

KARIM KOURANY

Senior Software Developer & Data Engineer

+1 514 655-5231

k.ashrf911@gmail.com

Montreal , QC , Canada

SUMMARY

Senior Full Stack Developer and Data Engineer with 9+ years of experience building and maintaining high-scale web platforms, ad-tech systems, and data pipelines. Strong background in PHP, Python, Node.js, and cloud-native architectures on AWS. Proven expertise in ad serving systems, AI-driven creatives, and large-scale tracking & conversion data using EMR, Airflow, Delta Lake, Athena, and S3. Results-driven, performance-focused, and experienced in production environments handling millions of events per day.

EDUCATION

MUST University

Bachelor's Degree in Computer Science
2013 – 2017

SKILLS

- **Programming Languages:** Python (Data Engineering, Automation, ETL, AI Pipelines), PHP (Laravel, CakePHP), JavaScript (Node.js), Typescript (Nest.js)
- **Big Data & Data Engineering:** Apache Spark (EMR), Apache Airflow (DAG), Delta Lake, Parquet, ETL Pipelines, Event-Driven Data Processing
- **Cloud & AWS Architecture:** AWS Lambda, EventBridge, Kinesis Streams, Kinesis Firehose, S3, Athena, EMR, EC2, RDS, CloudFormation, ECR Serverless Architectures, Streaming & Batch Processing
- **Databases & Storage:** MySQL, Elasticsearch, Delta Lake, S3 Data Lakes, Schema Design, Query Optimization, Indexing Strategies
- **Backend & API Development:** RESTful APIs, Microservices Architecture, Event-Driven Systems, High-Throughput Ad-Serving Systems, Authentication & Authorization, Payment Integrations (Stripe, PayPal)
- **DevOps & Infrastructure:** Docker, CI/CD Pipelines (GitLab CI, Jenkins), Linux Server Administration, Infrastructure as Code (CloudFormation), Monitoring & Reliability Engineering
- **Frontend:** React.js, Vue.js, HTML5, CSS3, Modern Component-Based UI Development
- **Testing:** Automated Testing (Postman, Selenium), Unit & Integration Testing, Production Debugging
- **Collaboration & Tooling:** Github, Bitbucket, GitLab, JIRA, Agile/Scrum Environments, Cross-Functional Collaboration

LANGUAGES

- **English** - Fluent
- **French** - Conversational
- **Spanish** - Conversational
- **Arabic** - Native

PROFESSIONAL EXPERIENCE

Bandsintown — Full Stack Developer & Data Engineer

Montreal, Canada | Oct 2024 – Present

- Maintain and enhance ad-serving and AI dynamic creative systems used at large scale.
- Develop and support backend services using PHP and Python, focusing on performance, reliability, and scalability.
- Design and operate event-driven architectures using AWS Lambda, EventBridge, Kinesis Streams, Firehose, and S3.
- Build and optimize data engineering pipelines processing massive volumes of tracking events, conversions, and external partner reports (Apple, Amazon, etc.).
- Work extensively with Airflow DAGs, EMR (Spark), Parquet, Delta Lake, and Athena for analytics and reporting.
- Improve data accuracy, pipeline reliability, and processing efficiency across multiple systems.

BizBiz Global Inc. — Senior Software Developer

Montreal, Canada | Jan 2019 – Feb 2024

- Architected and developed the core e-commerce platform, using Typescript, Node.js, Express, React.js, and MySQL, significantly improving scalability and performance.
- Designed and maintained microservices architectures using Laravel, CakePHP, and Python (Django).
- Led payment system integrations (Stripe, PayPal, Zoho) for subscriptions, invoicing, and B2B transactions.
- Implemented CI/CD pipelines, automated testing, and performance optimizations across services.
- Collaborated with cross-functional teams to deliver reliable, production-grade solutions.

Universidad de Monterrey — Software Developer

Monterrey, Mexico | Apr 2018 – Oct 2018

- Developed academic and administrative systems using PHP (Laravel) and MySQL.
- Improved enrollment workflows, increasing efficiency by 15%.
- Built reporting tools in Java (Spring) for student and staff data management.

BlueWave — Web Developer

Remote, Boston, USA | Jul 2017 – Mar 2018

- Led development of a CMS dashboard for travel reservations.
- Built backend services in Laravel and frontend components in Vue.js.
- Optimized database schemas and ORM integrations to improve system performance.
