Summary

Results-driven software engineer and data scientist with experience building scalable web platforms, deploying machine learning models, and translating complex data into actionable insights. Skilled in Python, SQL, and Java, with hands-on experience in REST APIs, Docker, and cloud technologies (AWS, GCP, Azure). Adept at end-to-end delivery from data preparation and integration to web development, automation, and analytics — with a focus on clarity, usability, and measurable impact.

Technical Skills

Programming Languages: Python, Java, C++, SQL, R, JavaScript, Bash

Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, PyTorch, Matplotlib, Seaborn, StatsModels

Data Analytics & Visualization: Tableau, Power BI, Excel (Pivot Tables, VBA), SQL (MySQL, PostgreSQL), Google BigQuery, Snowflake

Software Engineering & Web: HTML, CSS, JavaScript, React, Node.js, REST APIs, JSON, Git, Docker, CI/CD

Cloud & Tools: AWS (EC2, S3, Lambda), Google Cloud (BigQuery, AI Platform), Azure Machine Learning, TerminalFour CMS, Linux, Jupyter

Work Experience

IT Policy & Planning Analyst I (Data Management & Analysis) – CTSI, Gainesville, FL

UF College of Medicine

Dec 2025 – Present

- Manage and validate institutional datasets supporting NIH training grants, compliance reporting, and program evaluation across CTSI programs.
- Translate policy and reporting requirements into structured data workflows, ensuring accuracy, consistency, and audit readiness.
- Analyze trainee, faculty, and program-level data to support planning decisions, funding justifications, and operational improvements.
- Collaborate with faculty, program leadership, and administrators to resolve data quality issues and deliver timely, reliable reports.

Web Operations Lead – UF/IFAS Extension, ABI

Gainesville, FL

Jul 2025 – Dec 2025

- Lead digital engagement across 34 UF/IFAS county sites; ensure WCAG 2.1 AA compliance and consistent UF branding.
- Build and maintain front-end templates with HTML, CSS, and JavaScript in TerminalFour CMS.
- Write and edit web and media content translating AI/data projects for public audiences.
- Automate reports with Python scripts to monitor accessibility, uptime, and SEO metrics.
- Use Siteimprove and Google Search Console to track engagement and guide improvements.

Data Scientist & ML Engineer – UF College of Pharmacy

Gainesville, FL

Apr 2024 – Jul 2025

- Developed predictive models on healthcare data; improved accuracy by 15%.
- Automated reporting dashboards using Python, SQL, and Tableau; reduced manual workload by 90%.
- Partnered with researchers to validate models and optimize experimental workflows.
- Utilized **TensorFlow**, **Scikit-learn**, and **Pandas** for data preprocessing, model training, and performance optimization.

IT Support Specialist – UF/IFAS Environmental Horticulture

Gainesville, FL

Mar 2023 – Apr 2024

- Automated server and database maintenance, cutting downtime and manual tasks by 35%.
- Consolidated scripts to streamline data workflows and reduce processing time by 50%.

Operations & Communications Lead – Amity Youth Fest

Noida, India

Aug 2022 – May 2023

- Managed communications and logistics for a 10,000+ attendee cultural and technology festival.
- Supervised a 200-member team; led outreach, media planning, and sponsor coordination.
- Produced promotional content, video scripts, and press materials to enhance visibility.

- Director – All India Computer Science Society (AICSSYC)** Noida, India
Jun 2021 – May 2023
- Directed an 800+ member organization promoting collaboration and innovation in computing.
 - Organized national hackathons, workshops, and academic-industry initiatives in AI and data science.
- Web Developer Intern – Inshorts** Delhi, India
Aug 2022 – Dec 2022
- Built responsive UI components (HTML, CSS, JS); improved page performance by 25%.
 - Integrated REST APIs for automated newsfeeds; reduced manual publishing by 35%.
- Data Science Intern – Remark Skill Education** Delhi, India
May 2022 – Jul 2022
- Developed CNN models for facial emotion recognition; achieved 90%+ validation accuracy.
 - Enhanced datasets and hyperparameter tuning, reducing overfitting by 20%.
- Computer Science Teacher – Muslim High School** Bhagalpur, India
Mar 2021 – Sep 2021
- Taught 60+ students computer science fundamentals including OOP (C++), web design, and networking.
 - Designed project-based assignments to improve logic and applied programming skills.

Projects

- Gator Taxi – Advanced Ride Allocation System** Python, Data Structures & Algorithms
- Applied Min-Heap and Red-Black Tree scheduling, accelerating allocation by 40% and reducing driver idle time.
- Inventory Management Web Application** Python (Flask), HTML/CSS, SQL
- Built a full-stack inventory and sales app with REST APIs, authentication, and real-time dashboards; 1,000+ test transactions per day.
 - Released on AWS with CI/CD, shrinking deployment time from hours to under 10 minutes.
- Financial Data Analytics Dashboard** Python, Pandas, Tableau
- Developed an interactive dashboard to analyze stock and cryptocurrency market trends using real-time APIs, cutting manual analysis time by 60%.
 - Enabled risk and return visualizations that improved investment decision-making accuracy for test users by 20%.
- Machine Learning for Healthcare Analytics** Python, SQL, Tableau
- Delivered ML workflows for 10M+ records; 92% accuracy and actionable insights.
 - Refined models (cleaning, feature engineering, optimization), +15% accuracy and -25% noise.
- Face & Text Recognition System** Java, NLP, OCR
- Engineered an OCR and NLP pipeline that achieved 98% text extraction accuracy, enabling reliable document digitization.
 - Integrated facial recognition with text parsing modules to support identity verification use cases and multi-modal data analysis.

Education

- University of Florida, USA** Aug 2023 – Dec 2025
- M.S. in Computer Science (GPA: 3.83/4.0)
- Coursework: Machine Learning, Advanced Machine Learning, Advanced Data Structures, Data Science, Database Management Systems
- Amity University, Noida (India)** Jul 2019 – Jun 2023
- B.S. in Information Technology (GPA: 3.2/4.0)

Certifications

- AWS Certified Cloud Practitioner
- Python Certification — HackerRank
- Advanced C++ — Simplilearn
- Java Completion — Simplilearn
- Google Data Analytics Professional Certificate — Coursera
- IBM Machine Learning Professional Certificate — Coursera
- Microsoft Certified: Azure Data Scientist Associate
- TensorFlow Developer Certificate — TensorFlow
