PROFESSIONAL SUMMARY

Data Analyst Specialist skilled in data management, results analysis, and process automation. Engineered API integrations and interactive dashboards to streamline workflows and provide actionable insights for stakeholders. Recognized for strategic problem solving in optimizing inventory and operational processes, seeking to support media planning and enterprise solution development.

TECHNICAL SKILLS

- **Automation & Integration:** N8N, Flatfile, Nucleus, Zapier, Monday.com automations, X lookup
- **ERP & Process Modeling:** SAP Signavio, SAP Implementation
- **Cybersecurity & Support:** NIST Framework, CIA Triad, Jira Helpdesk, Zendesk, Okta
- **Data Analysis & Databases:** SQL, Python, R-Studio, Supabase, Databricks, Excel
- **Visualization:** Domo, Power BI, Tableau
- **Full-Stack Development:** JavaScript, React.js, Node.js, Flask, HTML/CSS, Java, Git/GitHub
- **Cloud & Operations:** AWS, JIRA Service Management, ServiceNow, Agile/Scrum Methodologies (CSM I Certified)

PROFESSIONAL EXPERIENCE

CADY | *Data Analyst Specialist*

Aug 2025 - Present

- Achieved a turnaround time of 5 days per 100 files, exceeding departmental standards for data onboarding and fulfillment speed by using Excel, Node.js, and AI scripts to drive data-driven strategic insights through agile workflow management
- Engineered N8N API integrations with Node.js to automate data flow between platforms, ensuring robust data management and reducing human error
- Architected a contract-to-database pipeline, performing high-accuracy data entry for contracts and updating them based on shipping logistics, product line variables, discount rates, and school profiles.
- Developed 3 usable Domo dashboards, providing stakeholders with real-time visibility into inventory KPIs, supporting strategic decision-making
- Implemented Flatfile workflows to validate incoming datasets with meticulous attention to detail, ensuring 100% data integrity before ingestion into the system

University of Georgia CyberArch Program | *IT Analyst*

Jan 2024 - Dec 2024

- Built a Helpdesk in Jira with automated Q&A responses, cutting resolution time by 30% and ensuring more reliable service for users.
- Applied the NIST Cybersecurity Framework and CIA Triad, strengthening system reliability and securing sensitive infrastructure
- Managed project workflows in Jira, coordinating technical and operational teams while ensuring detailed documentation and organizational efficiency

Aflac | *Sales Team Lead*

Jan 2023 - Feb 2024

- Analyzed customer data with R and Python to pinpoint product gaps and recommend targeted media strategies and coverage mixes for clients
- Managed client requirements gathering, facilitating strategic communication and maintaining detailed case documentation for compliance and underwriting

American Freight Appliances & Furniture | *Sales Manager (Promoted from Sales Associate)*

Jan 2022 - Jun 2023

- Promoted to Sales Manager after demonstrating exceptional technical initiative and inventory mastery.
- Managed inventory integrity by tracking SKUs and sizes in SAP and visualizing data in Domo; maintained technical knowledge of oven BTUs, sheet thread counts, and backorder counts, which improved replenishment speed and reduced out-of-stock incidents
- Proactively wrote SQL queries to track store inventory, identifying stock discrepancies and optimizing stock-to-floor ratios.

PROJECTS

Advisory Externship | *PwC (PriceWaterhouseCoopers)*

May 2025 - Jul 2025

- Created 3 interactive Power BI visualizations to translate complex data into product strategy insights for stakeholders.
- Presented information and strategy in a 4-minute pitch to a client organization.

Market Data Analysis | *Goldman Sachs Virtual Insight Program*

May 2025 - May 2025

- Completed market analysis simulation using R-Studio to model financial data and present findings to diverse audiences.

1st Place Case Competition Winner (SAP Implementation) | *EY (Ernst & Young)*

Jan 2025 - Apr 2025

- Achieved 1st place finish (out of 20+ teams) in a semester-long SAP implementation case study focused on process optimization and ROI.

Strategy Analyst | *Boston Consulting Group (BCG) Launch Program*

Jan 2024 - Mar 2024

- Developed go-to-market strategies for emerging technologies, focusing on market entry and competitive landscape research.

SMIS (Society of Management Information Systems) Chatbot | *University of Georgia*

- Built a Full stack React/Typescript chatbot using NLP and Supabase for real-time data management.
- The data fed to the chatbot was translated into 4 languages and is still widely used by the organization

Beats by Dre Externship | *Beats by Dre*

- Built a BI dashboard prototype for consumer trend analysis using Intermediate SQL and Excel.

EDUCATION

University of Georgia

May 2020 - Jul 2025

BBA, BA, MIS, International Affairs (GPA: 3.80)

- **Achievements:** Cum Laude, Dean's List, 3rd Place Hackathon, Lean-Six Sigma Yellow Belt, CITI Social and Behavioral Research Certified
- **Coursework:** Utilized SAP Signavio for business process modeling to identify and mitigate operational bottlenecks in the supply chain.
