

PROFESSIONAL SUMMARY

Senior React developer with 6+ years of experience building user interfaces for platforms with 500,000+ monthly users. Demonstrated success improving application performance by up to 40%, reducing defect rates by 45%, and accelerating feature delivery through component reusability, micro-frontend architecture, and Agile leadership. Certified in data privacy and cybersecurity.

PROFESSIONAL EXPERIENCE

Tech Mahindra, Tech Lead / Senior React Developer | Plano, TX | Mar 2024 – Present

- Led modernization of large-scale customer portals using **React, TypeScript, MobX, Recoil, and Node.js**, improving client-side performance by **42%** and supporting **150K+ active users**.
- Managed and mentored a **6-member UI engineering team**, raising delivery consistency and code reliability by **30%** through architectural reviews and standardized component libraries.
- Introduced **micro-frontend architecture** with lazy loading and dynamic imports, cutting JavaScript bundle size by **38%** and significantly improving mobile responsiveness.
- Partnered with backend and cloud teams to integrate **real-time APIs and Node-based services**, improving system observability and lowering customer support escalations by **25%**.
- Elevated accessibility standards by embedding **WCAG-compliant design practices**, increasing audit compliance scores from **72% to 94%**.
- Strengthened quality assurance by expanding automated coverage using **Jest, Detox, and React Testing Library**, resulting in a **40% reduction in regression issues**.
- Actively drove Agile execution using **Jira**, improving sprint forecasting accuracy and cross-team collaboration.

Infosys Ltd., Senior React Developer | Richardson, TX | Feb 2022 – Mar 2024

- Designed and delivered scalable front-end systems using **React, Next.js, and Material UI**, supporting an enterprise e-commerce platform with **500K+ monthly users**.
- Transformed monolithic JavaScript codebases into modular React components, accelerating release cycles by **35%** and improving long-term maintainability.
- Optimized application state flows using **Redux Toolkit, MobX, and Recoil**, eliminating performance bottlenecks and reducing render latency by **28%**.
- Collaborated with backend engineers to consume **REST and GraphQL APIs**, increasing data throughput by **31%** through efficient request handling.
- Improved CI/CD reliability by integrating automated UI and integration tests, cutting post-production defects by **45%**.
- Worked closely with product designers and UX specialists to refine user journeys, leading to measurable gains in engagement and conversion metrics.

Exelon (Pepco Holdings – PHI), Senior React Developer | Washington, DC | Jan 2020 – Jan 2022

- Built high-availability enterprise dashboards using **React, Tailwind CSS, and Node.js**, enabling operational monitoring for **2M+ utility customers**.
- Modernized legacy UI platforms by adopting contemporary JavaScript frameworks, reducing page load times by **40%** and improving scalability.
- Strengthened front-end security by integrating **C# backend services**, secure session handling, and role-based UI authorization, lowering exposure to vulnerabilities by **33%**.
- Enhanced real-time data visualization through optimized caching strategies and refined state management logic.
- Increased team velocity by **27%** by improving Agile workflows, sprint planning practices, and Jira-based delivery tracking.

SKILLS

Full-Stack Development: React.js, Next.js, JavaScript (ES6+), TypeScript, Node.js, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, Redux Toolkit, MobX, Recoil, Context API, React Query, Client-Side Caching

Backend & API Engineering: Node.js, Express.js, RESTful Services, GraphQL APIs, Micro-Frontend Architecture

Database & Data Modeling: SQL, MySQL, PostgreSQL, Schema Design, Query Tuning, Indexing Strategies.

DevOps & Cloud Platforms: AWS, Azure, GCP, CI/CD Pipeline Implementation, Docker, Webpack, Vite

Tools, Process & Collaboration: Git, GitHub, Bitbucket, Jira, Agile & Scrum Methodologies, Cross-Functional Team Collaboration, Technical Documentation, Requirement Analysis

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science

Towson University – Towson, MD, Aug 2022

- ADA Compliance Certification
- Data Privacy Compliance & Assessment Certification
- Introduction to Cyber Security in SDLC Certification
