

JATIN AGRAWAL

BUSINESS ANALYST

CA, USA | +1(747)-356-1768 | Email: jatinagrawal2504@gmail.com

SUMMARY

Results-driven **Business Analyst with 4+ years of experience** across healthcare, finance, ERP, and CRM domains, combining **strong business analysis expertise** with **advanced data analytics and AI-driven solutions**. Proven success in **SAP FICO S/4HANA** and **Salesforce implementations**, requirements gathering (BRD, FRD, SRS), UAT, stakeholder management, and Agile delivery. Technically proficient in **SQL, Python, Power BI, Tableau**, and cloud platforms (Azure, AWS), with hands-on experience integrating **AI/ML solutions** to automate reporting, forecasting, and decision-making. Adept at translating complex business needs into scalable, high-impact solutions that improve efficiency, reduce costs, and drive strategic outcomes.

PROFESSIONAL EXPERIENCE

Business Analyst Capital One Financial USA	Jun 2024 – Current
- Led SAP FICO S/4HANA implementation from requirements gathering through post-go-live support, reducing financial close cycles by 25%. - Owned end-to-end Business Analysis lifecycle including BRD, FRD, SRS, RTM, and functional specifications for finance and reporting systems. - Conducted process mapping, gap analysis, and future-state design in collaboration with Finance, Accounting, and IT stakeholders. - Configured SAP FI/CO modules including General Ledger, Cost Center Accounting, Internal Orders, Asset Accounting, and Financial Reporting. - Managed data migration, reconciliation, and validation from legacy systems, ensuring audit readiness and regulatory compliance. - Developed test plans, test scripts, and led UAT cycles, defect triage, and production sign-off. - Built Power BI dashboards and SQL-based reports to support executive decision-making and KPI tracking. - Introduced AI-driven analytics and automation (ChatGPT, ML models) to streamline reconciliations and variance analysis, reducing operational costs by 15%. - Partnered with cross-functional teams in an Agile Scrum environment, leading sprint planning, backlog refinement, and stakeholder demos. - Delivered end-user training, SOPs, and system documentation, improving adoption by 35%.	

Business Analyst Hexaware Technology India	Jan 2020 – Aug 2022
- Led Salesforce Sales Cloud implementation for global clients, improving lead conversion rates by 30% through optimized pipeline management. - Performed end-to-end requirements gathering (BRD, FRD, SRS), stakeholder interviews, and workshops to translate business needs into functional solutions. - Conducted process mapping, gap analysis, and future-state design for sales, finance, and operations workflows. - Customized Salesforce Lightning pages, workflows, approval processes, and automation, reducing manual effort by 40% and improving user adoption. - Designed and optimized SQL and Python-based data models to support sales forecasting and performance analytics, improving forecast accuracy. - Managed data migration, cleansing, deduplication, and validation from legacy CRM systems, ensuring 100% data accuracy and compliance. - Built Power BI and Salesforce dashboards to track KPIs, sales performance, customer engagement, and executive reporting. - Integrated Salesforce with external systems (email, marketing automation, enterprise platforms) to enable seamless data flow. - Applied AI-powered predictive analytics to identify high-value customers and sales trends, improving forecasting accuracy by 18%. - Supported UAT planning and execution, defect tracking, and production sign-off with business stakeholders. - Worked in an Agile Scrum environment, supporting sprint planning, backlog refinement, daily stand-ups, and retrospectives using Jira and Confluence.	

TECHNICAL SKILLS

ERP Systems: SAP FICO S/4HANA (FI, CO), SAP MM, SAP SD

CRM Platforms: Salesforce Sales Cloud, Service Cloud, Salesforce Lightning

AI & Automation: AI-driven analytics, RPA, Machine Learning integration

Business Analysis & Documentation: Requirements gathering, Process mapping, Gap analysis, BRD, FRD, SRS, RTM, UAT

Data Management: SQL, Data migration, Data validation, Data visualization

Visualization Tools: Tableau, Power BI, Looker, Google Data Studio

Project Management: Agile methodologies (Scrum, Kanban), Jira, Confluence, ServiceNow, ServiceFirst

Databases: SQL Server, Oracle, MySQL, PostgreSQL, Azure SQL, Snowflake, BigQuery

Tools: Git, GitHub, Microsoft Office Suite (Excel, PowerPoint, Word), Power Pivot, Power View, Power Query

Soft Skills: Critical Thinking, Communication Skills, Presentation Skills, Problem-Solving, Stakeholder Management

EDUCATION

MS in Computer Science California State University, Northridge, USA	May 2024
---	----------

PROJECTS

Healthcare Appointment No-Show Prediction System Built SQL-based pipelines and Python ML models (Logistic Regression, Random Forest) to predict no-shows. Delivered Power BI dashboards for operational decision-making. Supply Chain Delivery Delay Monitoring Dashboard Integrated PostgreSQL, external APIs, and Azure Functions for real-time risk alerts. Customer Support Ticket Text Analytics Platform Applied NLP and LangChain + ChatGPT to summarize tickets and recommend resolutions, improving agent efficiency.
