EDUCATION

Brandeis University Master of Science in Business Analytics (STEM-Designated) - GPA: 3.94/4.00 <i>Relevant Coursework:</i> Advanced Data Analytics, Machine Learning, Probability and Statistics, Econometrics	Greater Boston, MA 08/2024 - 12/2025
--	--

WORK EXPERIENCE

APPLICA Solutions AI DATA ANALYST Intern	Boston, MA 05/2025 - 08/2025
---	--

- Researched and applied AI/ML frameworks to large datasets, improving feature relevance for predictive modeling by 15%
- Engineered 10+ new customer and policy attributes that increased model accuracy by 12% compared to baseline
- Designed persona-mapping framework that aligned customer segments with key value propositions, enabling targeted strategies projected to raise re-engagement by 10–15%
- Built and validated machine learning features using Python, reducing noise and improving feature stability by 20% in cross-validation
- Created visual analytics dashboards highlighting churn patterns and risk factors, enabling leadership to identify high-value opportunities worth \$500K+ annually

Shiv Shakti Plastic Business Analyst	Indore, India 09/2022 - 08/2024
---	---

- Collected, cleaned, and analyzed large sales and inventory datasets to uncover trends that improved demand forecasting accuracy by 15%
- Designed and automated interactive dashboards in Excel/SQL that tracked KPIs such as revenue growth, stock levels, and supplier performance, reducing manual reporting time by 10+ hours per week
- Performed cost-benefit analysis for potential investments, leading to strategic decisions that improved storage capacity by 20% and reduced logistics costs by 10%
- Built data models to evaluate vendor performance and identified cost-saving opportunities that reduced procurement spend by 12%
- Applied statistical analysis to customer purchase history, guiding expansion into high-demand categories and boosting sales revenue by 20%

ACADEMIC PROJECTS

Brandeis University Boston Housing Analysis	Greater Boston, MA 10/2024 - 02/2025
--	--

- Cleaned and preprocessed 10,000+ data records across 13 features, handling missing values, outliers, and skewed distributions for accurate modeling
- Built and evaluated multiple regression models (Linear, Ridge, Lasso) with regularization, achieving an R^2 score of 0.91 and RMSE of 2.1 on test data
- Utilized model coefficients and feature selection techniques to identify average number of rooms per dwelling, crime rate, and distance to employment centers as significant predictors of housing prices
- Designed interactive dashboards in Tableau showcasing neighborhood-level housing trends, value fluctuations, and heat maps of key variables

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, Java, C++

Data Visualization & BI Tools: Tableau, Power BI, Advanced Excel

Statistical & Analytical Tools: SAS, STATA, Regression Analysis, Hypothesis Testing, Predictive Modeling

Core Competencies: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Dashboard Development, Machine Learning

ACTIVITIES

Teaching Assistant- Probability and Statistics (08/2025 - Present), Information Visualization(01/2025-04/2025),
