Chicago, USA | [aakashsagar1234@gmail.com](mailto:aakashsagar1234@gmail.com) | +1 (708)-510-0603 | [LinkedIn](#) | [GitHub](#)

## Summary

Software developer with 2.5 years of hands-on experience in full-stack web development, cloud integration, and system design. Proficient in Java, Spring Boot, React.js, Node.js, and AWS, with a strong foundation in building scalable, high-performance applications. Seeking Software Developer or Software Engineer roles.

*Open to relocation, and available to start immediately.*

## Education

**Illinois Institute of Technology, Chicago, USA**

Aug 2023 – May 2025

Master of Science in Computer Science

**Coursework:** Machine Learning, Big Data Technologies, Advanced Database Organization, Software Project management, Data preparation and analysis, Software Engineering,

**Achievements:** Merit Based Scholarship - \$10,000

**Bennett University, Greater Noida, INDIA**

June 2019 – May 2023

Bachelor of Technology in Computer Science

**Coursework:** Data Structures, Python, Java, C++, Design and Analysis of Algorithms, Computer Architecture, Cloud Computing, Web Development, Artificial Intelligence, Computer networks, Compiler Design.

## Skills

**Languages:** Java, JavaScript, SQL, Python

**Frameworks:** Spring Boot, React.js, Node.js, Express.js

**Technologies:** HTML5, CSS3, RESTful APIs, PostgreSQL, MySQL

**Cloud & Tools:** AWS (EC2, S3), GCP, Git, Postman, VS Code

**Concepts:** Object-Oriented Design, Agile Development, API Integration

## Experience

**Vedlinks, India- Software Developer**

Jan 2022 – Jun 2023

- Developed the **Absa Group** web platform using **React.js**, **Node.js**, and **Express.js**, improving feature delivery speed by 25%.
- Built and optimized **RESTful APIs** for scalable data handling, reducing server response times by ~25%.
- Designed responsive UI components with **React.js** and **Material-UI**, cutting page load times by 1.2s and boost user engagement.
- Worked with cross-functional and **AI/ML** teams in Agile sprints to integrate personalized features and deliver user-focused solutions.

**Doidde Technologies Pvt Ltd, INDIA- Java Developer**

Mar 2021 – Dec 2021

- Developed and optimized microservices using **Java**, **Spring Boot**, and **Hibernate**, improving system efficiency and scalability for large-scale data processing.
- Enhanced **PostgreSQL** performance through query tuning and indexing, reducing latency by ~30% for applications serving 10k+ users daily.
- Implemented Spring Security with **JWT** authentication to strengthen access control and data protection across services.
- Collaborated with frontend teams to **align APIs** with UI workflows, ensuring integration and faster delivery in Agile sprints.

**Perennial Code, INDIA- Front-end Developer Intern**

Sept 2020 – Dec 2020

- Built responsive, cross-platform interfaces using **React.js** and **Flutter**, improving load times by 25% and user engagement.
- Integrated **RESTful APIs** and **Firestore** for real-time data sync and authentication, reducing latency by 30%.
- Presented product demos to clients, increasing feature adoption by 20% through iterative feedback.

## Projects

### **Absa Group | Vedlinks**

Developed a client-facing insurance platform using **React.js**, **Node.js**, and **Express.js**, with optimized **RESTful APIs** and scalable backend services on **PostgreSQL** and **AWS EC2**, improving workflow efficiency and user experience across regions.

### **Job Portal Management System**

Built a scalable job portal backend using **Java Spring Boot**, **Hibernate**, and **MySQL**, supporting user authentication, job listings, and role-based access. Integrated with **AWS S3** for resume uploads and optimized query performance for faster search results.

### **Forest Fire Prediction**

Developed an **XGBoost** and **RandomForest** model achieving **87% accuracy** in predicting forest fires using geospatial data, with interactive visualizations for high-risk zone analysis

**Work Authorization:** F-1 OPT-EAD (valid for 3 more years, no sponsorship required)
