

Hari Kumar L

DATA ANALYST

Worcester, MA,01610, USA | (609) 323-0940 | harikumar.hk6111@gmail.com| [LinkedIn](#)

SUMMARY

Data Analyst with 4+ years of experience across finance and healthcare domains, proficient in **Python, SQL, Snowflake, dbt, SSIS, Apache Spark, Power BI, Tableau, Power Query**, and **DAX**. Experienced in building ETL pipelines on **AWS Glue, Azure Data Factory, and Redshift**, performing **EDA, predictive modeling**, and **hypothesis testing** using **Pandas, NumPy, Scikit-learn, and TensorFlow**. Skilled in developing interactive dashboards, automated **reporting, KPI monitoring**, and **stakeholder analytics** to deliver actionable insights and support data-driven decision-making.

TECHNICAL SKILLS

Languages:	Python, R, SQL, SAS
Packages/Libraries:	NumPy, Pandas, Matplotlib, Seaborn, ggplot2, SciPy, Scikit-learn
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, XLOOKUP)
IDEs:	Visual Studio Code, PyCharm, Jupyter Notebook
Databases:	MySQL, PostgreSQL, SQL, Oracle, Snowflake, dbt
Cloud Technologies:	AWS, Microsoft Azure
Methodologies:	SDLC, Agile, Waterfall, Predictive Modeling
Version Control:	Git, GitHub
Data Manipulation:	Data Analysis, Data Mining, Data Preprocessing, Data Mapping, Data Cleaning, Data Visualization, Data Modeling, Data Warehousing, Data Storytelling, Data Wrangling, Data Integration, Data Transformation
Other Skills:	SSIS, Machine Learning Algorithms, Probability Distributions, Confidence Intervals, ANOVA, Association Rules, Clustering, Advanced Analytics, ETL Processes, Report Generation, Regression, A/B Testing, Forecasting & Modeling, Hypothesis Testing, Time Series Analysis, Root Cause Analysis

EXPERIENCE

Wells Fargo | Data Analyst | USA

May 2024 – Present

- Built **Python workflows** and used **Scikit-learn** to preprocess financial datasets, improving **credit risk scoring accuracy by 40%** across loans and transaction cohorts for analytics teams.
- Developed **Tableau dashboards** and automated insights with **Jupyter Notebook**, visualizing portfolio performance and credit risk trends for **120+ finance stakeholders**, enhancing strategic and operational decision-making.
- Crafted **PostgreSQL queries** and optimized **Redshift storage** to integrate heterogeneous financial datasets, achieving **26% faster retrieval**, improving analytics efficiency and reporting accuracy for finance teams.
- Conducted **Hypothesis Testing** on **15,000+ transactions** using Python; managed model versions in **Git** to ensure reproducibility, transparency, and reliable insights for risk management reporting.
- Performed **data cleaning and ETL automation** using **SSIS**, resolving **28% of quality issues**, enabling accurate financial reporting and standardized datasets for portfolio and risk analytics.
- Transformed financial datasets using **Power Query** and **DAX** to build interactive dashboards, enabling stakeholders to track KPIs, identify trends, and make data-driven portfolio and risk decisions.
- Partnered with **finance and risk teams** to translate complex datasets into actionable analytics, producing reports that optimized loan performance, reduced portfolio risk, and informed strategic decisions.

Capgemini | Data Analyst | India

Jan 2020 - Jul 2022

- Executed **SQL** to engineer patient-level features, improving extraction efficiency by 34% across **2.1M clinical records**; enhanced risk stratification using **TensorFlow** by training predictive models for patient readmissions.
- Developed **Power BI dashboards** to visualize patient care pathways, improving review efficiency by 31%; strengthened operational compliance using **Advanced Excel**, structuring KPIs to support clinical decision-making and hospital evaluations.
- Optimized **PyCharm workflows** to standardize model development, increasing coding consistency across 140+ predictive scripts; advanced patient risk scoring using **Oracle**, consolidating datasets to accelerate clinical insights accessibility.
- Deployed **Azure Data Factory** to automate monitoring pipelines processing **1.8M patient encounters**; enhanced adaptability using **Agile**, coordinating iterative sprints that streamlined analytic delivery for hospital operations teams.
- Engineered **Python scripts** to evaluate patient behavioral and treatment patterns, accelerating feature computation by 32%; strengthened collaboration using **GitHub**, managing workflow versions supporting care quality assessments.
- Conducted **A/B Testing** to assess intervention effectiveness, improving reliability by 27% over 85K patient interactions; enhanced statistical validation using **ANOVA**, informing clinical care adjustments and resource allocation.
- Executed advanced **SQL queries** and **Power BI dashboards** to monitor health outcomes, enabling stakeholders to track metrics, trends, and predictive insights, supporting operational, clinical, and population health decisions.

EDUCATION

Master of Science in Computer Science

Aug 2022 – May 2024

Rivier University, Nashua, NH, USA

Bachelor of Technology in Electronics and Communication

Aug 2017 – June 2021

Jb institute of engineering and technology (JBIET), Hyderabad India

CERTIFICATIONS

- [AWS Certified Cloud Practitioner](#)
