PROFESSIONAL SUMMARY

Regulatory affairs specialist with 4+ years of experience in global submissions and CMC support. Spearheaded regulatory initiatives across the U.S., EU, Africa, and Asia, with a strong focus on FDA and EMA approvals. As Founder and Principal Consultant, delivered regulatory strategy and compliance services, supporting clients across North America, South Asia, and Africa. Improved submission efficiency by 25% by streamlining processes and implemented systems to achieve 100% audit readiness. Promoted twice in under 3 years and now leads own consulting firm.

SKILLS

- Regulatory Submissions (IND, NDA, NDS, MAA, BLA)
- CMC CTD Authoring & Review (Modules 2 & 3)
- FDA, EMA & Global Regulatory Requirements
- cGMP & Regulatory Compliance
- Change Control & Regulatory Impact Assessments
- Regulatory Intelligence & Strategy Support
- RIMS / eCTD / EDMS / NDS / DMF / SMF
- Cross-Functional & Client Stakeholder Management

PROFESSIONAL EXPERIENCE

Founder and Principal Consultant – Regulatory Affairs

July 2024 - Present

Worldwide Regulatory Agency, Boston, MA

- Conceptualized and implemented a submission process leveraging automation, saving clients an average of 150+ hours per project while adhering to strict regulatory guidelines.
- Counseled 8+ pharmaceutical and biotech companies annually on regulatory pathways across North America, South Asia, and Africa, retaining 90% of clients year-over-year.
- Engineered regulatory pathways that reduced client time-to-market by 9 months, driving revenue growth and securing 4 crucial FDA/EMA approvals for innovative drug and medical device programs.
- Directed the creation and revision of CMC documentation for drug master files and site master files, which streamlined development, thus accelerating manufacturing readiness for three key client sites.
- Guided 5 clients through complex regulatory pathways, reducing submission review cycles by 20% and enabling quicker, cost-effective market entry, showcasing expertise.
- Implemented FMEA, risk management and CAPA processes to mitigate risks and ensure compliance with regulatory requirements, improving overall product quality by 68%.

Regulatory Project Specialist

May 2023 - June 2024

Population Council, New York, NY

- Developed and implemented comprehensive tracking systems for regulatory submissions, ensuring efficient document management processes that ensured 100% audit readiness across all regulatory submission.
- Collaborated cross-functionally with QA, Legal, and external stakeholders to review regulatory documentation and implement process improvements, ensuring compliance with cGMP, ISO 13485 and ISO 9001 standards, reducing submission approval delays by 20%.
- Prepared, submitted, and maintained 10+ regulatory dossiers to health authorities across six African countries, ensuring compliance with local and regional regulatory requirements.
- Analyzed product and SOP changes to assess regulatory impact, identifying required actions that improved compliance documentation accuracy by 30%.
- Directed IND and NDA submission processes by developing electronic submission templates, reducing preparation time by 15+ hours per dossier and supporting faster approval timelines.

Regulatory Affairs Associate

January 2020 - January 2022

Chiral Drugs, India

- Spearheaded the strategic submission process for CTAs across 4 countries; coordinated with local and back-office teams to ensure adherence to all planned regulatory deadlines and maintain high-quality documentation.
- Conducted preparation and coordination of 100+ regulatory submission packages for clinical trials, ensuring FDA compliance through collaboration with internal teams and regulatory authorities.
- Achieved a 98% on-time submission rate for 100+ clinical trial applications by performing CFR reviews and supporting clinical research administration.
