

SANTHOSH RAVULA

AI-Integrated Software Engineer

Dayton, OH | +1 937-305-3741 | Santhoshravula374@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI-Integrated Software Engineer with nearly **3 years of experience** designing, building, and deploying **scalable backend and full-stack applications** with embedded **AI/ML capabilities**. Strong hands-on expertise in **Python-based backend systems**, RESTful APIs, cloud-native deployments on **AWS**, and integrating **machine learning models and LLMs** into production workflows. Experienced in collaborating with cross-functional teams, improving system performance, and delivering secure, maintainable software solutions aligned with real business use cases.

CORE TECHNICAL SKILLS

- **Programming & Backend:** Python, JavaScript, TypeScript, C, REST APIs, Flask, Django
- **Frontend & Full-Stack:** React, Angular, Bootstrap, HTML5, CSS3
- **AI / ML & LLM Integration:** TensorFlow, PyTorch, Scikit-Learn, Hugging Face, OpenAI APIs, LangChain, Prompt Engineering, NLP basics, Model Inference
- **Cloud & DevOps:** AWS (EC2, Lambda, S3, SageMaker), Docker, Kubernetes (basics), CI/CD (GitHub Actions), Linux
- **Databases & Data Handling:** PostgreSQL, MySQL, MongoDB, SQL Optimization, Schema Design
- **Testing, Quality & Observability:** pytest, Jest, SonarQube, API Testing, Logging & Monitoring (CloudWatch exposure)
- **Software Engineering Practices:** Microservices basics, SDLC, Agile/Scrum, Code Reviews, System Design Fundamentals, Secure Coding Practices

PROFESSIONAL EXPERIENCE

Software Engineer (AI-Integrated Backend)

Wells Fargo – United States

Jun 2025 – Present

- Designed and developed **Python-based backend services** using Flask to support **AI-driven customer insights and fraud-related workflows**.
- Integrated **machine learning models (TensorFlow, PyTorch)** into backend pipelines to enable **real-time and batch inference**.
- Built and maintained **RESTful APIs** consumed by internal services and React-based front-end applications.
- Deployed AI inference services on **AWS (Lambda, EC2, SageMaker)** with a focus on **scalability, latency optimization, and cost efficiency**.
- Implemented **CI/CD pipelines using GitHub Actions** and containerized services with **Docker** to streamline deployments.
- Collaborated with ML engineers, QA, and product teams to improve **model performance, reliability, and production readiness**.
- Participated in **code reviews, defect resolution, and production support activities**, ensuring system stability and data security.

Software Developer

Nexova – India

Aug 2021 – Jul 2023

- Developed **full-stack web applications** using **Angular, Django, and REST APIs** to support customer-facing and internal platforms.
- Integrated **AI-powered features** using **OpenAI APIs and Dialogflow**, enabling chatbot-based workflow automation and support use cases.
- Built **responsive UI components** with Angular and Bootstrap to enhance usability and user engagement.
- Designed and optimized **relational and NoSQL databases** (PostgreSQL, MongoDB) for performance and scalability.
- Supported **end-to-end SDLC**, including development, testing, deployment, and post-release maintenance.
- Worked closely with cross-functional and geographically distributed teams in an **Agile environment**.

SELECTED ACADEMIC & HANDS-ON PROJECTS

Credit Card Fraud Detection Platform

- Built a **machine-learning-based fraud detection system** integrated into a Flask/Django backend.
- Exposed model predictions via **REST APIs** and visualized insights using a **React dashboard**.
- Deployed the application on **AWS**, focusing on reliability and scalable API access.

AI-Powered Task Planner from Audio

- Developed a web application that converts **audio recordings into structured tasks** using **NLP and OpenAI APIs**.
- Implemented integrations with **Trello, Asana, and Google Sheets** to support real-world productivity workflows.

Face Mask Detection System

- Implemented a **real-time computer vision solution** using **Python, OpenCV, and CNNs**.
- Deployed the application using **cloud hosting and CI/CD pipelines** for continuous delivery.

EDUCATION

Master of Science in Computer Science

Wright State University, Dayton, OH —

Dec 2025

Bachelor of Technology in Computer Science & Engineering

TKR College of Engineering and Technology, Hyderabad, India

CERTIFICATIONS & TRAINING

- **Full-Stack Web Development** – Udemy (Python, Front-End & Back-End) | Feb 2025
- **Certified Web Developer** – Manac Infotech | Jul 2023
