Professional Summary

Master's graduate in Business Analytics from Arizona State University, and MBA in Marketing, bringing a rare blend of advanced analytics and business strategy. With advanced skills in SQL, Python, Tableau, and statistical modeling. Strong background in forecasting, requirements gathering, reporting automation, and cross-functional stakeholder collaboration.

Education

MS in Business Analytics, W. P. Carey School of Business at Arizona State University. Dec 2025

GPA: 4.0/4.0

MBA in Marketing, MIT World Peace University School of Business Pune, India. Aug 2023

GPA: 3.08/4.0

Professional Experience

Capstone Project - Business & Market Analyst | Caliber.global - Scottsdale, AZ, USA Aug 2025 - Dec 2025

- Improved vendor reporting by 23% and used Gap Analysis to find 15% operational efficiency gains by conducting comprehensive KPI analysis and competitive benchmarking using Python and Tableau.
- Architected a strategic playbook for a new service line, outlining 3 distinct go-to-market strategies and defining 10 core KPIs to enable client performance tracking and expansion.

Capstone Project - Data Analyst | Grip Lab AI - Tempe, AZ, USA Aug 2025 - Dec 2025

- Analyzed a 200-day longitudinal dataset combining metrics from 8-10 unique grip devices, Oura Ring, and Whoop to validate grip strength as a critical, overlooked biomarker for daily recovery.
- Engineered a predictive machine learning model, trained on 200 days of multi-source data, that integrates grip strength with wearable metrics to generate a novel "Recovery Score".
- Achieved 10-15% higher predictive accuracy with the new model compared to conventional, wearable-only recovery scores, proving the value of grip-strength integration.

Business Analyst Intern | ICRM Software Pvt. Ltd. - Pune, India Dec 2023 - Mar 2024

- Improved cost efficiency by 12% by performing financial modeling and forecasting using Python and Excel.
- Converted business needs into actionable requirements, accelerating project delivery timelines by 20%.
- Integrated multi-source data using SQL and ETL methods, improving customer segmentation accuracy by 15%.
- Managed SDLC via User Stories, BRDs, and UAT, increasing cross-functional clarity by 25%.

Marketing Analyst Intern | Jyoti Vacuum Technologies Pvt. Ltd. - Pune, India May 2022 - Aug 2022

- Managed and cleaned 5,000+ customer and supplier records, enabling improved reporting and analytics accuracy.
- Used A/B Testing and KPIs to improve targeting precision, increasing engagement by 18%.
- Optimized marketing funnels using analytics, resulting in a 10% increase in conversion rates.
- Evaluated KPIs and prepared reports that enhanced decision-making speed by 20% for senior management.
- Designed automated Tableau dashboards, enabling 15% faster business insights for senior leadership.

Academic Projects

Strategic Investment & Risk Analysis (Monte Carlo Simulation) | ASU Mar 2025 - May 2025

- Built Monte Carlo and Bayesian models for demand forecasting and capacity planning under uncertainty.
- Drove risk-adjusted investment decisions using EVPI/EVSI and downside-risk analysis, identifying an optimal 30,000-unit capacity that captured 83% of demand and delivered \$883M expected profit.

Skills and Certifications

Languages: Python (NumPy, Pandas, Seaborn, Gurobipy), SQL, BigQuery

Tools: Tableau, Power BI, Excel Solver, Git, Jupyter Notebook, Minitab, Jira, Slack

Methods: UAT, Agile, Data Cleaning, Visualization, Machine Learning, Optimization, Lean Six Sigma, Dashboards, Feature Engineering, Predictive Modeling, Descriptive Modeling, Prescriptive Modeling, Demand Forecasting, Inventory Optimization, Process Optimization, Risk Modeling, Data Governance, Data Validation

Cloud Platforms: MS Power Platform (Power BI, Power Apps, Power Automate)

Business & Soft Skills: Critical thinking, Adaptive Communication, Problem-Solving, Decision Analysis
