

Suyash Mohta

Data Analyst | 5+ YOE | SQL • Python • A/B Testing • Tableau • ETL
San Francisco (open to relocate) | [LinkedIn](#) | suyashmohta97@gmail.com

PROFESSIONAL EXPERIENCE

Senior Data Analyst | Fashom

Aug 2024 – Present

- Engineered SQL (window functions and CTE) and Excel-driven analyses to measure performance metrics like CTR and average order value, delivering insights that boosted revenue by 14% and average session time by 30%
- Designed executive-ready Tableau dashboards that translated A/B test findings into actionable business insights, influencing C-suite executives and accelerating GTM timelines by 19%
- Collaborated with product managers and engineering to analyze user journeys using SQL and Tableau, detecting and resolving product flow drop off points leading to improved purchase conversions by 14%
- Developed scalable ETL workflows in Azure Data Factory and Synapse to integrate data into a centralized warehouse, enabling self-service analytics and saving manual reporting time by 15+ hours per week
- Segmented customers using SQL and Python via purchasing and behavioral signals to uncover high-value cohorts, increasing repeat purchases and overall retention by 17%

Data Analytical Consultant | Embee Software (Microsoft Partner)

May 2021 – Jul 2024

- Conducted data analysis using SQL and Excel to identify business growth opportunities for 30+ clients, boosting campaign performance and conversion rates to generate over \$5M in sales
- Created Tableau dashboards powered by SQL-driven analysis to translate performance metrics into visual narratives that influenced senior stakeholders and drove \$5M in client sales growth
- Executed A/B test and analyzed results using Python and SQL to assess business impact of product changes, uncovering behavioral patterns that increased user retention by 16%
- Partnered with data engineering to optimize data pipelines using ETL in Databricks and Apache Spark to power real-time dashboards, reducing latency by 28%
- Transitioned from SharePoint to Power BI dataflows using targeted SQL views, optimizing pipeline efficiency, cutting compute costs by 19%, and improving dashboard refresh speed by 40%
- Mentored juniors through structured training focusing on SQL and visualizations, reducing onboarding time by 40%

Data Analyst | SRM Capital Market

Aug 2020 – May 2021

- Built SQL and Python scenario models, improving decision accuracy 22% and recommending optimal strategies
- Analyzed \$50M+ financial data in MySQL, uncovering trends and risks that improved portfolio returns 9%
- Integrated Bloomberg data into Tableau via Azure Data Factory, boosting profits 18% and cutting reporting time 12 hours

TECHNICAL SKILLS

- Data Languages:** SQL, Python, R, Excel, DAX
- Statistics:** A/B Testing, Experimentation, Causal Inference
- BI Tools:** Power BI, Tableau, Looker
- Data Engineering:** ETL, dbt, Azure, Databricks, Apache Spark, AWS

CERTIFICATIONS

- Microsoft Data Analyst with Power BI (DA-100) Mar 2022
- Microsoft Data Engineer with Azure (DP-203) Aug 2023

ANALYTICS PROJECTS

Aug 2024 – Present

Expedia Price Optimization Analysis | Information, Insight and Impact | [GitHub](#)

- Conducted linear regression in R on pricing to optimize revenue strategies, identifying a 7% booking drop per \$100 increase
- Proposed region and income specific models, revealing high sensitivity in regions like Miami and low-income groups

Ensemble Optimization for California Housing Prices | Machine Learning & Artificial Intelligence | [GitHub](#)

- Applied Gradient Boosting and analyzed residual patterns and error distribution, leading to a 20% lift in predictive accuracy
- Developed Random Forest Regressor, fine-tuned hyperparameters with Grid Search, reducing MSE by 18% on housing data

EDUCATION

- Master of Science in Business Analytics | University of California, Davis Aug 2024 – Aug 2025
- Bachelor of Science in Informatics | Indiana University, Bloomington Aug 2016 – July 2020
