

Lalitha Sri Marni

Data Engineer

Dallas, TX (Remote) — lalithamarni03@gmail.com — (314) 265-5273 — LinkedIn

Summary

Cloud focused Data Scientist and ML Engineer with **6+ years** of experience owning end-to-end data pipelines, analytics platforms, and machine learning workflows across financial services and healthcare. Proven track record delivering **100M+ record pipelines**, supporting **40M+ annual claims**, and enabling **ML and GenAI use cases** through feature engineering, statistical modeling, and governed cloud data platforms (Azure, AWS, GCP). Strong in Python, SQL, Spark, and production analytics at enterprise scale.

Technical Skills

- **Programming:** Python, SQL (advanced), PySpark, Java, C++
- **Cloud & Big Data:** Azure (ADF, Databricks, ADLS), AWS (Glue, EMR, S3), GCP (BigQuery, Dataproc), Spark, Hadoop ecosystem
- **Data Engineering:** ETL/ELT, batch & streaming pipelines, schema evolution, partitioning, data validation, data quality frameworks
- **Data Science & ML:** EDA, feature engineering, regression, classification, anomaly detection, time series, model evaluation
- **GenAI Enablement:** RAG data preparation, embeddings datasets, unstructured data processing, ML-ready feature pipelines
- **Analytics & BI:** Power BI, Microsoft Fabric, DAX, semantic modeling, SQL-based reporting
- **Data Formats:** Parquet, Avro, ORC, JSON, CSV

Experience

Discover Financial Services — GenAI Data Scientist

Dallas, TX (Remote)

Sep 2024 – Present

- Owned and scaled cloud data pipelines processing **100M+ records/month** across **10+ sources**, supporting compliance, analytics, and ML workloads.
- Produced **30+ feature-ready datasets** and executed statistical analysis improving model training efficiency by **30%**.
- Delivered **10+ executive dashboards** and semantic models consumed by **50+ stakeholders**, reducing manual reporting by **40%**.
- Standardized data quality checks (nulls, duplicates, schema drift), reducing downstream data issues by **35%**.
- Partnered with **3+ cross-functional teams** to operationalize ML and GenAI workflows, cutting data latency by **45%**.

Optum — Data Scientist

Dallas, TX (Remote)

Jul 2023 – Sep 2024

- Built and evaluated **6+ ML models** on **40M+ annual claims**, improving fraud signal precision by **15%**.
- Engineered Spark-based ETL pipelines processing **2TB+ data/day**, reducing runtime by **35%**.
- Performed EDA and feature engineering on **100+ variables** supporting **5+ healthcare analytics initiatives**.
- Automated model input validation and monitoring, improving model stability by **20%**.

HP GlobalSoft Pvt. Ltd. — Data Engineer

Hyderabad, India

Nov 2020 – Jul 2022

- Developed **15+ enterprise datasets** integrating **10+ systems**, supporting KPI and operational reporting.
- Built **12+ Power BI dashboards** adopted by leadership, reducing manual reporting effort by **50%**.
- Optimized **30+ SQL queries**, improving dashboard performance by **30%**.

Seagate Technology — ML Engineer

Hyderabad, India

Jun 2019 – Oct 2020

- Built ML-ready pipelines processing **5M+ telemetry records/day** for predictive maintenance analytics.
- Applied statistical and ML techniques improving early failure detection by **20%**.

Certifications

- IBM Data Scientist
- IBM Generative AI Engineer
- AWS Certified Solutions Architect
- AWS Certified Data Engineer
- AWS Certified Machine Learning Engineer – Associate
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Azure AI Engineer Associate (AI-102)

Education

Master of Public Health (Statistics & Epidemiology), Saint Louis University

Doctor of Pharmacy (Pharm.D.), Andhra University
