SUMMARY

Data analyst specialist transforming complex datasets into actionable insights to drive decision-making. Expertise in end-to-end data lifecycle management, from automated cleaning and validation to designing data models and interactive dashboards. Skilled in R, Python, SQL, and Tableau, with a strong statistical background in forecasting and regression modeling.

SKILLS

- **Programming & Statistics:** R, Python, Jupyter Notebook, SQL, SPSS, ANOVA, factor analysis, MINITAB
- **Visualization & BI:** Tableau, Tableau Prep
- **Analysis and Productivity:** Microsoft Excel, pivot tables, advanced functions
- **Analysis & Modeling:** Forecasting, Time Series Analysis, Regression Modeling, Project Reporting, Data Modeling
- **Consulting & Industry Experience:** Consulting Experience, Tech Industry Experience

WORK EXPERIENCE

Saint Paul Public Schools (SPPS)

Mar 2023 - Jun 2024

RESEARCH ANALYST

Saint Paul MN

- Managed the end-to-end data lifecycle, ensuring integrity through rigorous collection, cleaning, aggregation, and validation processes.
- Developed Python scripts in Jupyter Notebook to automate data cleaning and preparation workflows.
- Designed, maintained, and presented interactive Tableau dashboards, tables, and reports to communicate key findings and drive business intelligence.
- Conducted advanced analysis using regression modeling and time series analysis to forecast strategic trends and determine future district needs.
- Leveraged consulting experience to execute special data-driven projects that resolved critical business challenges.

Fidelity Information System (FIS)

May 2022 - Mar 2023

PAYMENT PROCESSING

Woodbury MN

- Validated and maintained data integrity for high-volume customer payments by reconciling written and numeric amounts.
- Identified, documented, and resolved remittance and payment errors to ensure accurate financial records.
- Managed data and verified accounts for accuracy using SQL queries.
- Ensured 100% data accuracy by confirming precise correspondence between remittance documentation and payments prior to processing.

Robert Half

Jun 2019 - Mar 2022

RESEARCH REMEDIATION ANALYST & DATA ENTRY

Minneapolis & Saint Louis Park, MN

- Conducted in-depth data analysis, leveraging regression analysis and predictive modeling to inform strategic insights.
- Resolved complex customer remediation issues by meticulously researching complaints and utilizing Wells Fargo resources.
- Designed and delivered data visualizations and comprehensive reports to present analytical findings to stakeholders.
- Maintained data integrity through accurate and timely high-volume data entry into proprietary systems.

PROJECTS

English Reading Improvement of The East Saint Paul School Analysis Using Designs

The East Saint Paul School

- Demonstrated a 3.2% outperformance above the National Mean, providing key evidence for curriculum funding and program continuation.

Chicago, Illinois Big Data Traffic Crash and Injury Analysis

2025

Chicago, Illinois

- Developed and published a high-impact, interactive Tableau dashboard analyzing over 1.2 million records of Chicago traffic crash data (2013-2024).
- Determined and isolated the top 10 high-risk intersections and peak crash times.
- Delivered essential, actionable insights that directly support municipal traffic safety planning and resource allocation strategies for injury reduction.

Evaluation of Various Tillage Implements

- Identified Disk and Moldboard Ploughs as optimal for crop performance, demonstrating a 72% increase in average grain yield
- Quantified the effect of four different tillage implements on soil properties and yield performance.

EDUCATION

Concordia University, Saint Paul, MN

MSc, Data Analytics

- **GPA:** 4.0/4.0

Metro State University, Saint Paul, MN

BSc, Applied Mathematics, Minor in Applied Statistics

- **GPA:** 3.5/4.0

CERTIFICATIONS AND TRAININGS

- **Kaggle: Data Cleaning, Data Visualization, Geospatial and Analysis, and Panda Completion**
- **Digital Platform: Google Analytics, HubSpot, and Hootsuite that include Social Media Marketing 2025, How to Use Hootsuite 2025, and Social Listening with Hootsuite 2025**

VOLUNTEER SERVICE

Rondo Public Library – Saint Paul, MN

Mar 2017 - Feb 2019

Tutor (Mathematics)

- Tutored Mathematics for all grade levels and worked with diverse ethnic background.
