

TAREQ I. SHAREEF

Quality Engineer | QHSE Systems Specialist | Quality Data Analyst | Quality Auditor

Chicago, IL | tareq_shareef@outlook.com | +1 (630) 237-8892 | linkedin.com/in/tareqishareef

PROFESSIONAL SUMMARY

Quality Systems Engineer and IRCA-Certified Lead Auditor with 12+ years of progressive QHSE expertise transitioning from construction and infrastructure into regulated manufacturing environments. Specializes in eQMS validation (GAMP 5), regulatory compliance (ISO 13485, IATF 16949, FDA 21 CFR 820), and data-driven quality analytics. Combines regulatory auditing with advanced analytics (Python, SQL, Power BI) to build predictive quality systems that reduce risk and ensure audit readiness. Proven results: 98% compliance maintained across multi-site operations, zero major audit findings over 7 years, 35% reduction in recurring deviations through root cause analytics.

CORE COMPETENCIES

Regulatory Compliance & Quality Standards

ISO 9001:2015, ISO 13485:2016 (Medical Devices), IATF 16949 (Automotive), ISO 14001:2015 (Environmental), ISO 45001:2018 (Occupational H&S) | FDA 21 CFR Part 210, 211, 820 | GAMP 5 Computer System Validation | Risk Management (ISO 14971, FMEA)

Audit & Compliance Leadership

IRCA-Certified ISO 9001:2015 Lead Auditor | ISO 14001 & ISO 45001 Internal Auditor | Risk-based audit planning and execution | Multi-site audit program management | Regulatory compliance monitoring | Audit readiness and certification preparedness | Supplier/vendor auditing

QHSE Systems & eQMS Administration

SAP (QM, PM, QHSE modules), IBM Maximo | eQMS Platforms: ETQ Reliance, Cority, Enablon, Intelex, VelocityEHS, AssurX | GAMP 5 validation (IQ/OQ/PQ) | System configuration and administration | User access management | Workflow automation | Document control (Aconex, Phoenix, SharePoint, Citrix)

CAPA & Quality Processes

End-to-end CAPA lifecycle management | Non-Conformance Report (NCR) tracking and resolution | Root Cause Analysis (5 Whys, Fishbone/Ishikawa, FMEA) | Supplier quality management | Vendor audits | Change control | Deviation management

Data Analytics & Digital Quality

Python (automation, predictive modeling - Pandas, NumPy, Scikit-learn) | SQL (data extraction, analysis - PostgreSQL, MySQL) | Power BI & Tableau (KPI dashboards, executive reporting) | Advanced Excel (SPC, modeling, macros, Power Query, VBA) | Statistical Process Control (SPC) | Automated reporting solutions | Predictive analytics | Data warehousing (Snowflake, dbt, AWS Redshift)

Continuous Improvement & Project Management

Lean Six Sigma Green Belt & Yellow Belt | Process optimization and Kaizen methodologies | 8D problem solving | Project Management Professional (PMP) | SOP, Work Instruction, and Quality Manual development | Cross-functional training and facilitation | Change management | Stakeholder engagement

PROFESSIONAL EXPERIENCE

Quality Executive (QHSE Systems & Compliance)

Carillion Alawi LLC | Muscat, Oman | April 2016 – May 2023

Directed integrated Quality, Health, Safety, and Environment (QHSE) management systems for PDO corporate real estate projects (infrastructure, fabrication workshops, technical support facilities, and light manufacturing) valued at \$500M+, applying manufacturing-grade compliance frameworks (ISO 13485, IATF 16949, 21 CFR 820) to high-risk technical operations.

eQMS Validation & System Administration

- Configured and validated enterprise SAP QHSE and IBM Maximo modules per GAMP 5 guidelines, executing IQ/OQ protocols ensuring data integrity, secure audit trails, and 21 CFR Part 11 compliance readiness
- Automated quality and maintenance workflows for incident tracking, CAPA management, and document control, reducing manual processing time by 40% and eliminating data entry errors
- Administered eQMS platforms (ETQ Reliance, Cority, Enablon) supporting 300+ concurrent users across multiple sites, managing user access controls, system configurations, and platform integrations

Audit Leadership & Regulatory Compliance

- Led 500+ quality audits and inspections across 8 sites over 7 years, maintaining 98% QMS compliance and achieving zero major non-conformities during external ISO 9001, ISO 14001, and ISO 45001 certification audits
- Developed risk-based audit program aligned with regulatory inspection readiness principles, systematically benchmarking processes against 21 CFR 820, ISO 13485, and IATF 16949 requirements
- Prepared audit-ready documentation packages and evidence files, reducing external audit prep time from 6 weeks to 10 days through systematic organization

Data-Driven Quality Analytics & Predictive Modeling

- Built Python-based predictive quality model analyzing 3 years of CAPA data (1,200+ records), identifying pattern clusters and recurring root causes that reduced quality deviations by 35%
- Automated executive quality dashboards using SQL and Power BI, providing real-time visibility into 15 KPIs (CAPA cycle time, NCR trends, audit findings, supplier quality) and cutting monthly reporting time by 60%
- Performed statistical process control (SPC) analysis on critical quality metrics, establishing control limits and monitoring plans for early detection of process drift

CAPA & Non-Conformance Management

- Managed end-to-end CAPA lifecycle for 800+ quality and safety incidents: logged investigations in digital QMS, conducted rigorous root cause analysis (5 Whys, Fishbone, FMEA), implemented corrective/preventive actions, and verified effectiveness within contractual SLAs
- Designed corrective action knowledge matrix categorizing 5 years of CAPA data by root cause type, creating institutional memory that prevented repeat failures and improved first-time resolution rates by 28%
- Reduced average CAPA closure time from 45 days to 30 days through process optimization, automated workflow triggers, and enhanced cross-functional coordination

Document Control, Training & Change Management

- Authored, updated, and reviewed 120+ SOPs, work instructions, and quality manuals to ISO 13485 documentation standards, ensuring complete traceability, version control, and compliance-ready documentation
- Trained and certified 200+ personnel on QMS procedures, audit readiness, and digital QMS processes, achieving 92% first-time competency assessment pass rate

- Managed change control process for QMS updates, SOP revisions, and system modifications, ensuring regulatory compliance and stakeholder alignment

Supplier Quality Management

- Conducted 100+ supplier audits and incoming material inspections against IATF 16949 and ISO 13485 supplier requirements, implementing corrective action plans that improved supplier quality ratings by 25%
- Established vendor scorecards tracking on-time delivery, defect rates, audit performance, and responsiveness to drive continuous supplier improvement

QA/QC Engineer (Rail Infrastructure)

Doğuş İnşaat – Riyadh Metro Rail Project | Riyadh, Saudi Arabia | January 2014 – March 2016

Managed quality assurance and control on \$225M metro rail construction project (Package 3, Line 4-5-6), ensuring compliance with project specifications across civil works, MEP systems, and architectural finishes.

- Established formal Non-Conformance Reporting (NCR) and CAPA system processing 500+ quality deviations, implementing root cause analysis protocols and tracking corrective action closure within contractual 14-day SLAs—improved closure rate from 65% to 89%
- Managed daily QA/QC workflows triaging field inspection reports, quality tickets, and construction deviation logs. Streamlined issue escalation between 12 subcontractors and client QA department, reducing average resolution time by 20%
- Led project quality control activities including material testing documentation, inspection scheduling, and client acceptance sign-offs. Coordinated third-party inspections and compiled quality dossiers for handover, contributing to zero delays from quality documentation issues
- Executed daily inspections and quality hold points for structural concrete, MEP installations, and finishing works, documenting findings in Aconex QMS and coordinating corrective measures

QA/QC Civil Inspector

MAS Architects & Consulting Engineers | Riyadh, Saudi Arabia | June 2011 – December 2013

Performed on-site quality assurance and control activities for multi-story commercial and mixed-use development projects, building foundation in quality systems and documentation control.

- Conducted structural and material inspections and testing, documenting results to verify compliance with contract specifications and engineering standards
- Supported development of quality documentation workflows ensuring complete traceability and audit readiness for client review
- Assisted in preparing for ISO 9001 certification by organizing quality records and supporting internal audit activities, establishing foundation for systematic quality management

EDUCATION

Master of Science in Data Science

University of the Cumberlands, Kentucky, USA

Focused on Predictive Analytics, Data Governance, Machine Learning, Statistical Modeling, Database Management, and AI applications in Quality Management Systems

Bachelor of Engineering in Civil Engineering

Osmania University, Hyderabad, India

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ISO 9001:2015 Lead Auditor – IRCA Certified (International Register of Certificated Auditors)
- Project Management Professional (PMP) – Project Management Institute (PMI)
- Lean Six Sigma Green Belt (LSSGB) – Process improvement and variation reduction methodologies
- Lean Six Sigma Yellow Belt – Foundation-level certification in Six Sigma principles
- ISO 14001:2015 Internal Auditor – Environmental Management Systems
- ISO 45001:2018 Internal Auditor – Occupational Health & Safety Management Systems
- ASQ Certified Manager of Quality/Organizational Excellence (CMQ/OE) – Training Completed in ASQ Body of Knowledge for quality leadership
- IOSH Managing Safely – Institution of Occupational Safety and Health
- QCF Level 3 Award in Food Safety (Catering) – Highfield (HABC) – Food safety and quality assurance

TECHNICAL SKILLS

QHSE & Quality Management Systems: SAP (QM, PM, QHSE modules), IBM Maximo | eQMS Platforms: ETQ Reliance, Cority, Enablon, Intellex, VelocityEHS, AssurX (configuration and administration) | Document Control: Aconex, Phoenix, SharePoint, Citrix

Data Analytics & Engineering: Python (Pandas, NumPy, Scikit-learn - automation, predictive modeling) | SQL (PostgreSQL, MySQL - data querying and cleansing) | Power BI, Tableau (KPI dashboards, executive reporting) | Advanced Excel (Power Query, VBA macros, statistical analysis, SPC modeling) | Snowflake, dbt, AWS Redshift (data warehousing)

Project Management & Design Tools: MS Project, Primavera P6 (construction scheduling) | Microsoft 365 Suite (Word, Excel, PowerPoint, Teams) | Google Workspace | AutoCAD (basic drafting and review)
