## PROFILE SUMMARY

---

Data Analyst with a strong foundation in statistical modeling, data visualization (Power BI, Python, SQL, Excel) and performance optimization. Proven success in delivering actionable insights to restructure operational efficiency and drive strategic decision-making.

## TECHNICAL & ANALYTICAL SKILLS

---

- Software Tools: Python| R| HTML| CSS| JavaScript| SQL| Power BI| Tableau| DAX| Advanced Excel
- Libraries & Frameworks: Flask| Pandas| NumPy| Scikit Learn| Altair| Polars| Databricks

## WORK EXPERIENCE

---

**Systems Analyst Project Manager** - BYU Idaho - Support Center; Rexburg, ID April 2024 – Dec 2025

- Mentored and guided 5 junior analysts on data analytics and Power BI visualization techniques, resulting in a 23% boost in report accuracy and efficiency in delivering actionable insights.
- Co-developed and maintained a high traffic campus survey platform used by 30% of campus offices, ensuring reliable performance and high user satisfaction.
- Oversaw data models and ETL processes for call center analysis using SQL and Python,
- improving data integrity and reducing processing time by 6% across 3 major projects.

**Data Analyst Intern** - The Church of Jesus Christ of Latter-day Saints; Remote July 2024 - December 2024

- Collected and reviewed courses and network data using GlassWire, leveraged Power BI, and Excel to assess technology access and identify improvement areas.
- Collaborated across 3 departments, demonstrating analytical aptitude, creativity, and teamwork to achieve the strategic goal of enhancing student technology access globally.
- Identified and corrected 50+ data inconsistencies, boosted course completion rates by 13% through development of comprehensive reports (DAX measures, Power Query) and dashboards, supporting management in monitoring and decision making.

**Power BI Data Analyst** - Brigham Young University Idaho, Rexburg, ID May 2023 - April 2024

- Built 5 Power BI dashboards from scratch to track performance metrics of 110+ call center agents, enabling data-driven decisions and reducing response times by 11%
- Maintained ETL pipelines and ensured consistent reporting across 5+ data sources, emphasizing collaboration and data accuracy.

**TA Supervisor/Analyst**; Brigham Young University Idaho, Rexburg, ID April - Aug 2023

- Developed Python scripts to automate reporting, streamlining TA contract hour tracking and flagging time non-compliance.
- Optimized resource allocation by 21% through creation of automated scripts, directly contributing to annual cost reductions.

## EDUCATION

---

**Brigham Young University - Idaho**

BSc; Computer Science; Minor in Business Analytics

GPA 3.9

- Merit Full Scholarship Recipient
- Computer Programming, Machine Learning and data Science Certificates

## LEADERSHIP & SERVICE

---

**The Church of Jesus Christ of Latter-Day Saints** – Full Time Missionary; Liberia, West Africa Jan 2018 - Dec 2020

- Conducted research and supported 150+ missionaries evacuate the country during a civil crisis, displaying people management, leadership, and communication-oriented teamwork.
