PROFESSIONAL SUMMARY

Senior Data & Business Intelligence Analyst with 10+ years of experience transforming complex enterprise data into actionable insights. Proven expertise in data quality management, SQL-based analytics, BI dashboard development, and data governance across financial services, healthcare, and enterprise environments. Advanced user of Power BI, Tableau, SQL, Teradata, and Informatica (Axon, EDC, Developer) with a strong track record of improving data accuracy, automating reporting, and supporting executive-level decision-making.

CORE SKILLS

SQL, Teradata, Power BI, Tableau, SSRS, Informatica Axon, Informatica Developer, Informatica EDC, Data Quality, Data Governance, ETL, Salesforce, Epic EMR, Excel (Advanced), SQL Server, Reporting Automation

PROFESSIONAL EXPERIENCE

Business Intelligence Analyst – Medxcel Facilities Management | Full-Time (2020–September 2025)

- Designed and maintained Power BI dashboards supporting healthcare facilities operations, maintenance performance, and compliance reporting
- Wrote complex SQL queries to extract, transform, and analyze data from enterprise systems for operational and executive reporting
- Analyzed KPIs and trends related to work orders, asset performance, and regulatory requirements to support data-driven decision-making
- Collaborated with cross-functional stakeholders to translate business requirements into scalable, actionable BI solutions

Data Analyst – OneAmerica Financial | Contract / Part-Time (2020–December 2025)

- Developed Power BI reports and ad-hoc analyses to support financial and operational insights
- Wrote and optimized SQL queries to analyze large datasets for reporting and decision support

- Performed data quality checks to ensure completeness, accuracy, and validity of reporting datasets
- Implemented data quality rules and validation logic to improve data reliability and consistency
- Applied data governance principles including standardized definitions, controlled data usage, and documentation of data sources and business rules

Data Reporting Analyst – Jane Pauley Community Health Center (2018–2020)

- Designed and delivered Epic EMR reports, audits, and dashboards supporting clinical, operational, and compliance initiatives
- Produced HEDIS, claims, and pharmacy reporting to support quality metrics, payer requirements, and leadership reporting
- Ensured data accuracy and consistency across healthcare reporting through validation and reconciliation processes
- Partnered with clinical and administrative stakeholders to translate reporting needs into actionable insights

Business Intelligence Analyst – Southern Glazer’s Wine & Spirits (2016–2018)

- Analyzed sales and financial data to support executive reporting, forecasting, and business performance analysis
- Built and automated reports and dashboards using SQL, Tableau, and advanced Excel functions (pivot tables, lookups, formulas)
- Delivered recurring and ad-hoc reporting on revenue, margins, and sales trends for leadership and business partners
- Improved reporting efficiency and data reliability through automation and standardized reporting processes

EDUCATION

Bachelor of Science – Communications & Electronics Engineering

Database & SQL Training – CBT Nuggets
