WORK EXPERIENCE

L'Oréal

South Brunswick, NJ

Junior Supply Chain Associate – Deductions Specialist

September 2024 – September 2025

- Administered \$1M–\$3M in monthly credit adjustments owed to retailers across 25+ accounts using SAP and High Radius, collaborated with Finance to reconcile AR and maintain financial accuracy for brands including IDC, Lancome, Kiehl's, ITC, Urban Decay, and YTTP
- Processed 100+ DIF/TIF invoice files for strategic accounts Sephora, Ulta, and Sephora at Kohl's quarterly for \$20M+ in product credits, optimizing workflow across Distribution, Finance, and Sales to ensure timely and accurate retailer deductions
- Disputed \$500k+ in shortages monthly from Sephora, Ulta, and Macy's, ensuring accurate financial reporting and LUXE division margins
- Improved financial accuracy and audit readiness by managing \$1M+ in monthly donation processing for Sephora and Ulta using ERP and SaaS
- Contributed to the resolution of \$10K+ in monthly violations from Sephora and Ulta by disputing discrepancies, ensuring financial accuracy
- Investigated debit memos for 10+ retailer accounts using High Radius and Traverse Systems, to identify violations and support AR accuracy
- Researched missing SKU and UPC data using SAP, LEAP, and teams to complete DIF files, ensuring data accuracy and timely AR resolution

Wakefern Food Corporation

Jamesburg, NJ

Logistics Analyst Intern

May 2023 – August 2023

- Increased the efficiency of PO processing by managing the lifecycle of over 4k POs from more than 50 vendors, ensuring accurate fulfillment
- Improved the accuracy of purchase orders by analyzing over 8k shipment documents, adjusting incorrect shipped item data to align with vendors
- Coordinated with 5 key vendors to implement drop shipments, increasing daily inventory by 5,000 items and enhancing product availability
- Monitored and resolved overages, shortages, and missing items from 50 vendors daily, improving live shipment accuracy by 5%
- Analyzed shipment data to ensure inbound inventory accuracy using Warehouse Management System (WMS) and minimizing discrepancies
- Contributed to product planning, assortment, packaging, and marketing, as part of a cross-functional project team

ACADEMIC PROJECTS

Microsoft Sales Revenue Forecast Modelling | Excel, PowerPoint, Word

- Forecasted future sales data for Microsoft using Excel to perform 7 forecasting models based on previous quarterly sales data
- Found Winter's Additive Method as the best for having the lowest RMSE, accounting for trend, slope, and seasonality, and most optimized predicted sales data when compared to other methods used: Moving Average, Simple Exponential Smoothing, Holt's Method, etc.

Project Management | Excel, PowerPoint, Word

- Developed a project plan to build a new pizzeria in NJ, created a Project Charter, schedule, budget, and evaluated costs and risks
- Created a Risk Management Plan to categorize potential risks based on probability, impact, and level of importance on a 1-10 scale, assessed 32 unique risks, and formulated Response Plans accordingly

LEADERSHIP AND AWARDS

- Awarded the Intern Innovation Certificate of Excellence from Wakefern for achieving first place in researching and developing a new product for ShopRite's Own Brand Assortments.
- Received RBS TeamUp Undergraduate Mentoring Program Certificate of Achievement for developing professionalism, enhancing career goals, and acquiring supply chain industry knowledge from RBS Alumni mentor.
- Awarded Dean's List for maintaining over a 3.5 GPA at Rutgers University.
