SUMMARY

Supply Chain Professional with 3 years of experience in inventory optimization, analytics, purchasing, vendor management, and KPI reporting across logistics, manufacturing, and distribution sectors. Proven ability to reduce costs, shorten fulfillment cycles, and improve operational efficiency through data-driven analysis and cross-functional collaboration.

EDUCATION

Master's in Global Management ARIZONA STATE UNIVERSITY, ARIZONA, USA	May 2025 GPA: 3.74
Bachelor of Technology – Computer Engineering VISHWAKARMA INSTITUTE OF INFORMATION TECHNOLOGY, INDIA	May 2021 GPA: 3.84

WORK EXPERIENCE

Supply Chain Management Intern, Informd, CA, USA	May 2024 - Present
- Deployed Tableau dashboards to track KPIs, monitor compliance trends, and identify improvement opportunities. - Performed ad hoc analysis to support planning, forecasting accuracy, and supplier service-level performance. - Analyzed datasets to identify inefficiencies and cost-saving opportunities, cutting operational waste by 12%.	
Operations Consultant (Capstone), Jane Goodall Institute, Washington DC, USA	Oct 2024 - Dec 2024
- Generated reports on market trends and competitor pricing to inform strategic decision-making, resulting in a 25% boost in market adoption and optimized supply chain alignment with customer demand. - Analyzed product lifecycle assortment to match consumer trends and drive improvement in customer satisfaction.	
Event Logistics Coordinator, Arizona State University, Tempe, AZ, USA	Feb 2024 - Jun 2024
- Maintained 99% audit readiness for consumable inventory by enforcing strict protocols and vendor safety compliance. - Liaised with vendors to synchronize delivery window schedules to ensure zero delays and prevent stockouts.	
Operations Manager, Chahapani Pvt. Ltd., Pune, India	Jun 2022- July 2023
- Optimized distribution strategies for a 240-location network, driving \$1.5M revenue using data-driven product allocation. - Ensured system data accuracy for a catalog of 100+ SKUs by implementing rigorous variance analysis, term-set audits, and automated integrity protocols. - Collaborated with suppliers to resolve root causes of recurring logistical issues, improving on-time delivery rates.	
Supply Chain Associate, Linkusol Technologies, Pvt. Ltd., Pune, India	Jan 2022 - May 2022
- Led root-cause analysis on client complaints regarding product availability, implementing corrective actions to restore service levels, and maintaining 95% customer satisfaction. - Conducted monthly variance analysis against demand forecasts, identifying root causes for volume deviations to improve future planning accuracy. - Established Standard Operating Procedures (SOPs) for field operations, utilizing the new tech stack to automate "check-call" updates and increase fleet visibility.	
Data Analyst, ICMG Pvt. Ltd., Pune, India.	Jun 2021 - Dec 2021
- Owned product vision and led Agile backlog grooming to align roadmap with user feedback and business goals, increasing cross-team alignment by 20%. - Managed end-to-end product lifecycle, executing GTM strategies—including pricing, promotion, and sales enablement—resulting in a boost in customer retention. - Monitored KPIs and iterated features based on behavioral insights from SQL analysis, increasing user engagement.	
Business Analyst, HWT Global Pvt. Ltd., Pune, India.	Jan 2021 – May 2021
- Streamlined statistical analysis of 35k+ entries, presenting findings to Senior Analysts using Power BI dashboards, enhancing data-driven decision-making. - Audited HR data and resolved irregularities using advanced Python visualization, achieving 95% accuracy and ensuring data integrity.	

SKILLS

Core Competencies: Variance Analysis, Distribution Operations, Route Optimization, Lean/5S, Continuous Improvement, Vendor Management, Regulatory Compliance, Risk Mitigation

Technical Skills: Demand Forecast, Data Analysis, Process Automation, Cost Optimization, Root Cause Analysis, SOP Development, Data Integrity.

Software Technologies: WMS (Warehouse Management Systems), TMS (Transportation Management Systems), ERP (SAP), Salesforce, Tableau, Excel (Advanced), JIRA, Asana, Miro, Google Workspace, MS Office Suite
