New York, NY • (347)-738-8923 • ramisha.c69@gmail.com • LinkedIn: [ramisha-chowdhury-tech](#) • GitHub: [rc0609](#)

## EDUCATION

Hunter College – New York, NY

August 2020 - December 2024

### Bachelor of Arts in Computer Science

Relevant coursework: Practical Web Development, Software Design and Analysis, Operating System, Discrete Structures, Computer Architecture, Digital Image Processing

Honors and Awards: Dean's List (Spring 2022, Fall 2024)

## SKILLS & CERTIFICATIONS

- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, React, Figma, Responsive Design
- **Backend:** Node.js, Express.js, SQL, PostgreSQL, RESTful APIs
- **Authentication & Authorization:** Firebase Authentication
- **Cloud & DevOps:** Firebase, AWS (foundational knowledge), API integration
- **Languages:** Python, C++, Object-Oriented Programming (OOP), Data Structures & Algorithms
- **Tools:** Git, GitHub, Postman, Agile Methodology, Adobe Creative Suite
- **Certifications:** CodePath Intro to Cybersecurity (2024), CodePath Intermediate Technical Interview Prep (2025)

## EXPERIENCE & PROJECTS

Tutor.com - High-Dosage Algebra Tutor | Remote

January 2026 – Present

- **Guided 2–4 students per session** through structured algebra workflows, using **step-by-step problem-solving** to improve comprehension and accuracy
- Maintained **100% completion** of required digital session reports, ensuring consistent **data tracking, documentation quality**, and program compliance
- Collaborated with program coordinators to resolve session issues and align on instructional goals, contributing to a **95%+ on-time session delivery rate** across assigned groups

Mooday - Frontend Developer / Fullstack Developer (In Progress) | Solo Project

- Developing a mood journaling and emotional insight web app to help users track and reflect on their well-being through interactive visualizations
- Designed and implemented a responsive landing page using React and Tailwind CSS, including dark mode support, smooth hover animations, and theme transitions
- Built and maintained 10+ reusable UI components, improving navigation consistency, accessibility, and overall usability

BrewMatch - Frontend Developer | Team of 4

GitHub | [View Project](#)

- Built aesthetic, user-friendly interfaces with **HTML, CSS, and JavaScript**, improving navigation and visual consistency
- Utilized **Figma** for prototyping and collaborated via **Git** for version control, reflecting **Agile** teamwork practices
- Conducted usability testing to enhance UI/UX and ensured cross-browser compatibility and optimized performance

Pokemon Type Calculator - Backend Developer | Team of 5

GitHub | [View Project](#)

- Developed an **Express.js API integration** with PokeAPI to calculate type effectiveness for Pokémon
- Leveraged **JavaScript Sets** to remove redundancy, boosting calculation accuracy and performance
- Delivered real-time results enabling players to analyze strengths and weaknesses efficiently

## LEADERSHIP & AFFILIATIONS

[CodePath](#) | Community Member | Remote

February 2024 – Present

- Collaborated in coding challenges and mock interviews, building proficiency in **cybersecurity** and technical **problem-solving**
