

Surya Sagar Uriti

Supply Chain Analyst

(832) 630 1622 |

surya1291@careerattainment.com | Houston, TX 77025 | [LinkedIn](#)

SUMMARY

Supply Chain Analyst with 3+ years of hands-on experience in demand planning, inventory management, and end-to-end supply chain analytics across procurement, logistics, and fulfillment networks. Specializes in translating operational data into actionable insights through forecasting, scenario analysis, and cost-to-serve evaluation to improve service levels and working capital. Supports S&OP cycles, supplier performance tracking, and risk assessments while collaborating with cross-functional stakeholders to streamline processes, ensure compliance, and strengthen supply chain resilience.

WORK EXPERIENCE

Lumen Technologies, USA

Sep 2025 – Current

Supply Chain Analyst

- Analyzed and monitored supply chain performance metrics, identifying areas of improvement, and implementing strategies that resulted in a 10% reduction in overall supply chain costs.
- Engineered SAP S/4HANA-integrated spend analytics dashboard using Python (Pandas) and Tableau, performing ABC/XYZ inventory classification across 5K+ SKUs, identifying \$2.1M strategic sourcing opportunities for telecom hardware procurement.
- Implemented demand forecasting model using ARIMA/XGBoost in Jupyter notebooks integrated with Oracle ERP data via SQL, improving fill rate from 82% to 96% across 200+ network equipment categories while reducing excess inventory by 28%.
- Enhanced decision-making by 25% through the creation of interactive dashboards using advanced Excel, and Tableau, providing comprehensive visibility into the supply chain process.
- Developed custom Tableau dashboards to visualize complex supply chain data, enabling real-time monitoring of KPIs such as inventory turnover, lead times, and fill rates, resulting in a 30% faster anomaly detection and resolution.
- Collaborated closely with procurement, logistics, and sales teams to identify and address 5 potential supply chain disruptions, strengthened order fulfillment accuracy by 80%, and increased customer satisfaction by 90%.

TCS, India

Jan 2021 – Dec 2023

Supply Chain Analyst

- Enhanced supply chain efficiency by 15% by identifying and resolving supply chain challenges, ensuring timely delivery of goods and services, and providing valuable insights to the VP of Supply Chain.
- Developed and maintained automated dashboards in Power BI and Excel that monitored KPIs such as fill rate, order cycle time, and inventory turnover, enabling real-time decision-making and cutting weekly reporting time by 75%.
- Streamlined data analysis efficiency by 30% through optimized SQL queries and data mining techniques, enabling faster report generation and supporting decision-making.
- Identified and implemented cost-saving initiatives, leading to a \$100,000 annual reduction in procurement costs through supplier negotiation and contract optimization.
- Conducted in-depth financial analysis to identify trends, risks, and opportunities, contributing to a 30% increase in profit margin through the implementation of cost-saving measures.
- Collaborated with cross-functional teams (sales, operations, procurement) to align supply and demand plans, reducing stockouts by 25% and overstocking by 20%.
- Accelerated decision-making by 18% by leveraging interactive dashboards in Microsoft Excel and Power BI, powered by VBA and Macro, to provide real-time visibility into supply chain metrics and support efficient inventory allocation and order fulfillment.
- Monitored supplier performance using KPIs such as on-time delivery and defect rates, implementing a scorecard system that increased supplier compliance by 35% within 6 months.
- Reduced supply chain disruptions by 15% by leveraging Minitab's hypothesis testing to identify and address supplier performance issues, resulting in a shift to a more reliable supplier and improved on-time delivery rates.

SKILLS

Scripting Languages:	Python, SQL
Supply Chain Tools:	SAP ERP (MM, PP, IBP), SAP HANA, Ariba, Power BI, Tableau, Excel (VBA, Pivot Tables, VLOOKUP), MS Visio, Lucid chart
Inventory & Demand Planning:	Forecasting, EOQ, Safety Stock, JIT, S&OP
Process Optimization:	Value Stream Mapping, Root Cause Analysis (5-Why, Fishbone)
Analytics & Reporting:	KPI Management, Hypothesis Testing, ABC/XYZ Analysis, Cycle Time Analysis, A/B testing
Risk & Failure Analysis:	Failure Mode and Effects Analysis (DFMEA, PFMEA)
Databases:	SQL Server, MySQL, SSMS, Oracle
Managerial Skills:	Project Management, Demand Forecasting, Inventory Management, Procurement & Supplier Management, Risk Control Management, Continuous Process Improvement, Warehouse & Supply Chain Optimization

EDUCATION

Masters in Management Information Systems | University of Houston, Houston, TX

Dec 2025
