Professional Summary

Customer-focused Data Analyst with 3+ years of experience in data support, analysis, and client relationship management within financial services. Proven expertise in troubleshooting data inquiries, delivering exceptional customer service, and collaborating across teams to resolve complex data issues. Strong background in data analysis, ETL processes, and financial markets with hands-on experience in SQL, Python, and data visualization tools. Demonstrated ability to build client relationships, lead projects independently, and adapt quickly in fast-paced, dynamic environments.

Technical Skills

Data Analysis: SQL, Python, Excel (Advanced), QlikSense, Power BI, Tableau

Databases: PostgreSQL, MySQL, Oracle, SQL Server, Snowflake, Amazon Redshift, Google BigQuery

Business Tools: Microsoft Office Suite, Google Drive, Help Desk Systems, CRM Tools, Data Quality Frameworks

Cloud Platforms: AWS (S3, Glue, Redshift, Lambda, Athena, RDS), Azure (Data Factory, Synapse), GCP (BigQuery)

ETL/Data Processing: Apache Airflow, AWS Glue, PySpark, Pandas, NumPy, Apache Kafka, dbt

Domain Knowledge: Financial Markets, Equity & Fixed Income Data, Data Governance, Data Pipeline Architecture

Experience

Data Analyst & Client Support Specialist

Aug 2022 – Dec 2023

Cognizant Technology Solutions – Client: ESHC-NPE (Express Scripts)

- Served as frontline data support analyst for healthcare clients, addressing 30+ complex data inquiries daily through help desk system, achieving 95% customer satisfaction rating and consistently exceeding client expectations.
- Collaborated with cross-functional teams including Data Engineering, Product, and Analytics teams to resolve escalated data quality issues, reducing resolution time by 40% through improved communication workflows.
- Conducted detailed data analysis using SQL and Python to investigate client-reported discrepancies in healthcare transaction data, identifying root causes and implementing automated data quality checks that reduced recurring issues by 35%.
- Built and maintained client relationships with both internal stakeholders and external enterprise customers, providing education on data products and best practices through documentation and training sessions.
- Optimized SQL queries for client reporting needs, reducing query execution times by 60% and improving data retrieval efficiency by 40%, directly enhancing customer operational performance.
- Led project initiatives to improve help desk workflows and customer service procedures, implementing new documentation standards and training materials that improved team efficiency by 25%.
- Utilized data visualization tools (Tableau, QlikSense) to create client-facing dashboards and reports, enabling stakeholders to make data-driven business decisions.

Associate Data Analyst

Jan 2021 – Jul 2022

Cognizant Technology Solutions

- Provided data support and troubleshooting for internal teams, responding to data quality inquiries and conducting root cause analysis on data pipeline issues using SQL and Python.
- Developed comprehensive documentation and training materials for data products, improving team knowledge and reducing onboarding time for new analysts by 30%.
- Performed detailed data analysis to support business intelligence initiatives, creating parameterized SQL queries for complex data transformations in PostgreSQL and Oracle databases.
- Collaborated with Data Engineering teams to validate data quality and support ETL pipeline development, ensuring accurate and timely data delivery to downstream systems.
- Maintained strong attention to detail in data analysis tasks, identifying anomalies and inconsistencies that improved overall data integrity by 20%.

Education

University of Central Missouri

Jan 2024 – Dec 2025

Master's in Computer Science and Engineering

- *Relevant Coursework:* Advanced Analysis of Algorithms, Advanced AI, NLP, Programming Languages

KL University, Guntur

Jul 2018 – May 2022

Bachelor of Technology in Computer Science

- *Relevant Coursework:* Data Structures, Algorithms, Operating Systems, Database Management Systems, Computer Networks, Software Engineering

Certifications

AWS Certified Cloud Practitioner – Amazon Web Services

Data Warehousing for Business Intelligence Specialization – University of Colorado System

Tableau Certified Data Analyst – University of California, Davis (Data Visualization)

IBM Data Science Specialization

Statistics with Python – University of Michigan

Mathematics for Data Science – HSE University (Linear Algebra, Statistics, Probability, Calculus)

ServiceNow Certified System Administrator (CSA)

ServiceNow Certified Application Developer (CAD)

Key Qualifications

Customer Service Excellence: 3+ years providing exceptional support to both internal and external clients in data-intensive environments

Financial Markets Knowledge: Strong understanding of financial data including equity, fixed income, and multi-asset class data through coursework and self-study

Problem-Solving & Analysis: Proven ability to conduct root cause analysis, identify data anomalies, and implement strategic solutions

Project Leadership: Successfully led multiple initiatives to improve workflows, documentation, and customer service procedures

Multi-tasking & Adaptability: Thrive in fast-paced, dynamic environments with frequently changing priorities and high-pressure situations

Technology-Driven: Passionate about leveraging technology for data analysis, process automation, and customer service optimization
