

Ishmael Holden

Philadelphia, PA - Email: holdenig21@gmail.com M: 202-808-4137

PROFESSIONAL SUMMARY

Analytical and technically skilled Data & MIS Analyst with 7+ years of experience in financial modeling, and data reporting in the financial services and banking sectors. Proven track record of developing automated reporting pipelines, enhancing data integrity, and driving decision-making for executive teams. Advanced proficiency in SAS, SQL, R Studio, and enterprise data warehouse (EDW) systems, with leadership experience in cross-functional project delivery.

TECHNICAL SKILLS

SQL | SAS | R Studio | Latex | MatLab | Power BI | Azure

PROFESSIONAL EXPERIENCE

Meridian Bank - Malvern, PA

April 2025 – Present

Senior Analyst – Management Information Systems

- Design and implement BI reporting solutions and data models, leveraging SQL, ETL processes, and visualization tools to support analytics, forecasting, and regulatory reporting needs
- Collaborate closely with data engineering and finance teams to build and validate EDW (Enterprise Data Warehouse) tables and deliver targeted reporting solutions that help senior management assess borrower risk and guide more informed, strategic credit decisions
- Develop and maintain data pipelines and dashboards for performance monitoring and decision support, while ensuring alignment with SOX compliance and data governance standards
- Identify and resolve data quality and reconciliation issues within the data warehouse environment, supporting the bank's migration strategy to cloud infrastructure
- Cross-functional position with business stakeholders to define reporting requirements, designing and deploying automated business intelligence solutions using SQL and cloud-based tools to replace manual processes and enhance reporting efficiency

Navient, Remote - Wilmington, DE

July 2018 – March 2025

Loan Performance Modeling & Research Analyst

March 2022 – March 2025

- Spearhead the development of monthly and quarterly reports using SAS and SQL, delivering critical insights that empower data-driven business decisions and improve outcomes for executive committees
- Successfully onboard two new Credit Risk analysts at Navient expediting their proficiency in technical job functions and enhancing their ability to interpret loan modeling performance
- Recognized as primary point of contact within the Critical Accounting Assumptions (CAA) & Credit Risk Management (CRM) teams, delivering expert interpretation on all five-model mechanics and their impact on 9-figure Private and FFELP loan portfolios on a quarterly basis
- Create and maintain ad-hoc validations using SQL to ensure model accuracy and soundness, successfully mitigating percentage variances to under 1% for model outstanding principal balances
- Maintain comprehensive technical documentation, serving as a guide for team members to execute model processes autonomously and independently

Loan Performance Modeling & Research Specialist

July 2018 - March 2022

- Ensured accuracy in quarterly results for Critical Accounting models, facilitating Accounting's application of appropriate accruals and assumptions
- Assisted in code conversion from Netezza to Hadoop environment in Q1 2019, significantly increasing model efficiency and reducing production time by roughly 40%
- Identified warnings or errors in production model logs before validation finalization, investigating and developing solutions without altering model mechanics

Virginia Commonwealth University - Richmond, VA

August 2017 - December 2017

Graph Theory Research Intern

- Coded in Python and R to generate and analyze geometric shape sequences on graphs, enhancing research accuracy for professors
- Collaborated with published mathematicians to understand graph theory and solve open conjectures, contributing to academic publications

PROFESSIONAL AFFILIATIONS & ACHIEVEMENTS

Philadelphia Real Estate Investors Association

Jan 2021 – Present

IBM Data Science Professional Certificate

September 2025

Virginia Tech Regional Math Contest

Spring 2015

Top qualifying participant in the Spring Semester Virginia Tech Regional Math Competition

EDUCATION

Virginia Commonwealth University, Richmond, VA

May 2018

Bachelor of Science, Applied Mathematics
