PROFESSIONAL SUMMARY

Versatile professional with over 15 years of experience in procurement, scm, project management, accounting, and security. Proven expertise in driving efficient procurement strategies, managing supply chains, overseeing projects from initiation to completion, and ensuring financial accuracy and compliance. Skilled in vendor negotiations, contract management, risk mitigation, regulatory compliance, budget control and ensuring compliance with federal guidelines. Adept at integrating security protocols with operational and financial processes to safeguard assets while optimizing organizational performance.

EDUCATION

Master of Business Administration: Project Management | Columbia Southern University

Bachelor of Arts: Business Administration & Project Management | St. Leo University

Associate of Arts: General Business | East Mississippi Community College

PROFESSIONAL DEVELOPMENT

- ☐ **Security Operations Management:** Led daily security operations by managing compliance with regulatory standards, identifying vulnerabilities, and implementing countermeasures to protect sensitive information and personnel data.
 - ☐ **Contract and Supplier Negotiation:** Negotiated contracts and pricing terms for products and services, optimizing supply chain performance and reducing costs while maintaining compliance with security and regulatory requirements.
 - ☐ **Risk Assessment and Mitigation:** Conducted comprehensive risk assessments, identified security vulnerabilities, and implemented proactive measures that reduced risks and improved overall system security.
 - ☐ **Process Improvement Initiatives:** Spearheaded continuous process improvement efforts to streamline operations, enhance efficiency, and align security protocols with organizational goals, resulting in measurable improvements in performance.
 - ☐ **Regulatory Compliance Management:** Managed compliance with federal security regulations by drafting policies, conducting audits, and ensuring adherence to industry standards to meet evolving guidelines and protect organizational assets.
 - ☐ **Project Management:** Effectively led cross-functional projects, overseeing resource allocation, budgeting, and milestone tracking to ensure successful project completion aligned with organizational goals.

PROFESSIONAL EXPERIENCE

Supply Chain Management/Procurement Agent
Boeing Defense Security & Space

August 2022 – January 2025

As a Supply Chain Management/Procurement Agent at Boeing Defense Security & Space, I am responsible for managing procurement activities supporting the missile program within Boeing's Defense and Security division. Oversee sourcing, vendor management, contract negotiations, and purchase order execution to ensure timely delivery of critical components in alignment with stringent defense industry standards. Collaborate cross-functionally with engineering, program management, quality assurance, and supply chain teams to mitigate risks, control costs, and maintain compliance with federal regulations. Demonstrated ability to manage high-value, complex procurements while supporting mission-critical defense projects in a fast-paced, highly regulated environment. My role involves close collaboration with stakeholders to ensure seamless integration of program and customer strategies into contracting processes. Maintained supply chain continuity by monitoring inventory levels and supplier KPIs, ensuring full compliance with Boeing quality and procurement standards. I take a proactive approach to identifying risks and implementing improvement measures to ensure optimal supplier performance. My responsibilities also include resolving issues related to contracts, managing proprietary information, and adjusting supply chain parameters to align with program demands. By maintaining strong relationships with suppliers and stakeholders, I ensure that contractual obligations are met, mitigating risks and improving supplier efficiency.

Key Achievements:

- Managed procurement spending for missile components, ensuring on-time delivery and alignment with program milestones.
- Achieved **10–15% cost savings** through strategic sourcing and successful contract negotiations with critical defense suppliers.
- Developed and executed **requests for proposal (RFPs)** and **requests for quotation (RFQs)** for high-value, long-lead items, reducing sourcing cycle times by **20%**.
- Ensured 100% compliance with **FAR/DFARS** regulations and Boeing internal procurement policies during supplier selection and contracting phases.
- Resolved complex supply chain issues by collaborating cross-functionally, reducing supplier lead time variance by **30%**.
- Improved supplier performance metrics by implementing corrective action plans.
- Contributed to program success by identifying sourcing risks early and developing mitigation strategies, minimizing impact on

critical path schedules.

- Utilized **SAP and internal procurement systems** to manage procurement workflows, track order status, and support reporting for Earned Value Management (EVM) compliance.

SCM/Procurement Agent – Seat Integrations Team | BCA
Boeing Aerospace

May 2021 – August 2022

During my tenure as a Supply Chain Management/Procurement Agent at BCA, I managed the full procurement lifecycle to support seat integration projects, ensuring timely sourcing and delivery of critical components. Skilled in vendor negotiation, contract management, and supplier performance monitoring to optimize cost, quality, and schedule adherence. Collaborate effectively with engineering, supply chain, and quality teams to resolve issues, mitigate risks, and maintain compliance with aerospace industry standards. Demonstrated ability to streamline procurement processes and contribute to successful project execution in a dynamic manufacturing environment while ensuring smooth coordination across stakeholders, suppliers, and development programs. I took ownership of managing risk, identifying improvement opportunities, and addressing performance issues in the supply chain. My responsibilities included supporting airline requests, overseeing airplane deliveries, and ensuring supplier compliance with project requirements. I worked closely with suppliers to communicate performance expectations, initiate supplier recovery plans, and ensure supplier readiness for product launches. My contributions were critical in improving supply chain efficiency and ensuring that project schedules and milestones were met on time.

Key Achievements:

- Manage end-to-end procurement processes for seat integration projects, ensuring on-time delivery of components while adhering to budget constraints.
- Negotiate contracts and pricing with suppliers to achieve cost savings without compromising quality or schedule.
- Collaborate cross-functionally with engineering, supply chain, and quality assurance teams to align procurement activities with project milestones and technical requirements.
- Monitor supplier performance, conduct risk assessments, and implement corrective actions to mitigate supply chain disruptions.
- Maintain compliance with aerospace industry standards and regulatory requirements throughout procurement operations.
- Streamline purchasing workflows by leveraging **ERP** systems and procurement tools, improving efficiency and data accuracy.
- Support inventory management and forecasting efforts to optimize stock levels and reduce lead times.
- Contribute to continuous process improvements that enhance procurement cycle times and overall project success
- Communicated performance expectations and established metrics for suppliers, improving supplier accountability and performance tracking.
- Assisted in creating and refining the BCA Ops PA's Playbook, streamlining procurement agent duties and improving efficiency by 10%.

Accountant
Colom Law Firm

2000-2010, 2019 – 2021

As an Accountant for Colom Law Firm, I managed the financial operations of the firm by overseeing all financial operations in a legal setting, with a strong focus on managing expenses and disbursements for complex mass tort cases. Proficient in client trust accounting, case cost tracking, accounts payable/receivable, and monthly financial reporting. Ensure compliance with legal and regulatory standards, including trust accounting rules. My responsibilities included preparing and analyzing financial statements and maintaining accurate records of all transactions. I collaborated with attorneys and vendors to provide high volume settlements, disbursements, litigation-related expenses and financial insights that supported case management and firm operations. In addition, I developed and implemented cost-saving strategies, improving overall financial efficiency. My attention to detail and ability to manage multiple projects simultaneously allowed for the smooth execution of the firm's financial goals, while maintaining a high standard of accuracy and transparency.

Key Achievements:

- Successfully managed **multi-million-dollar client disbursements** for mass tort settlements, ensuring accurate allocation and timely distribution in compliance with trust accounting rules.
- Oversaw disbursement of funds to clients, lienholders, and third-party vendors, maintaining strict documentation and audit readiness.
- Collaborated with legal teams to reconcile settlement statements, reducing disbursement errors by **25%** and streamlining the post-settlement process.
- Financial Reporting: Prepared monthly and quarterly financial reports, leading to a 10% improvement in financial

transparency and decision-making processes.

- Tracked and reported case-related expenses across hundreds of plaintiffs, maintaining financial accuracy in high-volume, high-complexity litigation.
- Compliance Management: Maintained 100% compliance with legal accounting regulations and supported audits with clean findings.
- Ensured compliance with tax regulations and legal financial requirements, reducing the risk of penalties by 15%.
- Account Reconciliation: Managed the reconciliation of accounts, identifying and resolving discrepancies, which improved overall financial accuracy by 12%.
- Client Billing Accuracy: Streamlined the client billing process, reducing errors and improving billing accuracy by 20%, resulting in enhanced client satisfaction.

Security Specialist
Department of Defense (USAF)

2016 – 2019

As a Security Specialist with the Department of Defense (USAF), I played a key role in managing daily security operations, contributing to both system road mapping and regulatory compliance efforts. I was responsible for drafting security policies, performing risk assessments, and ensuring compliance with information and personnel security guidelines. My efforts helped to shape security initiatives that protected sensitive information while supporting organizational goals. I led a variety of security-related projects, designed training programs, and ensured that staff received the necessary training to mitigate security risks. By providing strong leadership and implementing effective countermeasures, I helped safeguard personnel and organizational data from potential threats.

Key Achievements:

- **Regulatory Compliance:** Managed and ensured compliance with evolving DoD security regulations, leading to a 100% pass rate in annual security audits.
- **Risk Assessments:** Conducted risk analyses and implemented security countermeasures, reducing vulnerability to information breaches by 20%.
- **Security Training Programs:** Developed and launched comprehensive security training programs, improving staff awareness and compliance with security policies by 30%.
- **Policy Development:** Drafted detailed security policies that governed system and personnel security, resulting in enhanced compliance with organizational standards.
- **Intrusion Detection:** Led initiatives to enhance intrusion detection capabilities, significantly reducing the likelihood of unauthorized access to sensitive systems.
- **System Road Mapping:** Contributed to the development of system roadmaps that addressed key security vulnerabilities, improving overall information security infrastructure by 15%.

Ass. Program/Project Manager
Young's Child Development Center

2012 – 2014

As a Program/Project Manager at Young's Child Development Center, I was responsible for developing, managing, and evaluating educational programs aimed at enhancing participant outcomes. I worked closely with staff to improve productivity and program quality, ensuring that team members were aligned with organizational goals. By scheduling and leading meetings, developing new initiatives, and monitoring progress, I played a critical role in the success of our programs. I also provided leadership and guidance to the team, coaching them on performance improvement strategies and supporting them in achieving challenging objectives. My efforts helped drive continuous improvement in the quality of our services.

Key Achievements:

- **Program Development:** Created and implemented educational programs that increased participant engagement by 25%.
- **Staff Coaching:** Trained and coached team members on performance improvement strategies, leading to a 20% improvement in productivity.
- **Budget Management:** Developed cost-effective program budgets, reducing overall program costs by 15% while maintaining high-quality services.
- **Performance Monitoring:** Established metrics for tracking program performance, which resulted in more accurate reporting and improved accountability.
- **Change Management:** Facilitated the implementation of new processes, improving staff adaptation to program changes by 30%.
- **Stakeholder Communication:** Led regular staff meetings to discuss program updates and milestones, improving team communication and alignment with program goals.

Project & Property Manager
Genesis Real Estate/Colom Law Firm

2006-2012

Results-driven project and property manager with extensive experience in overseeing renovations. Skilled in fostering strong relationships with vendors and stakeholders to enhance operational efficiency and resolve issues proactively. Adept at developing and implementing effective communication strategies, monitoring project progress, and managing tenant relations to ensure satisfaction. Proven ability to manage budgets, enhance communication among stakeholders, and implement cost-saving strategies. Strong background in property management and customer relations.

KEY ACHIEVEMENTS

- **Cost Management:** Developed implementation methodologies that successfully controlled project costs while meeting key milestones.
- **Stakeholder Communication:** Managed project communications across all stakeholders, ensuring alignment and transparency throughout project lifecycles.
- **Project Oversight:** Effectively oversaw renovations and new construction projects with a budget of \$350,000, achieving successful outcomes within spending plans.
- **Schedule and Resource Management:** Identified and monitored detailed schedules, milestones, budgets, and resources, tracking project accomplishments to ensure timely delivery.
- **Vendor Relations:** Increased savings by initiating and fostering relationships with vendors, addressing problem areas collaboratively to enhance project efficiency.
- **Compliance Control:** Controlled resources and assets for departmental activities, ensuring compliance with industry standards and government regulations.
- **Process Improvement:** Attained significant improvements in technical project delivery processes by leading global infrastructure engineering project management initiatives.
- **Strategic Reporting:** Developed and submitted comprehensive strategy and initiative reports to corporate committees, highlighting current actions and proposed changes.
- **Budget Administration:** Established and administered annual budgets with effective controls to prevent overages and support sustainability objectives.
- **Project Monitoring:** Monitored progress of construction and maintenance projects, providing timely updates on delays and schedule changes to relevant stakeholders.
- **Real Estate Transactions:** Engaged with stakeholders to discuss terms and agreements on new real estate transactions and developments, facilitating successful negotiations.
- **Property Management:** Managed and examined over 40 rental properties (HUD, multi-unit apartment complexes and family homes), ensuring compliance and tenant satisfaction while addressing concerns effectively.
- **HR Support:** Supported human resources staff with new hire orientations and monthly departmental meetings, enhancing team integration while managing property operations.
- **Administrative Efficiency:** Processed RFQs and employee timesheets efficiently, contributing to streamlined operations.
- **Customer Service Excellence:** Simplified tenants and customer concerns daily through effective communication, both in person and via telephone.

TECHNICAL PROFICIENCIES

- **Risk Management & Compliance:** Proficient in conducting risk assessments, managing compliance with federal security regulations, and developing policies to mitigate vulnerabilities.
- **Contract Negotiation:** Skilled in negotiating supplier contracts, optimizing pricing, and managing supply chain performance to meet organizational and regulatory requirements.
- **Supply Chain & Procurement Management:** Expertise in managing supply chain logistics, vendor performance, and inventory control to ensure seamless operations and regulatory compliance.
- **Security Operations:** Strong background in managing daily security operations, including information system protection, personnel security, and audit compliance.
- **Data Protection & Intrusion Detection:** Competent in enforcing proprietary information agreements, managing intrusion detection systems, and protecting sensitive data across platforms.
- **Project Management:** Proficient in managing projects involving supply chain, security operations, and regulatory compliance, including risk management, budgeting, and resource allocation.
