

Anupama Rathod

San Francisco Bay Area, CA | [+1 510 557 6911](tel:+15105576911) | tanwar98anupama@gmail.com | [Linkedin](#) | [Github](#) | [Tableau](#)

Work Authorization: L2 Visa - No sponsorship required

Detail-oriented analyst with experience in consumer lending operations and decision systems. Converts financial/ops data into stakeholder-ready insights, supports process improvement, and drives data quality and policy-to-rules execution across cross-functional teams.

Skills

Technical: SQL, Python(pandas/numpy/plotly/Faker/seaborn/matplotlib), R, Tableau, Excel

Analytics/Process: Root Cause Analysis, A/B Testing & Hypothesis basics, Statistics, data cleaning, data quality checks, issue triage, Stakeholder Management, requirements-to-rules translation, decision-rule & loan management system

Projects ([GitHub](#)):

- **Fintech Customer Analytics (Python: pandas/numpy/plotly/Faker)** - Developed a customer analytics dashboard using **RFM segmentation, 12-month CLV, churn prediction, and cohort retention**, generating insights like revenue concentration in top customers and early-month retention drop-offs
- **Waze User Churn EDA (Python: pandas/numpy)** - Built a reproducible churn vs retained EDA pipeline with beginner friendly feature engineering (e.g., km/drive, minutes/drive) and exported shareable outputs (results markdown + summary CSV), runnable even without the original dataset.
- **Cyclistic Trips (BigQuery, Tableau)** - Built an end-to-end BigQuery workflow (cleaning + schema standardization + feature engineering) and Tableau dashboards to compare **member vs casual** ride behavior across duration, time-of-day, seasonality, bike types, and top stations.
- **Credit Card Spending Analysis (SQL Server, Tableau)** - Analyzed ~26K credit-card transactions in SQL Server using **CTEs + window functions** to answer business questions (spend concentration by city/card type, MoM growth, weekend behavior) and packaged insights in a Tableau dashboard.

Experience

FinTech Credit & Operations - Lendingplate (NBFC), Delhi, India | Oct 2022 - Nov 2024 | Assistant Credit Manager

- Assessed unsecured PL applications using income/obligations/bureau data (CRIF/Equifax/TransUnion); managed **\$500K+ approvals/month** while balancing approval lift with delinquency guardrails.
- Partnered with Sales, Operations, and Risk to translate policy into decision-system rule sets; **cut approval turnaround time by ~10x and reduced errors by ~30%**.
- Trained new underwriters on digital evaluation flow; standardized case notes and evidence capture.
- Monitored portfolio KPIs using Excel; shared concise readouts to adjust thresholds, and process documentation (SOPs).
- **CEO Spot Award (Apr 2023)** for top scores in 3 consecutive policy tests and performance.

Career Transition & Training | Dec 2024 – Present -

- Completed [Google Data Analytics Professional Certificate](#) (Coursera, Sep 2025); strengthened SQL-based EDA, data cleaning, dashboards, and stakeholder-ready reporting.
- Completed [Data Science Pro Program](#) (Fingertips, Mar-Nov 2025); reinforced statistics and end-to-end analytics workflow through applied coursework.
- Completed [Google Get Started with Python](#) (Coursera, Jan 2026); built Python fundamentals to automate analysis across portfolio projects.

Education

MBA (Finance & Marketing) - Swami Vivekanand Subharti University, Meerut (2021-2023)

BA - Delhi University, Delhi (2017-2020)

Additional Experience

Teaching | Yaduvanshi Shiksha Niketan, Bhiwani, India | 2018 - 2019: Taught Painting and Environmental & Social Health; developed clear, audience-appropriate communication and structured delivery.

Instagram Fashion Brand Manager | Aibly_clothing, Bhiwani, India | 2016 - 2017: Launched an Instagram-based apparel venture; handled basic P&L; hygiene, procurement, simple campaign reporting, and customer messaging.
