Power BI dashboards** for tracking inventory turns, order fulfillment, and backorders, increasing executive visibility and reducing weekly reporting effort by **40%**.
- Calculated **EOQ (Economic Order Quantity)** and **safety stock levels** for high-volume SKUs, aligning procurement with demand patterns and cutting holding costs by **12%** while maintaining **95% fill rates**.
- Configured and maintained material master data in **SAP ERP** to support production and procurement planning, reducing data errors by **12%** and improving planning cycle efficiency.
- Utilized **SAP HANA** to develop dynamic supply chain performance reports, identifying bottlenecks and enabling a **25%** reduction in order cycle times through faster decision-making.

EDUCATION

Master's in Information Systems Saint Louis University (SLU), Saint Louis, Missouri	May 2025
Bachelor's in Agriculture Lovely Professional University, Punjab, India	May 2023
